ADDRESS Med-Vet International
13822 West Boulton Blvd.
Mettawa, IL 60045

Dear Friends,

We would like to take this opportunity to thank you for your patronage. We appreciate all of our customers, whether they be current, past or potential customers. If you are considering a purchase from Med-Vet International, please call and speak with one of our friendly and knowledgeable customer service representatives.

Please let us know if you require a product that is not listed in our catalog. Chances are we will be able to obtain it for you at considerable savings over other companies.

At Med-Vet International, we keep our business family on a personal level to better serve your needs. From our family to yours, from our business to yours, thank you for choosing Med-Vet International.

Bill LaPietra,
President

Introducing Petrem™ Sevoflurane

The FIRST FDA approved generic Sevoflurane for veterinary use

SHOPMEDVET.COM is very pleased to announce that we offer the FIRST generic sevoflurane approved by the U.S. Food and Drug Administration's Center for Veterinary Medicine. In addition, it is manufactured right here in the United States by Piramal Healthcare* in Bethlehem, Pennsylvania. Piramal Healthcare is an international company with inhalation anesthetic manufacturing expertise and is one of only three companies worldwide that has approval to market sevoflurane.

In addition to significant savings, a quality product and continued customer service, we are offering a "ZERO HASSLE - ZERO COST" vaporizer program to all customers that are interested in purchasing Petrem™ Sevoflurane. This vaporizer program allows both current sevoflurane users and potential NEW sevoflurane users to have access to brand new Tec-3 style vaporizers at no additional cost.

The NEW Tec-3 style vaporizer comes with a full 10 year warranty! These vaporizers are pre-calibrated, ready for installation and use right out of the box. Additionally, these NEW Tec-3 style vaporizers have the capacity to hold a FULL 250ml bottle of sevoflurane! Previous Tec-3 style vaporizers were only capable of holding 120-140mls. Since a whole 250ml bottle will fit into your new vaporizer, your facility will not have open bottles sitting around eliminating the potential for spills and waste.

The "ZERO HASSLE - ZERO COST" program is a great opportunity for facilities that want to use sevoflurane for the FIRST time! After enrollment in our program you will not need to purchase a vaporizer, buy a bunch of product upfront OR pay for expensive training. By participating in our program your facility will have access to New Vaporizers at No Cost and there are NO large upfront sevoflurane purchase requirements. Your facility will also have access to all of Piramal Healthcare's technical support team and training resources!

If your facility is already using sevoflurane you STILL can benefit from this program! If you are currently purchasing sevoflurane and interested in saving money; just switch to the generic Petrem™ sevoflurane and continue to purchase product, as needed. Your facility will qualify to receive brand new sevoflurane Tec-3 style vaporizers based on your current usage. These new vaporizers can be used to either replace old vaporizers OR expand your clinic so you can add sevoflurane to additional or new surgical areas.

If you are interested in our "ZERO HASSLE - ZERO COST" program and would like more details please contact our customer service department or your local sales representative!

ZERO HASSLE! - ZERO COST!

**MAL-A-KET SHAMPOO**

Mal-A-Ket Shampoo is a unique, pleasant-smelling, antifungal, antibacterial, deodorizing, degreasing shampoo. Contains 1% ketoconazole (antifungal) and 2% chlorhexidine (antimicrobial) with 2% acetic acid. Acetic acid potentiates and stabilizes the ketoconazole and has primary antimicrobial, antifungal properties, as well as excellent degreasing, cleansing and coat-conditioning qualities. This potent combination has a wider antibacterial activity against Gram-negative and Gram-positive organisms.

Vetoryl Capsules

Benefits:

- Improvement may be seen within several weeks
- Available in 10mg, 30 mg or 60 mg tablets (based on weight)

How it works:

Vetoryl contains a drug that controls the adrenal gland's excess production of cortisol, a hormone released into the bloodstream during times of stress.

VETORYL (TRILOSTANE)

Fatal Plus & DEA 222 Form

FATAL-PLUS®

Produces classic euthanasia by sequentially depressing the cerebral cortex, the lungs and the heart.

Action on target organs gives humane euthanasia of unparalleled speed, effectiveness and specificity. Instant unconsciousness is induced with simultaneous collapse of the animal.

Deep pentobarbital anesthesia ensues with blood pressure fall, stoppage of breathing and cerebral death. Cardiac function stops, quickly and irreversibly.

FATAL-PLUS SOLUTION

RXFATAL-PLUS 390mg/ml, 250ml

\$59⁹⁹/btl

← Last Line Completed: Enter only the number of lines used. In the example above, the last line completed would be 3.

Listed below is detailed information to help you in filling out the DEA form 222 for class 2 and 2n drugs. This is only to be used in ordering class 2 and 2n drugs.

- Product will be shipped to the address on the dea license only
- Form 222 can contain no corrections or strike-over marks
- Use the following Med-Vet International address on the request form:
13822 W Boulton Blvd, Mettawa, IL 60045
- Please keep customer copy (blue copy) and mail remaining copies for processing to: **13822 W Boulton Blvd, Mettawa, IL 60045**
- Be sure to refer to the back of the blue copy of your 222 form for complete instructions

Suture and Skin Closure

Monofilament Absorbable Suture

PDO II-MONOFILAMENT ABSORBABLE SUTURE

COMPARE TO
PDSII®

- Excellent Knot Security: Designed for secure knotting
- Smooth Monofilament: Minimizes tissue trauma by allowing easy passage
- Gradual Absorption Rate: Absorbs between 180-220 days after placement
- Excellent Pliability: Makes suturing easier by handling like a braided suture
- Excellent Holding Strength: Retains 50% of tensile strength for up to 6 weeks after procedure

Suture and Skin Closure

Monofyl & Nylon Suture

MONOFYL ABSORBABLE SUTURE

(VET USE ONLY)

- MONOFYL is a monofilament synthetic absorbable surgical suture prepared from a copolymer of glycolide and epsilon-caprolactone. The chemical composition is similar to Ethicon Monocryl.
- MONOFYL retains approximately 50%-60% of its original strength 7 days post implantation. Absorption of MONOFYL absorbable synthetic is essentially complete between 91 and 119 days.

Chromic Gut Suture

CHROMIC GUT SUTURE

- **Extremely Strong:** Very high tensile strength
- **Excellent Knot Security:** Designed to provide secure knotting
- **Excellent Pliability & Flexibility:** Designed to be more pliable & flexible

TAPER POINT NEEDLES

Braunamid Cassette Suture

Suture consists of a large number of fine twisted strands covered by a smooth, seamless, homogeneous polyamide cover. Because of its polyfil construction, Braunamid thread is considerably more flexible than monofil sutures. Knot-pull tensile strength substantially exceeds USP requirements. Knot-holding ability is excellent due to its inner polyfilament structure. Non-capillary. Sterilized. Braunamid meets or exceeds all legal requirements set forth by the U.S. government.

| JOR91SG5 | #5 - 25m | \$111.00/ea |

Braun Catgut Cassette Suture

Manufactured under continuous supervision from selected materials processed to high quality standards. It is accurately gauged and evenly chromed. High knot-pull tensile strength. Good knot-holding ability and exceptionally good handling qualities. Sterilized.

Monosyn

- Absorbable monofilament suture made of glyconate.
- Considered a mid-term suture in regard to absorption as it retains 50 percent of tensile strength up to 14 days.
- Exceptional knot security and knot tensile strength.

- Smooth monofilament for ease of passage through tissue.
- Braided suture "feel"
- Absorbed via hydrolysis
- Violet color for easy identification

When Ordering Specify: A B # # C

A = Needle Angle of Curvature:

H: 1/2-Circle OR D: 3/8-Circle

B = Body Type: R: Round-bodied or

S: Reverse cutting needle

= Needle Length:

Distance along the needle side between its point and its end, in millimeters.

C = Wire Size: S: Heavy body needle

Example: HR26 = 1/2-circle, round-bodied needle 26mm L.

Safil® Suture Jorvet

Safil® is a violet dyed precision-braided and coated synthetic suture made from pure polyglycolic acid.

- Easy handling
- Excellent knotting ability
- Secure knot tying
- High initial tensile strength
- Smooth passage through the tissue

Armed with a new generation of needles "Easyslide" Safil® is degraded by hydrolysis, providing predictable and reliable absorption. Safil maintains 50 percent of its initial tensile strength after 18 days and is fully absorbed after 90 days.

Suture and Skin Closure

Jorvet Hemostatic Ligation Clips/Apliers

Jorvet Titanium Hemostatic Clip

Pure titanium annealed to a malleable consistency providing maximum vessel occlusion and zero memory to prevent tip opening after application. Biologically inert, radiolucent and non-magnetic for use with MRI or related scanning equipment.

Chevron shape provides progressive and encompassing tip-to-tip closure before complete and secure occlusion of tissue or vessel.

Diamond-shaped grooving and interlocking atraumatic teeth design of the clip ensures enhanced security in vessel closure. Striation is composed of small pyramidal heads, similar to tungsten inserts from needle-holders, insuring a firm, multidirectional, non-hurting vessel grip.

Triangular-shaped wire fits perfectly into the custom grooves of our applicators to provide mechanical power during application of the clip. Specially designed surface treatment and annealing provide a secure atraumaticity.

The exclusive small/medium size has been designed to match specific intermediary vessel sizes requested by surgeons. The cartridge is designed with effective clip retention, adhesive cartridge backing, and ergonomic design to insure precise and effortless clip loading.

| JOR86B | 14mm x 3mm, 100 clips/rack. | \$12.00/bx |

LigaFiba Braided Polyethylene Fiber (Material Only) **Jorvet**

Monofilament nylon has been the standard suture material for the lateral suture technique for repair of CCL damage. Newer materials are made of braided polyethylene fiber and offer several advantages over nylon.

- Significantly stronger (up to 15 times)
- Better flex fatigue resistance and abrasion
- Knots tie easier. This makes LigaFiba suture material an ideal material for ligament and tendon repair. Its available packages are:
- LigaFiba suture material only
- Provided with attached cruciate needle and straight needle
- LigaFiba with toggle buttons in bone tunnel procedures in both cruciate and hip repairs

| | | |
|---------|-----------------------------|------------|
| JOR444A | 150 lb test X 500mm length | \$15.00/ea |
| JOR444B | 250lb Test x 600mm sterile | \$17.50/ea |
| JOR444C | 500 lb. test X 600mm length | \$20.00/ea |

LigaFiba ISO Toggle Suture **Jorvet**

A newer technique for extra capsular repair of CCL damage uses a bone tunnel between iso metric point on the femur. A set of small toggles are used instead of passage through the fabella ligament. The LigaFiba is passed through the bone tunnel with an attached straight needle. Step by step guidelines available. The LigaFiba can be readily tied by the toggle button. Step by step guidelines available. The LigaFiba can be readily tied by the toggle button.

| | | |
|---------|--|-------------|
| JOR444F | 250 lb test (dogs up to 50lbs) Bone tunnel use JOR372cx, 2.5mm drill | \$88.00 /ea |
| JOR444G | 500 lb test (dogs over 50lbs) Bone tunnel use JOR372fx, 3.5mm drill | \$96.00 |

LigaFiba Lateral Suture

LigaFiba lateral suture with swaged on needles one end has attached cruciate needle for fabella ligament passage. The other end a straight needle for passing through tibial crest. The LigaFiba ties easily but also can be crimped (require Jorvet fiber crimp instrument JOR710x) and Jorvet fiber crimp JOR448a. Sterile package.

| | | |
|---------|------------------|-------------|
| JOR444E | 500lb w/needles | \$31.50 /ea |
| JOR444D | 20 lb. w/needles | \$31.50 /ea |

Suture and Skin Closure

Skin Staplers

Oasis Skin Stapler

This skin stapler is affordable and simple. Its simplistic design and quality construction provides consistent and reliable performance. It fits comfortably in your hand to enhance control and also reduces surgery time. 35 staples.

- Individually sterile packed in boxes of 6
- Lever action staplers are the most popular design on the market
- Short trigger stroke for ease of use
- Handle design comfortably fits a wide range of hand sizes
- Angled head allows visibility of incision to ensure precise staple placement
- Arrow indicator assists in accurate staple alignment
- Staple count indicator allows you to view staples remaining to help minimize waste
- Quality construction and simple design assure reliable consistent performance.

| | | |
|-----|-------------------------------------|-----------|
| 35R | Regular, 5.4 x 3.6 mm after closure | \$6.95/ea |
| 35W | Wide, 7mm x 4mm after closure | \$6.95/ea |

STERILE

(12+) \$5.95/ea

Surgiclose Skin Stapler

Wound closure with the most economical external stapler just became easier. Over 80 percent of all human surgical wound closures involve the use of skin staplers. In veterinary surgery, less than 10 percent of surgeries utilize skin staplers. Why is there such a wide difference in usage? The use of skin staplers has been limited in veterinary surgery due to the high cost of disposable human skin staplers. The use of sutures with needle packs has been less expensive to close the skin (average cost ranges \$4-\$5). The introduction of the SurgiClose stapling system addresses the specific needs of the veterinary surgeon. Benefits:

- Better apposition of skin edges with better cosmetic results.
- Less reactivity of stainless steel staples
- Significantly faster wound closure
- Ease of learning proper technique.

Features:

- 20-pack staple cartridges cost less than a pack of needle suture, and is a huge savings over conventional throw away skin staples
- Both handle and staples are provided sterile
- Staple cartridges are inserted into the handle and are specially designed to reduce jamming
- Handle can be autoclaved for repeated use
- 20-staple cartridge sufficiently closes a 4"-5" incision
- Closed staple shaped squarely, restricting movement or rolling of a staple

| | | |
|-------|------------------------|------------|
| SC02H | Low Temp Autoclavable | \$4.99 /ea |
| SC03H | High Temp Autoclavable | \$7.99 /ea |
| SC36C | 6 Cartridges | \$33.99/ea |

Surgi-Close (Staple Handle)

Staple handle requires cleaning and sterilizing between uses, but there is no longer the need to lubricate the former between uses. Each staple is lubricated with a coating of USP Sodium Stearate for easy penetration, reducing forming force and release from the former. Staple handle packaged in sterile pouch from a dispensing box.

| | | |
|--------|--------------|-------------|
| JOR799 | Sterile, 6pk | \$78.00 /pk |
|--------|--------------|-------------|

Surgi-Close Stapler (Staples)

Staples are now lubricated with USP Sodium Stearate to promote easier forming taking less force and quicker release without the necessity to lubricate the handle between uses. This takes the hassle out of using cost effective stapling for wound closure. Staples are packaged in a sterile pouch from a dispensing box.

| | | |
|---------|-------------------------------------|--------------|
| JOR800 | 20/pk Cartridge, 36 Cartridges/box. | \$215.00 /ea |

Nipro Luer Adapter (Multi-Sample)

NIPRO Luer Adapter Designed for optimum efficiency: Luer Adapter allows for multiple draws with a single venipuncture. Accommodates needles sizes ranging from 23G to 19G to meet a wide spectrum of patient needs Dual capability permits use for either blood collection or a venous injection. Proprietary back end needle design facilitates smooth penetration of rubber tube stopper.

| | | |
|-------|-----------------------------------|------------|
| LM20G | Luer Adapter Multi-Sample, 100/Bx | \$14.50/bx |
|-------|-----------------------------------|------------|

Blood Collection Needle

- Multiple-Draw needle design provides the convenience of several sample collections with a single venipuncture.
- Needle is ultra-sharp and with smooth edges for atraumatic insertion and easy penetration.
- Color-coded hubs assure accurate and convenient gauge size identification.

Ferromatic Automatic Syringe

Unique design has dosage adjustments from .5ml to 5.0ml. Fits bottle tops from 30ml-120ml.

Features:

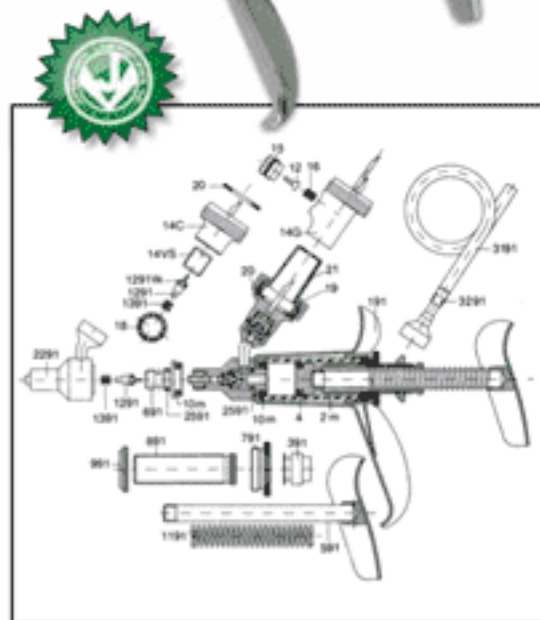

- One-piece front end with luer lock
- A valve accessory allowing user to adapt the syringe for use with a collapsible bottle (part #14c optional)
- Tubing and attachment to allow draw offs from bottles (optional)
- New plastic valve system to prevent valve "swelling"

Syringes & Needles

Vetamatic & Henke Drench-Matic Syringes

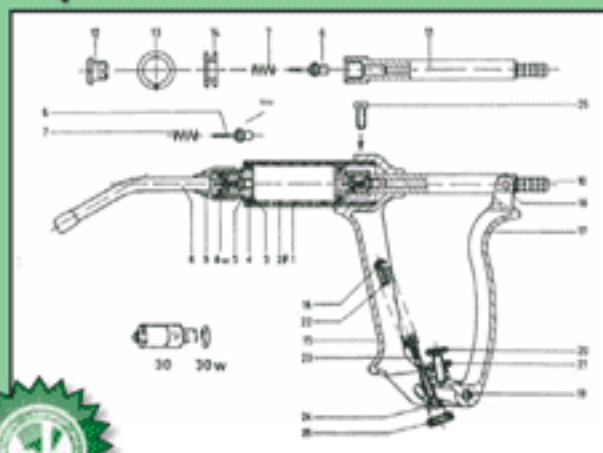

Henke Drench-Matic 23cc **Jorvet**

An automatic syringe for administration of solutions and suspensions. Its transparent plastic graduated barrel allows instant check of dosage setting. An "anti-block" valve system prevents blocking, so that smooth continuous operation is guaranteed. Easily adjusts from 0-23ml in 2.5ml increments. Special hardened enamel painting provides both aesthetics and durability.

JOR128M Drench-Matic Syringe complete with container. \$160.00

Syringes & Needles

JorVet Biopsy Needles

Franseen Style Biopsy Needle

Used to obtain core biopsy specimens for histology and impression smears. Attaches to standard syringe for aspiration. Cannula point design suitable for cutting difficult lesions. Also available in echogenic (ultrasound) tips. Sterile. Not autoclavable.

| | | |
|---------|------------------------------|------------|
| JOR526 | Unmarked Needle. 18g x 9cm.t | \$19.80/ea |
| JOR526B | Unmarked Needle. 20g x 9cm. | \$15.30/ea |
| JOR526C | Unmarked Needle. 22g x 15cm. | \$15.30/ea |

Franseen Style Biopsy Needle (Ultra Sound)

Used to obtain core biopsy specimens for histology and impression smears. Attaches to standard syringe for aspiration. Cannula point design suitable for cutting difficult lesions. Also available in echogenic (ultrasound) tips. Sterile. Not autoclavable. 

| | | |
|----------|----------------------------|------------|
| JOR526EA | Marked Needle. 18g x 15cm. | \$16.50/ea |
| JOR526EC | Marked Needle. 20g x 15cm. | \$22.50/ea |

Soft-Tissue Biopsy Needle

Long enough to reach any biopsy site. 1mm x 20mm specimen chamber.

| | | |
|--------|----------------------|------------|
| JOR118 | 14g x 41/2" L shaft. | \$21.00/ea |
|--------|----------------------|------------|

Rosenthal Bone Biopsy Needle

For use in bone marrow biopsy. Containing large spool luer lock hub, sharp pointed cannula and fitted stylet with matched bevel point. Autoclavable. 

| | | |
|----------|-------------------------------|------------|
| JOR116RA | Sterile, 12/pkg 18g x 1" | \$63.00/ea |
| JOR116RB | Sterile, 12/pkg 16g x 1 5/16" | \$63.00/ea |

Vin-Silverman Biopsy Needle

For use in bone marrow biopsy. Containing large spool luer lock hub, sharp pointed cannula and fitted stylet with matched bevel point. Autoclavable. 

| | | |
|----------|-------------------------------|-------------|
| JOR116VS | 14g x 2 3/8", Sterile, 12/pkg | \$194.00/ea |
|----------|-------------------------------|-------------|

FUS Needle

21g olive tipped needles are perfect for flushing of the small male feline urethra in cases of obstructive FLUTD. The blunt tip prevents trauma to the sensitive urethral lining. Rather than forcing struvite plugs back into the bladder with saline, it is suggested that JOR153w Walpole's solution is infused to dissolve away any crystal formation. Then a JOR153 series Jackson catheter is inserted to ensure urethral patency. Luer mount fits any syringe. Stainless steel. Autoclavable. Individually packaged.

| | | |
|---------|--------------|------------|
| JOR153C | 21g x 1/2" | \$18.00/ea |
| JOR153D | 21g x 1" | \$18.00/ea |
| JOR153E | 21g x 1 1/2" | \$18.00/ea |

True Cut Style Biopsy Needle

Long enough to reach any biopsy site. 1mm x 20mm specimen chamber. 

| | | |
|---------|------------------|------------|
| JOR118A | 18g x 10cm (4"). | \$21.60/ea |
| JOR118B | 18g x 10cm (4"). | \$21.60/ea |
| JOR118C | 18g x 10cm (4"). | \$21.60/ea |
| JOR118D | 18g x 10cm (4"). | \$25.50/ea |

Super Core Biopsy Needle

Sterile. Not autoclavable.

Features:

- Spring activated single handle operation
- Ideal lightweight design
- Echogenic tip for ultrasound visualization
- 20mm specimen notch
- Marked with cm graduations

| | | |
|---------|------------|------------|
| JOR528 | 14g x 9cm | \$36.00/ea |
| JOR528A | 16g x 9cm | \$36.00/ea |
| JOR528B | 16g x 15cm | \$36.00/ea |
| JOR528C | 18g x 9cm | \$36.00/ea |

Osty Core Bone Biopsy Needle

For taking core samples of bone (i.e. suspected osteosarcoma). Sterile. Not autoclavable. NOTE: Not for bone marrow aspirates.

| | | |
|---------|-------------------|------------|
| JOR116C | 16g x 7.5cm (3"). | \$55.50/ea |
|---------|-------------------|------------|

Syringes & Needles

Jorvet Needles

Chiba Style Biopsy Needle (Unmarked Needle)

General purpose aspiration biopsy needle. Short bevel removes sample from controlled area. Attaches to standard syringe. Small sizes for fine needle aspirates. Echogenic enhanced tip (ultrasound) available. Sterile. Not autoclavable. **Jorvet**

| | | |
|----------|------------------|------------|
| JOR527 | 18g x 9cm | \$12.60/ea |
| JOR527A | 18g x 15cm | \$12.75/ea |
| JOR527AB | 18g x 20cm, (8") | \$13.20/ea |
| JOR527B | 20g x 9cm | \$14.40/ea |
| JOR527D | 22g x 9cm | \$11.25/ea |
| JOR527E | 22g x 15cm | \$14.40/ea |

Chiba Ultrasound Biopsy Needle, Echogenic Enhanced Tip (Ultrasound)

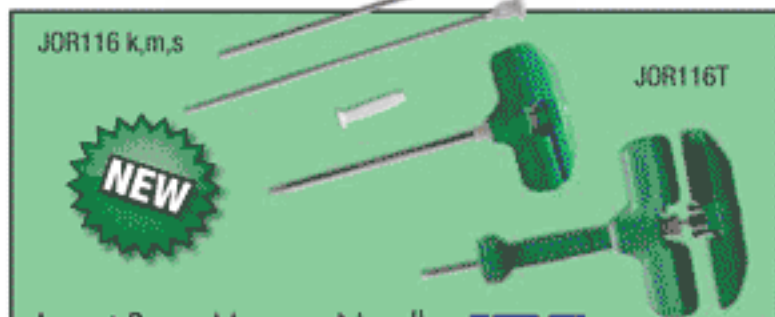

General purpose aspiration biopsy needle. Short bevel removes sample from controlled area. Attaches to standard syringe. Small sizes for fine needle aspirates. Echogenic enhanced tip (ultrasound) available. Sterile. Not autoclavable.

| | | |
|----------|------------|------------|
| JOR527EA | 18g x 15cm | \$14.40/ea |
| JOR527EB | 20g x 9cm | \$13.50/ea |
| JOR527EC | 20g x 15cm | \$15.75/ea |
| JOR527ED | 22g x 9cm | \$13.50/ea |

Jorvet Lateral Flow Vented Needle

| | | |
|--------|--------|------------|
| JOR593 | 10/pkg | \$10.50/ea |
|--------|--------|------------|

Jorvet Bone Marrow Needle **Jorvet**

Large hand grip for increased torque. Adjustable depth stop from 3/8" to 1 7/8" shaft. Luer lock syringe attachment. Similar to Jamshidi style. Can also be used for intraosseous fluid administration. Sterile. Green. Not autoclavable.

| | | |
|---------|-----------------------|------------|
| JOR116T | 16 gauge, regular tip | \$21.00/ea |
|---------|-----------------------|------------|

Bone Marrow Biopsy/Aspiration

These bone marrow needles allow for an actual biopsy versus the aspiration other needles provide. A special reamer is included to allow retrieval of actual tissue sample. Notice the difference in tip design, a double-side diamond. Not autoclavable. Sterile. **Jorvet**

| | | |
|---------|--------------------------------|------------|
| JOR116K | 8g x 4" | \$40.50/ea |
| JOR116M | 11g x 4" | \$40.50/ea |
| JOR116S | 13g x 4" (reamer not included) | \$30.00/ea |

Jorvet Spinal Needles

Spinal Needle. General purpose aspiration biopsies and drainage procedures. Matched ground bevel eliminates possibility of tissue coring. Attaches to standard luer fitting. Available with echogenic enhanced tip (ultra-sound). Not autoclavable. Sterile.

| | | |
|---------|-------------------------------------|------------|
| JOR529A | Unmarked Needle, 18g x 15cm (6") | \$10.50/ea |
| JOR529B | Unmarked Needle, 20g x 9cm (3 3/4") | \$10.50/ea |
| JOR529C | Unmarked Needle, 20g x 15cm (6") | \$10.50/ea |

| | | |
|----------|---|------------|
| JOR529EB | Echogenic Tip.w/ultrasound tip, 20g x 9cm (33/4") | \$12.30/ea |
| JOR529ED | Echogenic Tip.w/ultrasound tip, 22g x 9cm | \$15.00/ea |

Irrivet Wound Irrigation Syringe Kit

IRRIVET is a unique, spring-loaded, self-refilling system that quickly and easily irrigates contaminated wounds. Simple, one-hand, thumb-controlled pressure provides a forceful 7.6 psi stream directly to the desired area (or a gentler stream if needed). The soft flexible tip has an inside diameter equivalent to an 18-19 gauge needle. The soft, flexible 23/4" tip eliminates needlesticks for the user and minimizes trauma to the patient. Tip length can be trimmed. Concave Splitter-Gard™ prevents contamination from body secretions. The 6" tubing attaches to a standard IV bag.

| | | |
|--------|------------|------------|
| JOR754 | 2 3/4" tip | \$22.80/ea |
|--------|------------|------------|

Intraosseous Infusion Needle

Intraosseous infusion is an excellent option when vascular access is difficult. Fluids and most IV drugs can be administered in this fashion. This method is mainly used in small animals and birds where blood vessels are small to begin with. The most common site of placement is the proximal femur. The point of entry for the canula is the trochanteric fossa. This method is for short time use and an IV catheter should be placed as soon as possible.

| | | |
|---------|-----------------------------|------------|
| JOR116Q | Sterile, 12/pkg 18g x 3.5cm | \$19.80/ea |
|---------|-----------------------------|------------|

Blunt End Needle, Jorgensen

Without olive tip. Stainless steel shaft and luer lock fitting.

| | | |
|----------|------------------|------------|
| JOR156D | 23g x 1" (2.5cm) | \$9.00/ea |
| JOR156DS | 30g x 1" (2.5cm) | \$13.20/ea |

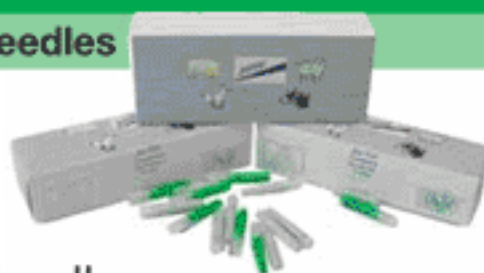

Special tip for easy insertion into lacrimal duct. Luer mount fits any syringe. Olive tip. Stainless steel.

| | | |
|----------|------------------------|------------|
| JOR156DC | blunt tip, 23g, curved | \$12.00/ea |
|----------|------------------------|------------|

Syringes & Needles

| JOR177C | Loopuyt's Needle #5, dozen | \$25.50/dz |

8 Blunt 19g Needles

The anal sac excision kit employs a hot liquefied gel injected in to the sac. The gel is in a 2ml cartridge that is first boiled to a liquid and loaded in a specially designed syringe. Then, via a 19g blunt needle, is injected into each anal sac. The gel then hardens and gives the sac a readily defined and easily dissected shape for quick removal.

| JOR101D3 | \$11.70/pk |
|----------|------------|

Double End Transfer Needle

Double ended transfer needle. One end is a 1/2" 17g needle and the other end is a 1" x 19g needle. Sterile. The best choice for rehydrating solutions.

JOR173S Sterile, 12/pkg.

\$21.25/dz

Transfer Needle Double Pointed

Double Pointed

JOR173 Stainless steel, 16g x 1 1/4", 12/pkg.

\$39.00/dz

Transfer Needle

has a concave metal plate where the finger can steady the transfer needle during mixing. Stainless steel, 14g x 3". Packaged in plastic vial.

JOR173T Sterile, 12/pkg

\$0.80/pk

Lacrimal Needle

Special tip for easy insertion into lacrimal duct. Luer mount fits any syringe. Olive tip. Stainless steel.

| | | |

HI-TECH GERMAN SURGICAL INSTRUMENTS

LIFETIME WARRANTY

We guarantee every HI-TECH surgical instrument to be free of functional defects in workmanship and materials. HI-TECH promises to repair or replace, free of charge, any surgical instrument that does not meet these requirements when used for their intended surgical purpose.

HI-TECH promises to repair instruments that have been abused or subjected to abnormal use for a small surcharge.

Warranty Applies to Hi-Tech German Instruments only not Jorgensen German Instruments

CARE AND HANDLING

With proper care and handling, HI-TECH instruments will last for years. Please use these guidelines for all HI-TECH stainless steel instruments.

- Brand new instruments should be cleaned prior to first sterilization.
- Contaminated instruments should be processed as soon as possible.
- Stubborn protein particles can be removed with a scrub brush. Never use steel wool, abrasives or an acid rinse.
- Open joints on instruments prior to preparation
- Do not use multipurpose detergents to wash or soak instruments. Instead, use a low-suds detergent specifically designed for instruments. (re-order #LSD) The pH of the product should never be higher than 8.
- When using ultrasonics, a detergent with a pH of either 6, 7 or 8 must be used.
- Lubrication is vital to a long instrument life. We recommend a water soluble instrument milk (re-order #ILG)
- Avoid silicone lubricants because they tend to build up and mix with debris to clog moving parts, which becomes almost impossible to remove.
- Debris buildup can have a "rust-like" appearance.
- Rinse your cleaned instruments in demineralized water. Be sure to remove all residual cleaning compounds before sterilization, as they can cause stains.
- Dry the instrument thoroughly after rinsing.

INSTRUMENT CHECK-UP

The best time to check your instruments is after they have been cleaned, lubricated, and have cooled off.

Please check the following:

1. FUNCTION:

Splitters, nippers and scissors must cut cleanly (resharpen if needed) and close properly.

Needle holders and clamps must engage properly and meet correctly at the tips.

Instruments which have been dropped or otherwise damaged should be inspected carefully for cracking, bent tips or breakage.

2. SURFACE:

Inspect the surface for any signs of staining or other irregularity. If you find any staining, investigate the source and avoid it in the future.

SOME COMMON SOURCES OF STAINING ARE:

Inadequate cleaning, mixing dissimilar metals, water impurities, unsuitable or improper preparation and usage of cleaning and disinfecting or maintenance agents, Non-Compliance with operating procedures of cleaning and sterilizing equipment.

Storage

Allow instruments to dry thoroughly before storing them in a clean, dry environment. Never store them in an area where chemicals may emit corrosive vapors or where temperature and moisture variations may cause condensation on the instruments.

Quick Checklist

1. Rinse soiled instruments immediately. Thoroughly clean before autoclaving.
2. Autoclave and sterilize instruments in an open position.
3. Do not pile up or entangle instruments.
4. Follow the recommendations of the equipment and solution manufacturers.
5. Keep instruments properly lubricated.
6. Inspect instruments regularly.

Instrument Care & Protection Guide

The high grade instruments you own represent a considerable investment. The following guide will help you protect this investment and should enable you to receive many years of use from your instruments. All Hi-Tech German, stainless steel, surgical instruments are made of corrosion resistant, high grade, specialty steels which can meet the varying requirements of cutting, clamping, retracting, chiselling, etc. One of the special characteristics of these steels is that they form passive layers on the surface which protects against corrosion. These layers can be thought of as an invisible patina. With repeated use and exposure to the air, this oxidation process continues, making the instrument even more corrosion resistant with proper maintenance. However, a word of caution is in order: While every effort is made in the manufacturing process to make the instruments corrosion resistant, you must do your part by treating them properly. If not, the steel can rust or stain, reducing the life of the instrument or even rendering it useless. In a sense, the word "stainless" is a misnomer and should not be taken literally. Later in this guide we will discuss the most common problems encountered with instrument maintenance.

Proper Usage

Instruments are designed for a particular purpose and they should be used for only that purpose. It is important to choose the proper instrument for the task to be accomplished. For instance, a nail splitter should not be used to cut wire.

Water

Because tap water contains many minerals which may cause discoloration and staining, we recommend the use of distilled water for cleaning, disinfecting, sterilizing and rinsing instruments. To avoid staining, use a cleaning solution with a pH near neutral (7). If you do use tap water for rinsing, please make sure you dry the instrument thoroughly to avoid stains.

Brand New Instruments

Newly purchased instruments must be cleaned, lubricated and autoclaved before use.

Manual Cleaning

When handling instruments be very careful not to damage their fine tip and mechanisms. If instruments have been exposed to blood, tissue, saline or other foreign matter, you must rinse them in warm (not hot) water before these substances are allowed to dry. After rinsing, immerse them in a cleaning solution. A number of compounds, such as certain chemicals, are highly corrosive to stainless steel. To be on the safe side, rinse and dry instruments immediately in case they have come in contact with any potentially harmful substances. If no ultrasonic cleaner is available, clean the instrument very carefully. Pay particular attention when cleaning the boxlocks, serrations, hinges and all other hard to reach areas. Use nylon (not steel) brushes (such as a toothbrush), and warm (not hot) cleaning solutions.

Follow the manufacturer's instruction for preparation of cleaning solutions. Change these solutions daily!

Ultrasonic Cleaning

This is by far the most effective and most efficient way to clean your instruments. Follow the manufacturer's recommendation for mixing the solution and the duration of the cleaning cycle.

Before putting soiled instruments into an ultrasonic cleaner, we recommend that they be cleaned in a cleaning solution, of all visible debris clinging to them.

Please observe the following:

1. Do not mix dissimilar metals (like chrome and stainless) in the same cycle.
2. Open all instruments so ratchets and boxlocks are accessible.
3. When loading, avoid piling instruments on top of each other. This could damage delicate instruments.
4. After the cycle is finished, remove the instruments, rinse and dry them off immediately.
5. Also allow them to air dry thoroughly.

Lubrication and Autoclaving

Remember, autoclaving is no substitute for cleaning. If the instruments are not thoroughly cleaned beforehand, irreparable damage may occur during the autoclaving process. Before autoclaving, lubricate all instruments with moving parts, such as boxlocks and hinges. Use instrument milk or surgical lubricants, not industrial oils. Always sterilize instruments in an open or unlocked position. DO NOT overload the chamber and be sure to stack the instruments carefully so no damage occurs to the delicate instruments.

It is recommended that the instruments be wrapped in cloth inside the container or that a cloth be placed on the bottom of the pan to absorb moisture. The cloth should be pH (7) neutral and have no residue of detergents. During and after the drying cycle, avoid cooling the instrument suddenly. This can happen when a rush of cold air enters the autoclave chamber or when the hot instruments are placed on a cool, metal surface. If this happens, condensation can occur which may result in the staining of the instruments.

Cold Sterilization and Disinfection

Prolonged immersion in disinfection or sterilization solution can be detrimental to surgical instruments. We recommend that you do not immerse the instruments longer than twenty minutes. To render the instruments sterile and ready for use, we recommend the use of an autoclave cycle. This saves time and is more gentle to the instruments. Rinse and dry instruments thoroughly after disinfection.

GERMAN SPAY PACKS

LIFETIME WARRANTY*

The Canine Spay Pack includes 18 stainless steel instruments. Available in three grades: Economy, Hi-Tech and Integra/Integra/Miltex.

- 1 Mayo Scissors 6 3/4" straight
- 1 #3 Scalpel/Blade Handle
- 1 Snook Hook 8"
- 2 Kelly Hemostat Forceps 5 1/2" curved
- 1 Metzenbaum Scissor, 5 1/2" curved
- 1 Tissue Forceps, 5 1/2", 1 x 2 teeth

Condyle Clamp

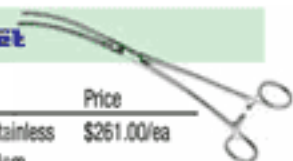

An improvement over the old style rectangular plexi-glass condyle clamp. This triangular, stainless steel, two-sided clamp fits over the humeral condyles and allows greater alignment. A lag screw can be inserted through the hole in the middle of the triangular plate. Reduction may be checked by radiography prior to lag screw fixation. Pressure should be applied proximo-laterally not just purely laterally.

| MILTEX | MIL33-204 | 5-3/4" (14.6 cm), with acne lancet | \$31.34/ea |
| MILTEX | MIL33-206 | 4-1/4" (10.8 cm), with acne lancet | \$24.28/ea |

Modified Stifle Retractor

Jarvet

Designed for medium and large dogs (the group with the highest incidence of meniscal damage), this improved model has longer jaw tips which are self-protecting when the instrument is in the closed position. Once inserted atraumatically into the stifle, distraction exposes the longer tips for maximum grip. The best instrument to examine the caudal horn of the medial meniscus.

The Lone Star Veterinary Retractor System

The Lone Star Veterinary Retractor System consists of two components, the autoclavable plastic ring and the accessory elastic stays. Because of its unique design, the retractor ring easily can be adapted to the patient's anatomy. The elastic stays allow the surgeon flexibility over the amount of tension applied and precise retraction of the incision without obstruction. Prep and drape patient in usual manner, then apply the retractor.

| Vendor | Item# | Details | Price |

Stifle Lever

Examination and management of meniscal injuries is made extremely difficult by the limited access to the medial meniscus during routine approaches. Exposure of the medial meniscus is typically achieved by either use of a stifle distractor or by a Hohman retractor. Hohman retractors are not designed for levering against articular cartilage in that the blade does not "fit" the trochlea. The stifle lever is designed to substitute the Hohman. The caudal surface of the stifle lever is contoured to fit the trochlea of large dogs. The load is dissipated over a large area minimizing trauma. The ring style handle is convenient for retraction by the surgeon using the thumb. The tip atraumatically hooks behind the caudal aspect of the tibial plateau.

| Vendor | Item# | Details | Price |
|------------------|-------|--------------------|------------|
| JORGENSEN | | 9" (225mm) length. | \$61.00/ea |

Stifle Fat Pad Retractor

Jorvet Stifle Retractor

| Vendor | Item# | Price |
|------------------|---------|-------------|
| JORGENSEN | JOR240W | \$210.00/ea |

Jorvet Small Stifle Retractor

The examination of the meniscus and intraarticular structure during anterior cruciate repair is a real necessity. This visualization often is difficult even in the largest of dogs. The stifle retractor allows gentle retraction between the femur and tibia, exposing the entire stifle joint to a thorough exam without damaging the joint surface. Stainless steel.

| Vendor | Item# | Details | Price |
|------------------|----------|---|-------------|
| JORGENSEN | JOR240WA | 6mm profile. The small overlapping tips allow atraumatic entry into small arthrotomies and small stifles. | \$161.00/ea |
| | JOR240WB | Tips differ by the smaller 3mm versus 6mm profile of JOR240wa. (<50 Kg), X-Small | \$158.00/ea |
| | JOR235SA | 6 1/2" (170mm) | \$61.00/ea |

Stifle Distractor w/Spinlock

The working tips on our spinlock are the same as the ratchet version. The spinlock offers more secure distraction as it is less likely to slip. The spinlock also offers an infinite range of position versus the ratchet.

| Vendor | Item# | Details | Price |
|------------------|-----------|---------|-------------|

Orthopedic Distractor

Jorvet

Can be used with ESF Pins 3.2-4.0mm. Distractors are useful instruments for the proper repositioning and compression of long bone fractures. The distractor will hold the bone in anatomical alignment and allow the placement of either bone plates, K-E external fixation devices, or bone screws. The instrument will greatly reduce the amount of manipulation that goes on when trying to maintain alignment during surgery, and allows the surgeons to concentrate their efforts on applying the proper fixation device.

| Vendor | Item# | Details | Price |
|------------------|--------|-----------------------------|-------------|
| JORGENSEN | JOR237 | use with ESF Pins 3.2-4.0mm | \$610.00/ea |

Ameriod Constrictors

For the surgical treatment of porto caval or hepatic shunts. This special designed product is used to encircle a blood vessel. A special material (hygroscopic compressed casein) inside the donut shaped constrictor imbibes fluid over time. It slowly occludes the blood vessel. A small key is used to lock it in place after it is slipped over the blood vessel. Sizing: about a 50% reduction in the blood vessel diameter should be achieved upon initial surgical placement for the best results. Sterile.

Premium Sterile Surgeon Gown (B)

Sterile surgeon gown comes individually wrapped with towel. These gowns are made of a non-woven material that helps provide a barrier to blood, body fluids and pathogens. They offer a high level of protection without compromising comfort. They are cut wider through the chest and sleeves for a roomier fit and feature a velcro-style neck closure that allows the neckline to easily adjust to a wide variety of people. In addition, the velcro-style closure helps prevent gapping in the front of the gown to further protect against fluids. The gowns are very low linting, minimizing the risk of introducing particles into the O.R.

Eclipse Surgical Gown

Aurora Surgical Gown

Aurora Gown, Non-Reinforced: Aurora gowns are made with Suprel medical fabric from DuPont. This innovative fabric is manufactured using a patented process (utilizing 18 patents) to create a fabric that's both highly protective and extremely comfortable. The fabric features an advanced composite technology that utilizes polyester (for strength) combined with polyethylene (for softness). Aurora gowns offer a high level of protection without compromising comfort. Featuring new fabric technology, Aurora raises the bar for single-use O.R. gowns. Aurora gowns have a smooth texture that glides easily without catching or grabbing, giving you incredible freedom of movement. Plus, the gown helps to quickly transfer heat away from your body, keeping you cool and comfortable. For a high level of protection, Aurora gowns are a great choice. The gown's high hydrostatic head offers superior barrier performance. They are cut wider through the chest and sleeves for a roomier fit and feature a velcro-style neck closure that allows the neckline to easily adjust to a wide variety of people. In addition, the velcro-style closure helps prevent gapping in the front of the gown to further protect against fluids. Aurora gowns are very low linting, minimizing the risk of introducing particles into the O.R. Aurora gowns meet the Standard for flammability of Clothing Textiles CPSC 16 CFR Part 1610.

| DYNJP2703 | XX-Large, Sterile with towel 18/case | \$103.60/cs |

Eclipse Surgical Gown

Eclipse Gown, Non-Reinforced: The first feature you will notice about the Eclipse gown is the way it feels. The soft, cloth-like texture says "comfort" as soon as you put it on. Those who spend much of their day in a surgical gown will appreciate the comfort of Eclipse. Eclipse Gowns are cut wider through the chest and sleeves for a roomier fit. The Eclipse gowns feature a velcro-style neck closure that allows the neckline to easily adjust to a wide variety of people. In addition, the velcro-style closure helps prevent gapping in the front of the gown to further help protect against fluids. Eclipse Gowns are made with breathable Softesse medical fabric from DuPont. For more than 25 years, DuPont Softesse medical fabric has been considered an industry standard for medical gowns and drapes. The fabric features advanced material technology that provides a splash resistant barrier that's breathable. It keeps you cool and comfortable while you work, helping you feel confident and in control.

| JOR259S | 34" x 18" sterile | \$9.30/ea |

Jorvet Sontara Drape

Sontara Drape is a popular DuPont product that has a soft cloth like feel. It is fluid repellent, but fluids will strike through with extended exposure. It can be readily autoclaved. Sontara can also be coated with a clear poly film to make it impervious. However the impervious material cannot be autoclaved and is provided sterile.

Surgical and Exam Supplies

Drapes & OR Towels

Disposable Drape **Jorvet**

The original Jorvet drape with the blue, rich cloth-like feel of Sontara fabric packaged in a fan-folded box. 38"W x 100 yds in a blue and red box. Variance may be 36" to 40".

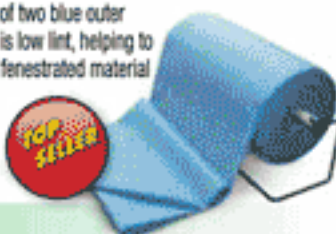

JOR258 38" x 100 yds. \$75.00/ea

Disposable Surgical Drape SMS

This drape is made of SMS non-woven material. Consists of two blue outer layers of SMS and a middle layer of polypropylene. Fabric is low lint, helping to reduce wound contamination. Can be used as a drape, as fenestrated material or as a sterilization wrap. Autoclavable.

SMS40 40" x 100 Yards \$52.00/roll
SMS60 60" x 65 Yards \$52.00/roll

Drape Dispenser

Dispenser also available, for full roll quantities*. Can be desk or wall mounted. *Note: For dispenser to be utilized, you must order the entire roll. Only rolls are shipped with the cores necessary for dispenser use.

H29 24" Each \$21.95/ea

Oversize Pre-cut Sontara Drape

Large oversized drape that is great for equine or large animal use. Folded to open first in the long dimension.

JOR258Q 77" wide x 104" long. Sterile. \$10.00/bx

Extra-Wide Sontara Drape **Jorvet**

On dispensing roll. 60" x 100 yds. 22lbs.

JOR258W 60" x 100 yds. 22lbs. \$97.00/ea

ACT Drape **Jorvet**

DuPont's newer material (Advanced Composite Technology) is gaining popularity for drapes and gowns. It has an embossed pattern and is comparable to SMS material. The plain material can be autoclaved but the impervious drape must be provided in sterilized pouches.

JOR1062A 44" x 55", non-sterile \$3.80/ea
JOR1062B 44" x 55", sterile, tyvek pouch \$4.20/ea
JOR1062C 55" x 77", non-sterile \$4.70/ea
JOR1062D 55" x 77", sterile, tyvek pouch \$4.90/ea
JOR1062E 77" x 104", non-sterile \$7.00/ea
JOR1062F 77" x 104", sterile, tyvek pouch \$7.90/ea

Coated ACT Drape **Jorvet**

JOR1063A 40" x 42", sterile, tyvek pouch \$4.10/ea
JOR1063B 60" x 80", sterile, tyvek pouch \$6.70/ea
JOR1063C 77" x 104", sterile, tyvek pouch \$9.25/ea

Surgery Towel **Jorvet**

Huck-style. General purpose surgery towels. 100 percent cotton. Highly absorbent. Light blue.

JOR257D 17" x 33", 1 dozen \$36.00/dz

Combine Roll

Combine rolls, or composite padding, is a post-operative dressing used when excessive drainage from wounds demands more absorbency. The absorbent cotton, with a center layer of cellulose, has an exterior wrapping of soft non-woven fabric. Non-Sterile 20 yards in length.

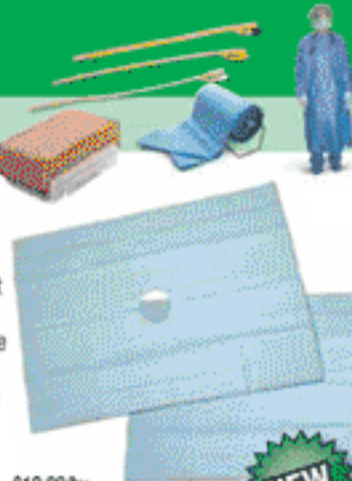

3001 8" x 20 Yards \$17.99/ea
3002 12" x 20 Yards \$29.99/ea

Sterile Surgical Drape

Sterile 3 ply Surgical Drapes are excellent for use during minor surgical procedures. Two layers of absorbent tissue with a polyethylene lining in between help eliminate risk of bacterial migration and moisture strike through. Available in both plain for general use, and fenestrated to allow access to operative site while protecting the surrounding area. Sterile, latex free.

20-001 18" x 26" \$12.99/bx
20-002 18" x 26" 3ply Fenestrated \$14.99/bx

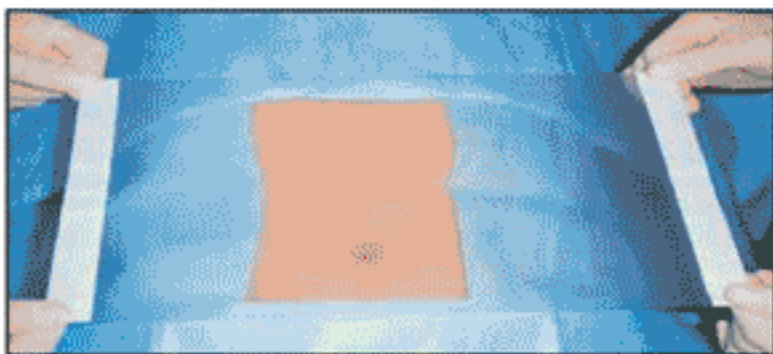

Jorvet Adhesive Surgical Drape w/Povidine

The majority of human surgeries use clear adhesive drape over the incision site. The rest of the patient is draped with standard non-woven disposable drape material. The clear adhesive drape offers several advantages:

1. Transparency—the film is ultra thin and highly transparent, which gives clear observation to the surgical field for locating anatomical landmarks.
2. Antibacterial—impregnated with povidine iodine giving the drape a slight orange tint. Very effective against most skin pathogens.
3. Fluid and pathogen resistance—sterile barrier prevents fluids or pathogens right up to the edge of the incision.
4. Permeable—allows the skin to breathe and vapor to pass.
5. High elasticity—follows natural contours for reliable gap-free adherence.
6. Low sensitivity—no irritation to skin or wound
7. Moderate viscosity—no injury to skin when removing the dressing.

Range of sizes, packaged sterile in sealed pouch

JOR1086A 6" x 8" Sterile, 20/box \$13.90/ea
JOR1086B 8" x 12", Sterile, 30/box \$23.40/ea

New Operating Towels

These new blue towels are made of 100% cotton. They measure 16" x 26" and are reusable. They can be autoclaved. These are top quality towels that will last a long time.

| EJTP-A | Set of 3; Small, Medium, Large | \$63.35/ea |

Multi Arm Positioner

A great positioner or holder for surgery (i.e. arthroscopy) or radiology. Velcro straps securely hold limbs of patients ranging from cats to giant dog breeds.

- Moves in three joints or planes allowing positioning at any angle
- Mounting clamp fixes the device to any surgery or X-ray table
- A single lever locks all three joints rigid
- Additional use — holding endoscopes while performing biopsies, or grasping tissues

| | | |
|---------|---------------------|-------------|
| JOR930 | Single Limb | \$327.00/ea |
| JOR930A | Double limb bracket | \$222.00/ea |

Stifle Positioner

Developed in association with Professor Kurt Schulz of UC Davis Veterinary School, this attachment is especially designed for maintaining the stifle joint in proper position for an arthroscopy procedure. It is positioned above the stifle on the distal third of femur. Adjustment of positioner under draping is very simple.

| | | |
|---------|-----------------|-------------|
| JOR930X | Attachment only | \$320.00/ea |
|---------|-----------------|-------------|

Tomcat Positioner

Great positioner for restraining male cats and exposure of perineal area. Good for working with urethral obstructions and for neutering. No tie-downs or other assistance necessary. Lightweight and adjustable.

| | |
|---------|------------|
| JOR279T | \$39.00/ea |
|---------|------------|

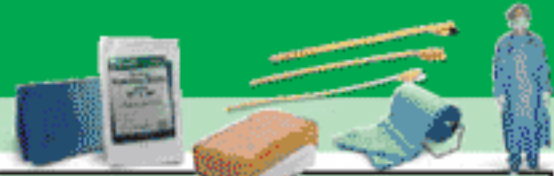

Surgical and Exam Supplies

Catheters

Foley Catheter

An innovative manufacturing process provides the maximum amount of silicone coating available. Latex catheter is coated internally and externally in 100% silicone to resist encrustation and bacterial colonization. 2-way Foley. Sterile.

Foley Latex Catheter

Equine Use. Excellent for uterine flushes. Sterile. **Jorvet**

| | | |
|---------|------------------------------|------------|
| JOR447Q | 26fr x 16" with 30cc balloon | \$9.75/ea |
| JOR447R | 30fr x 16" with 30cc balloon | \$10.05/ea |

Silicone-coated amber latex Foley catheter. 2-way with opposed lateral eyes at tip. Sterile.
 JOR447S 6fr x 12" with 3cc balloon \$15.15/ea

Adapter Male Luer/Male Catheter

Male Luer Lock Connector with male is barbed on a Christmas tree connector. Also fits in a suction hose. **Jorvet**

JOR599 \$7.65/pk

Female Luer to Male Catheter

JOR597 5 pk \$16.50/pk **Jorvet**

Chambers Catheter

Stainless steel with slightly curved tip. Finger rest, luer slip adaptor. The preferred instrument for flushing the guttural pouch. Also can be used for uterine flushes.

JOR27G 8g, 22"L \$37.50/ea

Surgical Skin Marker w/Ruler

These surgical skin markers are routinely used in human cosmetic surgery. The special ink allows for ready identification of anatomical landmarks to be done before surgery. The markers come sterile and each have their own flexible metric and inches ruler. Color works on all ranges of pigmented skin. For best results, remove oil from the skin using alcohol before marking. 2/pk each in an individual sterile package.

JOR435 Sterile 2pk \$4.95/pk

Pezzar Catheter

Great for PEG feeding tubes. Mushroom tip assists in catheter retention, with 2cm and 4cm markings from tip's base to aid in proper catheter placement.

- Mushroom tip
- Soft silicone. 36 cm

Silicone Acute Peritoneal Dialysis Catheter

In an emergency situation where peritoneal dialysis needs to be performed, this catheter is invaluable. The distal tip has a number of fenestrations for widespread drainage, plus is covered by a loose fitting dacron mesh that helps avoid obstructing these fenestrations. Sterile.

| Item# | Details | Price |
|--------|--|---------|
| JOR988 | 15fr (5mm) x 80cm. Distal portion is 16mm O.D. | \$78.25 |

Broncho Alveolar Lavage Catheter

This catheter is designed to perform lavage on upper rear section of the equine lung. It's main use is for the detection of "Bleeders" or exercise induced pulmonary hemorrhage. The BAL catheter can also be used for cytology or culturing the airways. The catheter is inserted nasally. The cuff inflated when in position. A 3-way stop cock is used for administration and aspiration of fluid. The stiffness of the catheter makes for ease of passage.

JOR639 30fr (10mm) x 240cm L, 10cc cuff \$48.00/ea **Jorvet**

Jorvet Suction Catheter

These catheters are used when regular suction handles are too large. One end will fit on a standard suction hose. A vent on the catheter allows for on/off suction control. 5 per package.

Top Quality - Sterile Suction Tubing

JOR488 1/4" I.D. x 6'. Sterile. 1/pkg. \$3.60/ea
 JOR488L 1/4" I.D. x 12'. Sterile. 1/pkg. \$4.20/ea

Suction Canister

Unlike liner systems, these canisters are rigid so there are no hidden dangers, no extra parts to clean, no potential for puncturing and no disassembly required. Plus, they're disposable. Your staff can throw away the whole canister after each case. There's no cleaning, substantially reducing the risk of infection. Hard canisters are easier to set up and easier to change out. Over time, they will save you time and money. And because the suction is better, applications get the maximum vacuum required.

SC800 800cc \$3.50/ea

Suction Canister

JOR459D1A 1200cc \$17.25/ea
 JOR459D1 800cc \$11.10/ea

Pool Suction Handle

Distal 1/3 end is vented with many holes. Fits standard suction hose. Screws apart for easy cleaning. Stainless steel.

JOR489P Metal, 8mm dia. 22cm L. \$34.50/ea
 JOR489PS Plastic \$5.70/ea

Jorvet Aspiration Suction Unit

This portable unit will provide powerful suction via an aspirator pump motor. Intraoperative suction of blood or body fluids. Attach to endoscope to keep field of vision clear or sample collection.

Features:

- Aspiration range 0-27" Hg
- Powerful 1/5 hp motor, most other units have only 1/10 hp
- Compact 14" L x 5 1/2" W x 10 1/2" H (35cm x 14cm x 26cm)
- In-line hydrophobic filter protects motor
- 800cc Storage canister
- Lightweight. 12.4 lbs.
- Five-year warranty

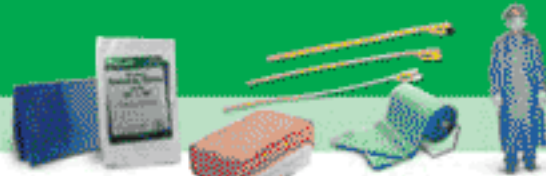

JOR459 14"L x 5 1/2"W x 10 1/2"H \$390.00/ea

Lamps/Lights, Cautery Pens/Units

Surgical Head Lamp

Jorvet

Veterinarians often have a need for additional extra light during many procedures from surgery to oral exams. This inexpensive headlight provides hands free adjustable light-when and where you want it.

- Adjusts easily to all sizes
- Padded brim for comfort
- Battery operated (3 AAA included), no cords or wires
- LED bright light lasts thousands of hours
- LED light is adjustable to get light where you want it

JOR1036 LED Headlight with Batteries \$125.00/ea

Optimal Headlamp Magnifying Lens

Attaches to JOR1036 (sold separately) just below light.

- JOR1036D4 Magnifying Lens 2.75 x Working Distance 6" \$49.00/ea
- JOR1036D3 Magnifying Lens 2.25 x Working Distance 8" \$49.00/ea
- JOR1036D2 Magnifying Lens 1.75 x Working Distance 14" \$49.00/ea
- JOR1036D1 Magnifying Lens 1.50 x Working Distance 20" \$49.00/ea

Jorvet Halogen Penlight

The Jorvet Penlight with halogen bulb offers 400 percent more candle power than standard penlights.

JOR114BH Uses two "AA" batteries, included. \$33.00

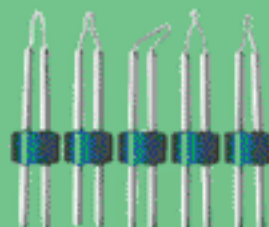

Jorvet

Jorvet Thermal Cautery Unit

The TCU provides all the cautery power necessary for treating the numerous minor surgical conditions seen by veterinarians in everyday practice. The cautery unit is ideal for dermatological and ophthalmologic applications, or any procedure that requires accurate hemostasis. The autoclavable handpiece with six-foot cord accepts an assortment of reusable thermal cautery electrodes, allowing maximum flexibility to perform a wide variety of procedures. Unit comes with 3 tips.

Other benefits include:

- No aberrant radio frequency currents to cause
- Unintended tissue damage or shock.
- Unlike disposable battery powered cauteries, the TCU maintains the desired temperature during tissue contact and does not rapidly diminish.
- 50" (12.7cm) D x 5" (12.7cm) W x 8"
- (20.3cm) H, 4 lbs. (1.8kg)
- Warranty: 1 year

Vet Use

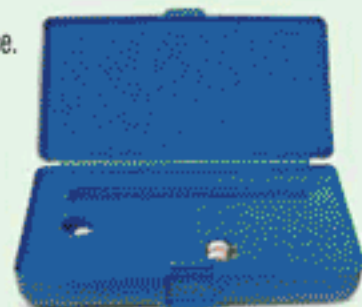

Cordless Cautery Convenient Kit

Features:

Hand piece uses two AA batteries (included)

- (4) Replaceable cautery tips:
- (2) 1/2" Fine electrode, useful for hemostasis control
- (2) 1/2" Loop electrode for wide use, such as small skin tumors
- Delivers high temp up to 2250° F
- All tips fit easily into the hand piece.

Electricosurgical Units & Accessories

Bovie 2250 Digital Electrosurge Generator

A more powerful unit is needed when doing specialized endoscopy procedures like OHE's or spays. This unit will work well with Richard Wolf's Powerblade and other brands of bipolar endoscopy equipment. The increased power is the cut format: 200 watts, fulguration: 80 watts, bipolar: 80 watts. Uses the same JOR484 3/32" tips shown on the following page. 12.3"W x 16.30 x 6"H. Accessories included:

- Two disp hand pieces (JOR484mdla)
- Autoclavable hand piece (JOR484mdlc)
- Reusable body or ground plate
- Five different electrodes
- Two Electrodes - standard needle (JOR484ad4*)
- x Three Electrodes - standard blade. (JOR484ad5)*Two-year warranty Optional Item: JOR484ad1 Bipolar Foot Switch

JOR484X **Jorvet** \$5,520.00/ea
 JOR484TA Table Top Stand \$77.00/ea

Deluxe 1250 Bovie Electrosurgical Unit

This is a top-of-the-line Electro surgical unit made by the original Bovie Company. They first invented the Electro surgical unit in the 1920s. The complete table top unit is fitted with veterinary specific equipment. Five modes: cutting, cutting/coagulation, coagulation, fulguration, bipolar. User has option of handpiece finger switch or foot control. Rotary dial operates power; shown in 1 watt increments via LED readout

- Reusable body pad (ground plate)
- Built-in bipolar (requires optional foot pedal)
- Five 3/32" electrodes; interchangeable with other same size brands
- 10 1/4"W x 5 1/2"H x 10"D, 14 lbs.
- U.L. approved Accessories included:
- Two Disposable Handpieces (JOR484md1a)
- Autoclavable Handpiece (JOR484md1c).

JOR484M NOTE: Bipolar forceps and cord sold separately. \$3,550.00/ea
 Must purchase foot pedal switch for bipolar.
 JOR484M99 Foot pedal for bipolar applications.
 JOR484MV 220V \$3,430.00/ea

 RXVERRUICA starter kit: 60-70 freezes with \$275.00/pk
 cones and buds

Jorvet Smoke Shark

Noxious smoke is generated when using either an electrosurgical unit or surgical laser. At the very least, smoke is a nuisance odor, and at worst, an occupational health hazard. The smoke shark is designed to remove smoke and particulate matter generated by electrosurgical generators or lasers at the operative sight. The Smoke Shark unit consists of a smoke evacuation power unit, filter canister, and various tubing attachments. The four stage filter captures particles down to 0.01µm with over 99.99 percent efficiency. The filter has an 18-hour shelf life and contains 24 ounces of carbon, giving it superior ability to eliminate odors. Tubing (B) connects the filter to the surgery site. A small arm stand holds the tubing close to the surgical site without contaminating the sterile field. Features:

- Line voltage: 120 VAC ± 10%
- Line frequency: 50-60 Hz
- 17.78 cm (7") W x 29.85 cm (11.75") H x 46.36 cm (18.25") D
- Weight: < 6.5 kg (< 14 lbs.) w/o filter

JOR483 Complete with: \$1,960.00/ea
 • Smoke Shark power unit
 • Long life filter
 • 6' tubing (24/pk)
 • Foot switch
 • Arm stand

JorVet

Veterinary Biosecurity Protective Apparel Kit

Veterinarians and associated animal health care workers are in contact with some highly contagious diseases. There is a real need for biosecurity to prevent that pathogen from spreading further. Outbreaks of highly contagious diseases like:

- Equine Rhinopneumonitis (herpes)
- Canine Influenza
- Salmonella
- Equine strangles and others

Veterinarians and staff are at risk of becoming the vehicle that spreads these diseases further. JorVet, in cooperation with a leading veterinary teaching hospital has developed a protective apparel kit that provides protective apparel and reduces the risk of these dangerous pathogens being spread by the very person responsible for controlling it.

The kit consists of:

- White posewear coveralls with hood and zipper
- Procedure mask with ties
- Disposable blue plastic boots (pr) JOR100B
- Disposable purple nitrile gloves (2 pair)
- Alcohol wipes (2)
- Biohazard disposal bag
- Zip lock storage bag with direction

Exam Table Paper

Exam Table Paper: Medline's absorbent table paper protects exam tables from dirt and moisture while offering comfort and protection for patients. Choose from smooth or crepe finish (crepe is softer, quieter and more absorbent). Crepe is also more textured which will help prevent it from sliding on surfaces. All rolls are mechanically metered for exact length, and individually poly bagged for cleanliness during shipment and storage. White. 2/Case

Cardio Link, Excision Kit & Warming Units/Beds

Jorvet The Cardio Link

The Cardio Link is an esophageal cable with four stainless ECG electrodes built in the distal end. It can be linked to all brands of existing ECG monitors. The ECG clips are placed on metal knobs inside a control box. This small box helps protect the clips and prevents interference. Just select Lead II on your ECG machine after proper positioning inside the esophagus after the patient is intubated, and then watch the QRS waveform. The Cardio Link gets rid of cumbersome leads running to all four legs. Three different sizes are available and all will work with the one control box.

Leads available:

- Green lead 12fr (4mm) x 36" long cats, exotics, small dogs
- Blue lead 18fr x 42" long cats, dogs
- Red lead 18fr x 100" long horses

| | | |
|------------------------|--|-------------|
| JOR851E | EKG catheter 18fr X 100" red, long red lead for horses. Cable only | \$192.00/ea |

| JOR851W | Cardio-Link Esophageal kit w/two 18fr leads | \$300.00/ea |

Jorvet

Jorvet Warming Airbag

Warming Air Blankets. Keeping patients warm during surgery and recovery has always been a challenge. Electric pads have a risk of overheating, circulating water blankets are easily damaged. Our new warm air blankets are a safe, economical solution to this problem. They are made of a silky polyester fabric with an inlay of nylon water proof material to keep the airflow circulating upward towards the patient. These blankets are machine washable (hang to dry) therefore much more economical than other air blankets on the market, which are disposable. There is a 5" diameter round opening with a nylon cord to secure the blanket to any of the major brands of warm air convection units.

Jorvet

| | | |
|----------|-------------------|-------------|
| JOR1034 | Small, 30" x 20" | \$43.00/ea |

| JOR1034X | 100v-120v 50-60hz, (220v units available) | \$990.00/ea |
|----------|---|-------------|

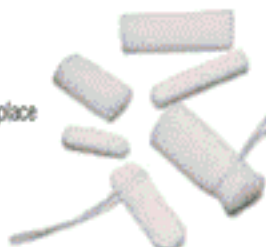

Jorvet AbsorbENT™ Ear Wick

Ear wicks have been around a long time in human medicine. Recent improvements have made them a valuable adjunct to treating otitis externa for veterinarians. AbsorbENT™ sponges consist of interconnected open cells that are extremely soft and pliable. The interconnected cell structure produces a packing that is exceptionally strong, highly absorbent and virtually lint and fiber free. AbsorbENT™ is designed as an aid in the treatment of otitis externa. When liquid medication is applied to the sterile, compressed sponge, it gently and evenly expands to fill the ear canal dispersing the medication and applying gentle pressure to the tissue.

- Expands rapidly for effective distribution of liquid medication
- Soft, pliable sponge enhances patient comfort while applying gentle pressure
- Compressed and sterile for rapid patient treatment
- Suture can be placed around the end for easy retrieval

Suggested use: Insert Ear Wick and infuse appropriate antibiotic or corticosteroid into sponge. Leave in place for up to a WEEK!! The resulting reduction in edema or swelling will cause Ear Wick to come out easily.

| | | |
|----------|--------------------------------------|-------------|
| JOR1084 | 9mm (diameter) x 15mm (length) 50/pk | \$99.00/pk |
| JOR1084A | 9mm (diameter) x 24mm (length) 50/pk | \$132.00/pk |

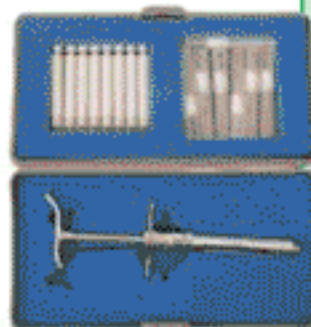

Jorvet Anal Sac Excision Kit

The anal sac excision kit employs a warm liquefied gel injected in to the sac. The gel is in a 2ml cartridge that is first heated to a liquid and loaded in a specially designed syringe. Then, via a 19g blunt needle, is injected into each anal sac. The gel then hardens and gives the sac a readily defined and easily dissected shape for quick removal. Each kit has enough material to do up to eight animals

| | | |
|--------|---|------------|
| JOR101 | JOR101d#1 Metal Breech Loading Syringe. | \$63.00/ea |

Stomach Tube Speculum & Gastronomy Applicator

Canine Stomach Tube **JorVet**

Designed to facilitate the removal or location of esophageal obstructions. The rounded ends allow for atraumatic passage while the metal ball marker assists in the location of any obstruction by X-ray methods. The lateral eye allows for aspiration of gastric contents or administration of fluids. This item is a great addition to any veterinary clinic.

| | | |
|---------|-------------|------------|
| JOR106A | 24ft x 76cm | \$24.00/ea |
| JOR106B | 36ft x 76cm | \$24.60/ea |

Small Animal Nasogastric Feeding Tube **JorVet**

These small animal feeding tubes are useful in longer term nasogastric oral supplementation. Transparent plastic. Rounded closed tip with two opposing lateral eyes. Luer syringe connector with attached plug. Sterile. 5/pkg.

| | | |
|---------|--------------------------|------------|
| JOR348A | 5ft x 15". Cat and dogs. | \$12.60/ea |
| JOR348B | 8ft x 15". Medium dogs. | \$12.60/ea |
| JOR348C | 5ft x 39". | \$12.60/ea |
| JOR348D | 8ft x 42". | \$12.60/ea |

Small Animal Feeding Tube

Red latex rubber with two opposing lateral eyes. X-ray opaque. Sterile. Improved over red vinyl tubes because it is bio-compatible and allows more patient comfort with less rigidity. Can be reused and reautoclaved. 40cm (16"). 5/pkg. **JorVet**

These tubes work well with the JOR51k-n stomach tube speculums.

| | | |
|----------|------------|------------|
| JOR347CC | Tube, 14ft | \$9.60/bpk |
| JOR347A | Tube, 8ft | \$9.60/bpk |
| JOR347B | Tube, 10ft | \$9.60/bpk |
| JOR347C | Tube, 12ft | \$9.60/bpk |

EquiVet Large Volume Funnel

A large, over-sized funnel with a special barbed fitting that attaches firmly to stomach tubes.

| | | |
|---------|------------|---------------|
| JOR106X | \$36.90/ea | JorVet |
|---------|------------|---------------|

Medical Grade Silicone Elastomer Tube

This tubing can be used for a variety of clinical purposes including drains and feeding tubes. Autoclavable. Radiopaque marking. 50cm L.

| | | |
|---------|-----------------------|-----------|
| JOR523A | 8mm I.D. x 10mm O.D. | \$7.50/ea |
| JOR523B | 10mm I.D. x 12mm O.D. | \$3.75/ea |

EquiVet Polyurethane Stomach **JorVet**

These all weather tubes give a little more stiffness with longer length for easy passing into the esophagus. The proximal end of the tube has a flared tip especially designed to attach to the standard metal stomach pump's barbed fittings. The distal tip is highly polished.

| | | |
|----------|-------------------------------------|------------|
| JOR106FX | Foal, 9mm O.D. x 2.60m (8 3/8")L | \$40.50/ea |

| JOR106LX | Large, 19mm O.D. x 3.6m (11 1/2")L | \$63.00/ea |
| JOR106MX | Medium, 16mm O.D. x 3.6m (11 1/2")L | \$55.75/ea |

Canine Stomach Tube Speculum

Speculum is useful for passing stomach tube in the conscious patient. The speculum is held in check by the canine teeth going through the two large holes. A 3/8" round hole through the center allows a stomach tube to pass through. By holding jaws firmly closed any chance of biting the tube is eliminated. The hardened blue nylon resists chewing and can be cold sterilized for reuse. 9mm opening. **JorVet**

| | | |
|--------|-------|-----------|
| JOR51M | 27ft. | \$8.25/ea |
|--------|-------|-----------|

Large Canine Stomach Tube Speculum

Large Canine Stomach Tube Speculum. 6" x 2" will take up to a 3/8" stomach tube.

| | | |
|--------|---------|-----------|
| JOR51N | 6" x 2" | \$8.25/ea |
|--------|---------|-----------|

Feline Stomach Tube Speculum

Smaller size works well on cats and smaller dogs. 6mm opening. **JorVet**

| | | |
|--------|-------|-----------|
| JOR51K | 18ft. | \$8.25/ea |
|--------|-------|-----------|

Esophagostomy Feeding Tube

Tubes for long term placement of esophagostomy tubes.

- Soft silicone
- Bio compatible
- Luer fitting
- Retention cap always attached
- Cut to desired length
- Non-sterile
- Packaged individually in chevron pouch

| | | |
|---------|-------|-----------|
| JOR390L | Large | \$7.95/ea |
|---------|-------|-----------|

PVC Stomach Tube

Inexpensive standard PVC stomach tubes with funnel end.

| | | |
|----------|---|------------|
| JOR106FE | Foal, 1/4"H x I.D. 3/8"H x O.D. x 7"L | \$24.75/ea |
| JOR106LE | Large, 1/2"H x I.D. 3/4"H x O.D. x 10"L | \$30.00/ea |
| JOR106ME | Medium, 3/8"H x I.D. 5/8"H x O.D. x 9"L | \$30.00/ea |
| JOR106SE | Small, 5/16"H x I.D. 12"H x O.D. x 9"L | \$24.00/ea |

Esophagostomy Tube Insertion Device

This line of products is especially designed for mid-long term enteral feeding. Features of polyurethane feeding tubes: More durable and longer lasting than PVC tubes; Weighted tip with metal tungsten guide end for ease of placement and retention; Stylets included on all sizes; Radiopaque and non-sterile; Many of these tubes will move by peristaltic action to the jejunum after placement in the stomach, which requires longer lengths than standard feeding tubes; Numerical graduations on side of the tube; and Complete directions come with the product. **JorVet**

|---------|---|-------------|
| JOR1083 | Includes 10 tubes 15ft x 50cm, DVD available. | \$260.00/ea |
|---------|---|-------------|

ELD Gastrostomy Tube Applicator

Percutaneous gastrostomy nutritional supplementation is an easy and practical way to feed an anorexic cat or dog. With the advent of special diets like Hill's Prescription AD and other syringeable diets, many previously terminal cases can be saved. However, until now, the only way to place a gastrostomy tube properly was with the aid of a fiberoptic endoscope. JorVet introduces the ELD Applicator that allows the percutaneous insertion of a gastrostomy feeding tube.

Closed Wound Drainage Kit

This vacuum drain's most common use is for post-op drainage Jackson Pratt. The kit is designed to create suction or negative pressure for draining wounds. A fenestrated silicone drain is placed into position with the aid of a stainless steel trocar. This drain is attached to a silicone bulb with a one-way valve. When the bulb is released a vacuum is created that pulls exudates out through the drain. Wound exudates can be stored, visualized, or cultured. The drain has a radio-opaque line for the entire length.

The kit consists of: a 130mm stainless steel trocar, silicone fenestrated drain and tubing, a silicone bulb and a clamp for attachment to bandage or patient.

Ewe Prolapse Retainer

Vaginal prolapse. Does not interfere with lambing and can be left in place for extended periods.

JOR26E \$4.50/ea

Protection Tube for Uterine Biopsy Forceps

This protective tube is passed through the cervix. A biopsy forceps is then passed through it to avoid any contamination on the biopsy sample.

JOR116A O.D. 15mm x 40cm length \$66.00/ea

Uterine Lavage Kit

This extra large bore semi-rigid clear pipette has a very high flow. Sterile. 1/4" x 25" L.

- Dual 60° fluid line with spike on one end
- Shut-off clamps on each side of "Y"

JOR286 w/ "Y" tubing \$11.70/ea

Gastric Lavage Kit

A kit designed for use in common gastric emergency conditions where quick and effective lavage or flushing of the stomach is required, (e.g. gastric dilatation volvulus and acute poisonings). The kit includes 3 large bore semi-rigid lavage tubes and a stomach irrigation system that connects to any faucet.

Kit contains:

- (3) Semi-rigid polyethylene tubes
- 1" I.D. x 11/4" O.D. 48" L.
- 7/8" I.D. x 1" O.D. 42" L.
- 5/8" I.D. x 3/4" O.D. 36" L.
- Dura clamp to prevent backflow
- Reducing clamp
- Faucet adaptor
- PVC tubing 3/8" I.D. x 1/2" o.d. x 100cm
- Stomach tube with metal X-ray marker

JOR115 23cm x 76cm. \$63.00/ea

Jorvet Y Barb Connector

"Y" Barbed Connector.

DYNJWE1305 Silicone Bulb Evacuator, 100cc Capacity \$8.05/ea

Jorvet Complete Cold Therapy System

The benefits of cold and compression in post-surgical care have long been known. These benefits include minimizing hemorrhosis and swelling. Cold will also reduce postoperative pain. The immediate use after surgical repair of orthopedic procedures such as cruciate or fracture repair is an indication. New surgical procedures such as TPLO respond nicely to this mode of treatment. The Jorvet Portable Cold Therapy System continuously pumps cold water through hoses connected to a soft pad held in place by Velcro straps. Water and ice are put into the cooler reservoir. Temperatures can be set at three ranges to insure therapeutic level of cold:

Cool: 45-55°F (7-13°C)
Cold: 40-50°F (4-10°C)
Coldest: 35-45°F (2-7°C)

Features:

- Not gravity dependent, will pump at or below the level of the pad
- Electronic pump is mounted outside the cooler reservoir, not affecting speed of ice melt
- Provides up to 10 hours of continuous and effective cold therapy
- Veterinary specific protocol included

System includes 21" x 11" (31cm x 28.5cm) therapy pad with straps.

JOR923 Weight, with pads 6.25 lbs. (2.84 kg) \$285.00/ea

Avian Restraint

Auspex Avian Restrainer

Extremely easy to use! Simply fold the flat restrainer to form a truncated cone shape, and rapidly place over the bird. Most birds pop out the smaller opening of the restrainer. The restrainer is indispensable for various treatments, including examinations, administering oral medication or food, injections, working with legs, feet, or clipping nails.

| | | |

| JOR259KS | 24" x 24" 5 pk, sterile | \$19.50/pk |

Avian Positioner

Auspex Avian Positioner is used to position an avian species for radiography and surgery. The Positioner is made of a piece of durable plexiglass board. There are two short slots and four longer slots machined through the board. Several pieces of strategically-placed velcro hook type fasteners are permanently attached to the bottom of the board. Several straps of loop type velcro are supplied, which are utilized for restraining the bird's and wings. Several pairs of the velcro face straps, used to restrain the bird's legs, are also included. The versatile Auspex Avian Positioner can be applied to most types of birds, from budgerigars to macaws. It is highly effective and reliable, able to securely restrain even the most unruly bird. It is safe and relatively painless, since the bird is held using soft cloth-like straps, unlike the gullotine-type devices that hold the bird's neck down with a piece of hard plastic. The Positioner is low-cost and durable. It is hygienic, easy to clean and sterilize. The wing restraint is a novel feature, useful for radiography. The board has raised feet at the four corners to allow for placement of heating pads under it, when desired. Positioner is low-cost and durable. It is hygienic, easy to clean and sterilize. The wing restraint is a novel feature, useful for radiography. The board has raised feet at the four corners to allow for placement of heating pads under it, when desired.

Safe 'n Warm Exam Table Mat

Safe 'n Warm Foam Mat. Post-op patient comfort is simple and easy with these foam padded mats. The core is constructed of thick foam for cushion and comfort. Seamless coating eliminates accumulation of dirt or debris. Totally non-absorbent; allows easy cleaning with standard hospital disinfectants. Just wipe clean with a paper towel. The mat reduces hypothermia, unlike cold stainless steel or metal grate surfaces that drain body heat. Lightweight and portable, can be moved from location to location.

- Fits inside standard cages (i.e., Shor-Line and Suburban)
- Slight bevel tips fluid towards drainage
- Especially valuable for post-op comfort
- Fits on top of wall-mount or pedestal-type exam tables (i.e., Shor-Line and Suburban). Length just short of drain hole.

| | | |
|--------|------------------|-------------|
| JOR766 | 20" x 44" x 1/2" | \$236.00/ea |

Buster Dog Collar

Buster disposable protective collars for dogs and cats—an ideal and inexpensive solution. **Material:** Made of lightweight flexible plastic. Will not annoy patient during rest since its flexibility will yield to the shape of the head. Endures pushing without getting deformed, even in cold weather.

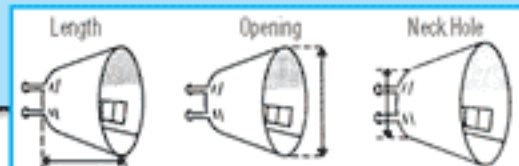

Application: Easy to fit on the patient. The collar is closed without use of difficult tapes and strings. Its size can be adjusted according to the size of the patient's head, and fastened to the patient's collar by the straps.

Sizes: Available in 8 sizes with adjustments from 7cm to 20cm neckhole. Each collar has 2 to 3 possible adjustments. Each collar has size marked on it. One size 10/pk, or set of 8 sizes.

Cervical Collars

A comfortable & easy-to-use alternative to the Elizabethan collar. Allows pet to eat, drink, sleep, play, run up stairs & around corners & even sit on laps. With these collars, your pet's peripheral vision is unimpeded making them calmer & happier. Collars are made of flexible plastic & are secured by Velcro®, elastic wrap-around strap & harness strap, which wraps around your pet's chest.

Clear Collar

Clearcollar™ Elizabethan Restraint Collars for cats and dogs. These collars have two major features not found in similar products currently available to veterinarians:

- The transparency feature is a substantial advantage for the patient in that it allows peripheral vision. Owners also seem to prefer transparent rather than opaque collars because they are far less conspicuous and appear to be more "humane."
- The second major feature is a set of small plastic clips designed to make it quick and easy to apply and remove the collar repeatedly. The collar also has three sets of loops for a more secure attachment either by weaving gauze or heavy cord through the loops and tying the ends in a bow, or by tying the loops to the pet's collar. Clearcollar™ restraint collars are available in six sizes, and each collar has five sets of adjustment holes to permit proper fitting of most patients. 10/box.

Restraints - Collars & Neck Braces

Buster Neck Brace

From the designers of the original Buster collar the Buster Neck Brace leaves the patient's head largely free and thus supports its natural mobility.

- Comfortable: Light weight polyethylene with a closed-cell foam lining
- Good Ventilation: Plenty of holes ensure good air flow
- Easy Application: Two snaps lock in place and can adjust to any size. The collar can be trimmed with a scissors for better fitting.

Jorvet Foam Collar

Jorvet

A safe and comfortable support for the neck of dogs and cats. It will also restrict movement of the head, thereby protecting other parts of the body from self-inflicted trauma. The Foam Collar is made from an ultralight, dense and rigid closed-cell foam. The collar is black, with both sides being an easily cleaned "skin". Application of the Foam Collar is simple. It is wrapped around the neck and held in place with one or two pieces of standard adhesive tape. It has no sharp edges, and the ends can be trimmed to an exact custom fit. Six different widths are available to accommodate most dogs and cats. To size for proper fit, measure from just behind the ear to the top bony portion of the shoulder.

| | | |
|---------|----------------|------------|
| JOR610A | 3" x 15", 5pk | \$19.50/pk |

| JOR610S | Set of 6 | \$39.00/pk |

Jorvet Soft-E-Collar™

Jorvet

The use of Elizabethan Collars is widespread in veterinary medicine. There have been a multitude of different designs over the years. Traditional "E" collars have tried to balance the comfort of the patient versus the effectiveness of the "E" collar. The Soft-E-Collar™ was designed first and foremost for the comfort of the patient, yet it still is effective in offering licking and chewing protection. Clients like the attractive pattern along with the comfortable foam padding. Pets can move about freely without damaging furniture, and are able to eat and drink more freely than with traditional collars. The Soft-E-Collar™ is a waterproof heavy nylon material that covers a soft foam doughnut-shaped ring. It is held in place by a strong, flat tie.

|---------|------------------|-----------|

Halti Head Collar

The Halti was developed over 27 years ago and has been used by over a million dog owners worldwide. The innovative design steers the dog to the side to minimize pulling. It is neck and throat friendly as it doesn't put any pressure on that area. It is eye friendly as the nose band lies well away from the eyes. The slack chin straps allow freedom to pant and the minimal movement of the nose band prevents irritation.

Pet, Grooming & Restraints

Pets - Harnesses, Leads & Pillers

Jorvet Halti Harness

The Halti Harness was designed by Dr. Roger Mugford, the creator of the Halti head collar. The Halti Harness has a unique patented front attachment system that controls the dog from his chest and shoulders; an effective point of control. The Halti Harness stops pulling, calms over-boisterous dogs and simplifies training and behavioral therapy. The benefit of a properly used Halti Harness is that it gives total control over the dog's shoulders and thus sets the direction he can move.

Jorvet Feline Litter Magnet

An all-natural solution to encourage litter box use. Litter Magnet™ will assist you in treating the most troubling behavioral problem a cat can have, inappropriate elimination, i.e. non-use of the litter box. Often this problem is not medical and cannot be treated with medication. Treatment becomes a consultation with the pet owner, representing time spent for which it is often difficult to be compensated. LitterMagnet™ and its supporting brochure will give you a product that can be prescribed with a tested solution that will help your customer get their cat "back to the box".

An all-natural herbal product, LitterMagnet™, uses its rich earthy fragrance to attract the cat to its litter box. Once the cat goes to the box and finds that it is clean and filled with an appropriate substrate, it will use it and positive behavior modification begins. With LitterMagnet™, you can address a behavior problem and be able to prescribe a solution. You have also made a pet owner happy and possibly kept the cat out of a shelter or from being abandoned.

- LitterMagnet™ (Jorvet Product #J1001)
- 20 oz bottle with a shake and pour lid
- Treats 100 pounds or more of clumping/scoopable clay litter
- A client education brochure is provided with each bottle
- 6 bottles per case

Plastic clicker to be used with the clicker training method. Train your pet humanely and get positive results. Use the fun clicker method to improve your pet's behavior.

CP17700 \$1.60/ea

Thermo Perch

Protect your exotic birds from harmful effects of air conditioning or cold drafts. Cold is a major detriment to the health of tropical birds. Providing warmth should be the first step in treating any sick bird. Birds lose much of their body heat through their feet. Thermo Perch is made of sturdy scratch and bite resistant plastic. Irregularly shaped, it prevents foot cramps and pressure sores. The perch easily external-mounts to any wire cage, with the cord protected in steel casing. U.L. approved. Patent-pending.

JOR919 Small, 1/2" - 1" dia. x 10 3/4" L \$40.20/ea
JOR919A Medium, 5/8" - 1 1/4" dia. x 13" L \$58.00/ea

CP55816 Plush and Rope Rabbit \$5.99/ea

Buster Cube JorVet

Studies show that there is a correlation between behavioral problems and too much rest and boredom. The new JorVet Buster Cube is a simple and ingenious toy for stimulating your dog mentally, helping him to improve his concentration skills, and motivating him to use up excess energy. The Buster Cube is easy to use. All that is needed is a handful of dry food placed in the Cube through the opening. When the dog rolls the Cube, the dry food falls out, and his efforts are instantly rewarded. His discovery encourages him to continue playing with the Buster Cube. The Buster Cube offers any dog a natural and fun way to exercise and utilize his problem-solving capabilities.

Heavy Duty Stainless Steel Bowls (B)

Stainless Steel is corrosion resistant, and almost chew-proof. They are heavy-duty for everyday use. Cleans and disinfects easily. They will keep their bright shine and new look, and they are dishwasher safe. Standard shape, no sharp edges. Gauge is 50-100% thicker than the regular bowls.

| | | |
|---------|-----------------|------------|
| JOR803A | 16oz (1 pint) | \$4.90/ea |
| JOR803B | 32oz (1 quart) | \$6.20/ea |
| JOR803C | 64oz (2 quart) | \$8.30/ea |
| JOR803D | 96oz (3 quart) | \$10.90/ea |
| JOR803E | 128oz (4 quart) | \$16.05/ea |

Non-Tip Stainless Steel Bowls (C)

This heavy-duty bowl features a wide diameter and protective rubber cushion, making it more difficult for animals to tip or knock over the bowl. Less chance for messy water and food spills.

Disposable Underpads 23 X 36 Super Absorbent 10/pk

The WeekEnder Premium Disposable Puppy Pads.

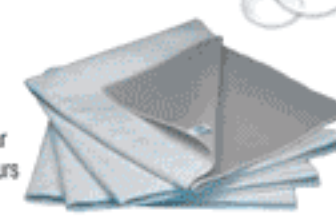

- Advanced Supercore thermo-bonded core.
- Wicks moisture away from the surface and locks fluid in within minutes.
- Super absorbent 1 pad absorbs what used to require 3 or more.
- Super strong to reduce tearing and resulting damage to floors.
- Superior odor control.
- Folded over edge for better containment.
- Soft non-woven top sheet across the pad.
- Ultra absorbent polymer is spread throughout the entire core for maximum absorbency.
- Top sheet is fused to the core so it does not bunch up while in use.
- Waterproof polyethylene backing protects underlying surfaces.

SUPERPAD 23" X 36" super absorbent 10/pk \$14.00/pk

Reusable Underpad

Exactly the same idea as the Puppy Pads, these reusable no-leak protector pads are great for protecting furniture, car seats and bedding! They protect from the staining that occurs from our furry friends accidents. These reusable no-leak protector pads have a top layer which wicks away moisture to a super-absorbent middle layer which also pulls all of the moisture down to the no-leak vinyl. THE PAD IS ALWAYS DRY!!! EVEN AFTER AN ACCIDENT! Machine wash and dry as needed as these pads are reusable!!! Excellent for pets in heat, cages or kennels. 30" x 36" pads

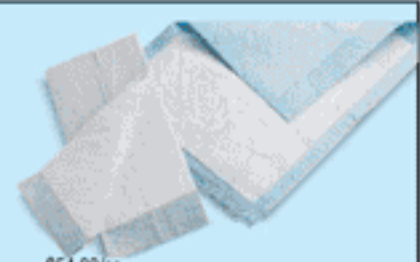

UPAD-R 30" X 36" 1/Each \$7.99/ea

Standard Weight Disposable Underpads

Protection Plus® Disposable Underpads standard weight, moderate absorbency, feature diamond-embossed fluff-fill to help control fluid leaks. Added embossed polypropylene backing controls slipping to reduce the risk of leaks on patients and bedding.

Pet, Grooming & Restraints

Grooming - Gloves, Brushes & Furminator

Cat Grooming Gloves

Most cats enjoy being petted, however, grooming with a stiff comb is often stressful. These white grooming gloves have raised blue dots on both sides that catch loose hair while simply stroking the hair coat. The gloves are 60 percent polyester and 40 percent cotton. Washable. One size fits all. Packaged one pair per poly bag with an attractive header.

JOR603 \$3.75/ea **JorVet**

Hand Brush

Large oval brush with hand strap. Stiffer bristles stimulate coat and skin. Can be used as an invigorating shampoo brush.

CP1065L With hand strap, Stiff Bristles \$3.30/ea

Combo Grooming Brush **JorVet**

This comb and brush has one side with metal pins for removing excess hair and tangles. There are over 120 wire teeth held by a flexible rubber base. The other side is nylon bristle comb that smooths out the hair coat. Attractive dark-varnished wood handle.

JOR604 \$4.50/ea

Pet Brushes

Quality grooming products from Groomaster. These brushes are manufactured from hardwood, not compositions or softwood. All pins are smooth, round, bubble-tip and are rust resistant. Bristles are generously and evenly cut nylon, polypropylene or pure boar bristle. Boar Bristles are soft and will not damage even the most delicate coats.

ANIMAL HANDLING GLOVES

SEE OUR GLOVES SECTION FOR A FULL SELECTION

Furminator Deshedding Shampoo

- Promotes a healthier skin and coat to reduce excess shedding
- Enriched with Omega 3 and 6 Fatty Acids plus other vitamins and proteins to help promote healthier skin, a shiny topcoat, and reduce excessive shedding
- Non-irritating, non-drying hypoallergenic formulation
- Works great on all shedding, long and short-haired dogs and cats
- Fresh, clean scent
- Used and recommended by Veterinarians and Professional Groomers worldwide

FUR013 Deshedding Shampoo, 16oz \$7.77/161

Furminator

Revolutionary grooming tool! Quickly and easily removes the undercoat and loose hair without damaging the topcoat. Reduces shedding up to 90%! Guaranteed to reduce shedding better than any brush, comb or rake. Works great on all shedding dogs and cats—long and short-haired. Brings out the pet's natural oils, promoting healthy skin and a shiny coat. Reduces the amount of airborne elements that cause allergic reactions in many people.

Tapeworm (Praziquantal) Tablets

Dogs and cats can be infested with two types of tapeworms. Fleas carry the most common type, and rodents carry the less common type. Until recently, the only effective control has required a prescription. However, this drug (Praziquantal) is now available without a prescription, and is 100% effective in ridding your pet of both types of tapeworms.

RXOTC8783 Feline, 3 tablets/bottle \$10.50/btl
RXOTC8785 Canine, 5 tablets/bottle \$16.99/btl

Pet Pill Crusher

Many times a tablet or pill is too large for a pet to swallow. In addition, a pill can be crushed to hide in the animal's food or in a treat. This pill crusher works by dropping the pill into the clear chamber and screwing the top portion directly into it. It also has a handy storage area in the lid to keep extra tablets close by. Top and bottom have raised knurled ridges for easy tightening. Made of high impact plastic.

VetMed Care Protective Bodysuit

This new line of protective body wear has been used extensively by veterinarians throughout Europe. A wide range of applications has evolved literally from head to tail on a whole host of different species. Traditional methods of wound protection such as "E" collars, and adhesive tapes have several known disadvantages. The VetMedCare protective body wear offers a great alternative to wound protection. Body suits are easy to handle and protect sensitive areas from dirt, scratching and licking. Thoughtful design provides front and back leg openings that have special flat and stretch seams which help avoid limb irritations or abrasions. The belly is fully smooth, as the seam is along the back. Anatomical differences require consideration of both male and female designs.

Female

The Walkabout™ Harness **JorVet**

The options for a paralyzed dog or cat are limited. Their quality of life depends upon the owner's ability to deal effectively with their situation. Euthanasia often is chosen. Today's pet owner wants other choices, and the Walkabout™ provides the alternative. The design and construction of the Walkabout™ harness provides the balance and support necessary for your pet to lead a happier, healthier and cleaner life. Use of the Walkabout also can help minimize the owner's back strain that can result from lifting and carrying the pet. Used by over 20 veterinary teaching institutions like the Animal Medical Center in New York, and the Research Center for Paralysis at Purdue University.

- **Front Harness:** A smooth, semicircular neckline allows your pet to breathe comfortably, while simultaneously supporting his/her front end.
- **Combination Harness:** Double harnessing may provide the safest and most comfortable means to transport your pet. Measurements are necessary for both front and back. Special Order.
- **Amputee Harness:** A custom design provides a harness for pets who have lost a limb. Special Order. Rear Harness.

Wooden Bone-Shaped Leash Holder

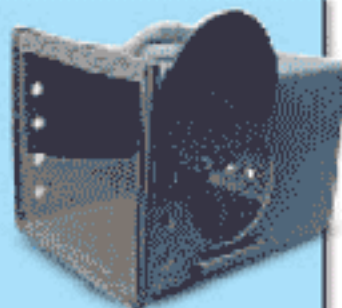

A beautiful, yet functional addition to any décor. The Wooden Bone Shaped Leash Holder is carved from the finest wood to add a touch of class to any room. Four mounted pegs provide ample room for hanging leashes and collars. The cut-out in the middle is sized to proudly display a photo of your canine companion.

CP13300 Measures 10 3/4" L x 5 1/2" H. \$6.99/ea

Feral Cat Den

The ACES den is designed to provide a frightened or fractious animal a quiet 'hiding place'. Secure the animal inside by closing the porthole door then remove the den (and animal) from the cage for cleaning, treatment, or transport. Completely eliminates risk of handler injury while providing a stress-free environment for the animal. Dens are 15" x 11" x 10". Fit in any cage larger than 24" X 24".

ACE-M-FDGC 15" x 11" x 10" \$120.00/ea

Pet, Grooming & Restraints

Pets - Pet Care

Car Seat Cover

This is a win-win solution for you and your pet! The soft, durable Car Seat Cover will protect your leather or velour seats from pet hair, drool, dust and dirt while traveling. Installs easily - simply set on the seat, attach the Velcro enclosure around the headrest, pull thru the seat belts and tuck in the sides. It is easy in and out making the switch easy for you every time.

Fits most vans, trucks, SUV's with bench or fold-down seats. The outer shell is 100% polyester with a layer of foam for cushion and comfort. One side is a tan, soft pile and reversible to a durable gray polyester weave. Easy to care for, simply hand wash with a mild detergent soap and line dry.

Jorvet K-9 Float Coat

JorVet

There is increasing popularity of water treadmills or just the use of swimming as an integral part of canine rehabilitation. A necessary safety precaution should be the use of a quality life preserver. Most of the standard retail preservers just cannot do the job like the Float Coat. The Float Coat has a durable nylon shell with an ergonomic fit. The coat is highly buoyant with a low profile assistance handle. This handle can lift the patient safely from the water. Canine patients will enjoy a safe aquatic adventure free from a scary struggle with K-9 Float Coat quick release buckles. Color: Yellow and Black

- Girth: measurement around the widest part of the rib cage Length: suggested minimum dog length from the back of the neck to the base of the tail.

Pets - Urns & Memorials

"Urnee" Cremation Urn **JorVet**

Many cremation urns presently used are very expensive human urns or inappropriate items such as coffee tins. The "Urnee" will satisfy the aesthetic requirements but at a cost low enough for routine use in returning crematory ashes.

- Attractive shape and color decorated with a raised relief rose centered on top
- Insert area for a memorable photo with snap-in cover
- Virtually unbreakable. Made from a heavy injection molded resin
- Inexpensive-costs about 1/4 of other urns
- Complete with a poly bag and tie for secure containment

Aloetouch® Exam Gloves

Aloetouch® are top-quality powder-free gloves with the benefits of aloe vera. Aloe vera naturally helps moisturize and soothe dry, chapped hands. These strong, durable, natural rubber latex gloves provide superior barrier protection and are powder-free to minimize skin irritation. The fully textured surface gives you a sure grip on instruments and dressings. Ideal for anyone who changes gloves frequently, washes hands repeatedly, or wears gloves for extended periods of time. Aloetouch® is a registered trademark of Medline.

Gloves

Surgical & Glove Dispensers

Neolon Surgical Glove

Neolon 2G PF Neoprene Surgical Gloves: New proprietary neoprene formulation, which is softer, more elastic and comfortable vs. traditional neoprene gloves. The lightly textured grip provides more sensitivity. Reinforced cuff reduces cuff tearing during donning and in use. ARC (anti-roll down cuff) was designed to reduce cuff roll down common with most powder-free gloves. The inner polymer coating allows easy donning both with damp and dry hands. Brown/tan color reduces the glare from the lights in the O.R. 100/case

Gloves

Animal Handling

Warden Pro Handling Gloves

Developed to prevent the intrusion of sharp objects while handling dogs, cats, snakes, or small wild animals. Allows maximum dexterity. This glove is not bite-proof.

WARDENPRO Length: 22 inches, Palomino leather, Dupont Kevlar felt lining. \$126.50/pr

Warden Handling Gloves

Developed for the gentle handling of dogs, cats, snakes, small wild animals. Length: 22 inches, Palomino leather, Dupont Kevlar felt lining. This glove is not bite proof.

WARDEN-M Medium \$99.50/pr
WARDEN-L Ladies \$99.50/pr

Magnum Handling Gloves

Stainless steel safety bars are clinched on the back of the hand and front of the fingers to provide maximum protection from puncture wounds. This glove is not bite-proof.

MAGNUM Length: 22 inches, Palomino leather, Dupont Kevlar felt lining. \$150.50/pr

Animal Gauntlet Gloves

Ideal for use against large, dangerous dogs and other animals with crushing bites. Heavily padded throughout, but if not required, simply remove the outer layer. Inner glove features soft elk hide for dexterity plus padded gauntlet. This glove offers the maximum crushing protection. This glove is not bite proof.

JOR874 Small, Pair \$210.00/ea
JOR874A Medium, Pair \$210.00/ea
JOR874B Large, Pair \$210.00/ea

Jorvet Gauntlet Gloves

Penetration protection gloves, plus good dexterity. These gloves are heavy-duty cowhide plus extra-long suede gauntlets. Fully-lined with Kevlar felt. Perfect for felines or birds. This glove is not bite-proof.

JOR791 Small, Pair 18" \$143.00/pr
JOR791M Large, Pair 23" \$154.00/pr

Trapper Handling Gloves

Similar design features as the Warden but with an extra wide bell cuff for use over heavy-clothing or foul weather gear. An easy-to-use nylon take up strap keeps the cuff securely in place. This glove is not bite-proof.

TRAPPER Length: 22 inches, Palomino leather, Dupont Kevlar felt lining. \$135.00/pr

Grooming Gloves

These cat grooming gloves are sold by the pair. Specifically designed protrusions on fingers and palms cause needed friction to pick up loose hair while stroking your pet. Machine washable.

CPH116 Cat 1 Pair \$3.00/pr

Leather Restraint Gloves

Handling fractious animals can be made safer and easier with heavy-duty gloves. Light brown suede leather gloves have a padded lining for comfort and safety. Covers the forearm for real protection. One size fits all. 15 1/2" long. Not bite proof.

JOR455 Pair \$86.00/pr

Jorvet Cat/Wildlife Gloves

Cat and Wildlife Gloves. Designed for maximum dexterity and feel (often missing in protective gloves). Provides a very high level of penetration protection through a combination of special materials. The hand features high quality top grain leather completely lined with new Spectra, which is ten times stronger than Kevlar. The gauntlet's double layer of Dupont Kevlar knit resists sharp teeth, talons and claws, covering up past the elbow. In addition to penetration resistance, the outstanding feature is you hardly know you have them on. Perfect for handling creatures that can not inflict crushing type bites. Excellent for cats, birds, and small animals. These gloves are NOT bite proof. Please use with caution.

JOR872 Small \$115.00/pr
JOR872A Medium \$115.00/pr
JOR872B Large \$115.00/pr

Jorvet Resistor Restraint Gloves

Spectra lined for maximum penetration protection, yet has the dexterity of a driving glove. The gauntlet is extremely well padded and features "trauma plates" to protect against hard bites over a wide area. The back of the hand's shield protects against crushing bites but does not interfere with gripping. Ideal for working with dogs, cats and exotics. The best all around glove. Attractive black leather.

JOR873 Small \$99.00/pr
JOR873A Medium \$108.00/pr
JOR873B Large \$132.00/pr

Wound Care Products

Cohesive Tape & Elastic Bandages

PowerFlex® Tape

PowerFlex® is a patented cohesive flexible bandage that eliminates the need to use pre-wrap, pressure sensitive elastic tear tape, and spray adhesives. PowerFlex® can be applied directly to the skin and provides 23 lbs. of tensile strength. PowerFlex® will not slip from sweat. PowerFlex® is a registered trademark of Andover Coated Products.

PWFLEX4 4" X 5 yds \$2.45/ea 18+\$2.10/ea

Paw Print Petflex® Tape

PetFlex®

A softer, stronger bandage, PetFlex® provides controlled compression with nonslip support to secure and protect primary dressings from dirt and moisture. It is a durable bandage that provides easy application (no need for scissors easy-to-hand tear), will not shred and is resistant to sweat and water. PetFlex® is an easy to clean, reusable fabric-based cohesive bandage that is more than double the strength of Vetrap®. All rolls are 5 yards in length.

No choice of colors, Petflex® is a registered trademark of Andover Coated products.

PWFLEX2 2" x 5 yards \$1.65/ea 36+\$1.35/ea
 PWFLEX3 3" x 5 yards \$2.10/ea 36+\$1.80/ea
 PWFLEX4 4" x 5 yards \$2.20/ea 36+\$1.90/ea

Co-Flex® Tape

Assorted colors, adheres to itself requiring no clips or fasteners, will not stick to hair. Individually shrink wrapped. No choice of colors. All rolls are 5 yards in length. Contains Latex. Co-Flex® is a registered trademark of Andover Coated Products.

COFLEX1 1" X 5 yds \$0.90/ea 30+\$0.79/ea

Wound Care Products

Dressing, Intracell & Silver Sulfadiazine

Non-Adherent Dressing

The non-adherent pad is a unitized dressing with an absorbent inner layer of fiber that is laminated between two thin, highly porous polyethylene net facing layers. Designed specifically to help prevent over hydration and maceration at the wound site and surrounding skin, the pad allows for a shorter healing time. This dressing may be used with or without a secondary dressing, depending on the need for additional protection or absorption. It will not stick to the wound! Compare and Save!! These are exactly the same as top name brands with a lower price.

Jorvet Transparent Dressing

These transparent semi-permeable dressings are extensively used in human medical cases. Any person who has had an IV line most likely has worn one. In addition these dressings are useful in covering simple wounds in areas that might be exposed to high of levels of contamination, but don't need layers of bandaging material.

- Transparency: the film is ultra thin so observation of wound site is possible.
- Permeable: skin is able to "breathe" as the film is permeable to gas and vapor.
- Bacteria and waterproof: keeps contaminants and water out that may be contacted in day to day living.
- Low sensitivity/viscosity: no irritation to wound and is not painful when removed.
- Ultra thin and high elasticity: compliant binding on skin along body curves. Also a comfortable fit.
- Numerous configurations for various applications
- Sterile and inexpensive to use

| | | |
|----------|--------------------|------------|
| JOR1090B | 6cm X 7cm 100/bx | \$22.80/ea |
| JOR1090C | 10cm X 12cm, 50/bx | \$35.40/ea |

Combine Dressing

Combine Pads consist of three key layers: outer nonwoven layer to wick, fluff filler to absorb and disperse fluid and wet proof moisture barrier to retard fluid strike-through. These pads act as a reservoir, reduce pooling and protect against contamination. Non-Sterile 50 per bag

| | | |
|------------|----------------------|------------|
| AB05X9 | 5" X 9", 50/Bag | \$6.99/pk |
| AB08X7.5 | 8" X 7.5" 50/Bag | \$6.99/pk |
| AB08X7.5CS | 8 x 7.5" 576/case | \$34.95/cs |
| AB08X10 | 8" X 10" 50/Bag | \$9.99/pk |
| AB08X10CS | 8" X 10", NS, 432/CS | \$44.99/cs |

Abdominal (Combine) Pad

Super absorbent abdominal pads feature a soft non-woven outer layer that quickly wicks fluid to a cellulose center. This thick layer of cellulose quickly absorbs and disperses fluids laterally to prevent pooling. Hydrophobic back impedes strike through and all edges are sealed to prevent linting.

| | | |
|------------|------------------------|------------|
| AB05X9STRL | 5" x 9" 400/cs sterile | \$37.57/cs |
|------------|------------------------|------------|

Xeroform Petroleum Gauze

Petroleum gauze with xeroform, a medicating and deodorizing agent with 3 percent Bismuth Tribromophenate. Occlusive, non-adherent dressing contraindicated for draining wounds. Sterile, Latex-free

| | | |
|------------|-----------------|------------|
| NON253180Z | 1" x 8", 12/box | \$8.99/bx |
| NON253220Z | 2" x 2", 12/box | \$9.99/bx |
| NON253440Z | 4" x 4", 12/box | \$11.99/bx |
| NON253590Z | 5" x 9", 12/box | \$12.99/bx |

Composite Dressing

Stratasorb Composite Island Dressing: Stratasorb Composite Island Dressing Has Four Distinct Layers Designed To Cover All Stages Of Wound Care. Layer 1, A Non-Adherent Contact Layer, Protects The Wound Site And Will Not Stick To Granulating Tissue. Layer 2, A Soft Pad, Absorbs Drainage. Layer 3, A Non-Woven Backing With An Adhesive Border, Securely Holds The Contact Pad In Place. Layer 4, A Semi-Occlusive, Polyurethane Film, Helps Deter External Contaminants And Maintain An Optimal Wound Environment. Rectangular Shape Is Designed For Post-Op Applications.

| | | |
|----------|-----------------------------------|-------------|
| MSC3044Z | 4" x 4" (2.5" x 2.5" pad), 10/box | \$25.29/box |

| JOR486EN | 3" x 9', Non-Sterile | \$4.00/ea |

as low as
\$7.20/ea

Ace Bandage w/self Close Velcro

These are the familiar beige stretch bandages. They are very useful for long standing injuries that require a large number of bandage changes. Choice of two closure styles. Individually wrapped. Both ends have velcro for easy starting and closure.

| | | |
|---------|----------------------|------------|
| JOR859 | 2"W 186" L stretched | \$21.25/dz |
| JOR859A | 3"W 210" L stretched | \$26.75/dz |
| JOR859B | 4"W 210" L stretched | \$32.75/dz |
| JOR859C | 6"W 210" L stretched | \$54.00/dz |

Jorvet X-span Tubular Dressing

This tube-shaped gauze material is designed to hold a primary dressing in place. It is excellent for use on body parts that are difficult to secure with tape (i.e., the head). The material has a remarkable amount of stretch for optimum fit. Mid-line colored stripe for orientation.

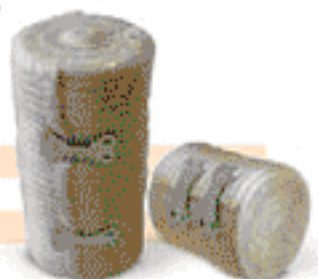

| | | |
|---------|---------------|------------|
| JOR292 | 16mm (5/8") | \$17.40/ea |
| JOR292A | 25mm (1") | \$17.40/ea |
| JOR292B | 32mm (1 1/4") | \$21.00/ea |
| JOR292C | 50mm (2 3/8") | \$26.70/ea |
| JOR292E | 75mm (3") | \$38.00/ea |

Ace Elastic Compression Bandage

These are the familiar beige stretch bandages. They are very useful for long standing injuries that require a large number of bandage changes. Choice of two closure styles. Individually wrapped.

| | | |
|---------|-----------------------------|------------|
| JOR858 | 2"W 186" L stretched, 12/bx | \$14.30/dz |
| JOR858A | 3"W 186" L stretched, 12/bx | \$16.30/dz |
| JOR858B | 4"W 186" L stretched, 12/bx | \$20.30/dz |
| JOR858C | 6"W 186" L stretched, 12/bx | \$26.30/dz |

Absorbent Wound Pads

These pads lift and remove wound exudate in the same way that a disposable diaper works. The outer layers are a thin layer that allows moisture to pass into the thick middle absorbent layer. This keeps the wound surface dry. 5" x 9" green midline strip. It can be trimmed for sizing. Sterile package in chevron pouch. 25 pieces/box. Less expensive and more absorbent than telfa pads. 

| | | |
|---------|---------------|-----------|
| JOR1079 | 5" x 9", 25pk | \$4.50/pk |
|---------|---------------|-----------|

\$4.50/pk

X-Heavy Moleskin

| | | |
|--------|-------------|------------|
| MS12X5 | 12" x 5 yds | \$28.95/rl |
| MS2X5 | 2" x 5 yds | \$5.95/rl |

Jorvet Equine Leg Wrap

Made of soft quality bulk cotton which is covered on both sides with a permeable thin layer of nonwoven material. The wrap acts much like a diaper in that the wound exudate is lifted and absorbed into the thick middle cotton layer.

A dark mark mid-line runs full length to give proper orientation during application. A wide variety of materials and sizes are now available.

| | | |
|----------|------------------------------------|------------|
| JOR849 | Large Bulk Roll, 12" x 10 yds. | \$20.00/ea |
| JOR849A | Large Bulk Roll, 14" x 10 yds. | \$21.00/ea |
| JOR849B | Large Bulk Roll, 16" x 10 yds. | \$25.80/ea |
| JOR849AN | Individual, Non-sterile, 12" x 36" | \$4.10/ea |

Premium Sterile Surgeon Gown (D)

Sterile surgeon gown comes individually wrapped with towel. These gowns are made of a non-woven material that helps provide a barrier to blood, body fluids and pathogens. They offer a high level of protection without compromising comfort. They are cut wider through the chest and sleeves for a roomier fit and feature a velcro-style neck closure that allows the neckline to easily adjust to a wide variety of people. In addition, the velcro-style closure helps prevent gapping in the front of the gown to further protect against fluids. The gowns are very low lining, minimizing the risk of introducing particles into the O.R.

Rubberized OB Apron (H)

Rubberized OB Apron. Suitable for wearing in conjunction with JOR29 or JOR29c. **Jorvet**

| | | |
|--------|----------------------------|------------|
| JOR29A | Rubberized, 120cm or 48" L | \$37.50/ea |
|--------|----------------------------|------------|

OB Shoulder Protector

This is the original Danish import, where the arm passes through an opening in the special easy-to-clean rubber shield. There's no bunching of the material in the arm area. If worn in conjunction with a rubber apron, it serves as an OB smock. Protector lies under opposite arm. **Jorvet**

| | | |
|-------|-------------------|------------|
| JOR29 | Heat-sealed seams | \$45.00/ea |
|-------|-------------------|------------|

OB Shoulder Cuff **Jorvet**

Basically the same as JOR29 above, but less area is covered. Very handy in conjunction with disposable or rubber sleeves.

| | | |
|--------|-------------------|------------|
| JOR29C | Heat-sealed seams | \$33.00/ea |
|--------|-------------------|------------|

Disposable Plastic Boots

Fits over cowboy boots and large work shoes. Handy tie feature keeps boots on tight. Blue. **Jorvet**

| | | |
|----------|--|------------|
| JOR100BL | Heavy 4 ml thickness. 21"H x 16"L. 50/bag. | \$18.45/pk |
| JOR100B | 4ml. 50/pk. 18"H x 14 3/4"L. | \$18.30/pk |

Breathable Coveralls

These latex-free coveralls are made of totally fluid-proof, yet breathable material. These deluxe cut coveralls are extra roomy and fit easily over street clothes for quick access to the O.R. or clean area. Each coverall features a full length zipper in front, elastic gathers in back for a superior fit and extra room in the sleeves for easy mobility. The breathable coveralls are great for extended wear periods and are a more comfortable and cost effective option to Tyvek coveralls.

| | | |

Jorvet Sharp's Container

Veterinarians increasingly understand the need to be in compliance with government regulations from agencies like OSHA and the EPA. These regulations require proper disposal of medical waste in containers specifically designed for such use. These red plastic containers are especially designed for easy and proper disposal of items such as hypodermic needles, suture needles, and scalpel blades. The top lid has a special slot that helps removal of hypodermic needles from their hub. When the container is completely full, the lid seals permanently and tightly for proper disposal.

| JOR991 | 2 1/2 gallon, "Touch Free" | \$69.00/ea |
| JOR991A | 7.3 gallon, each, "Touch Free" | \$130.50/ea |

Jorvet Biohazard Disposal Bags

Orange-red. Look for the sterilization indicator patch. The days have passed when veterinarians simply disposed of their hazardous waste like surgery gloves, drape, and animal body parts in the trash. Medical standards require responsible disposal of medical waste in appropriately marked bags that can be safely autoclaved. A large biohazard symbol and precautionary in four languages are clearly visible for safety. Made of high molecular weight, high density (HMHD/polyethylene) and are steam autoclavable up to 121°C (250°F).

Jorvet Large Animal IV Catheter

Large animals need large volumes of IV fluids in a short period of time. Naturally, the IV catheter needs to be a large bore, and often is even put in bilaterally to maximize fluid administration speed.

Features:

- Large bore: 10g and 14g catheters. The 10g is the largest available.
- Longer lengths: 51/2" catheter lessens the risk of pulling out the catheter.
- Pebax® catheter implant grade material: much less bioactive to lessen thrombosis formation for long term >3 days placement.
- Kink resistant: other catheters like Teflon will kink upon bending, making them unusable.
- Clear catheter material versus opaque Teflon.
- Suture patch: a thin, flexible patch with twin eyelets. Allows suturing in place or hold with tissue adhesives. Reduces catheter pull-out.
- Competitive pricing and available through JorVet distributors.

| | | |

Extended Use Polyurethane Catheter

Most traditional jugular catheters are Teflon. They can create a thrombosis and crack if left in place for over 48 hours. The development of new materials allows large-bore catheters that can safely be left in-dwelling for up to 10 days. The JorVet Extended Use Catheter softens at body temperature. Many of the common catheter-related problems, such as phlebitis, can be minimized with these catheters.

- 14g and 16g polyurethane catheter over needle
 - Non-thrombogenic and non-cracking
 - Can be safely left in the vein for up to 10 days
 - This same catheter is used in 24 out of 27 U.S. veterinary teaching hospitals
- Suture wings with holes or suture groove attachment

Jorvet IV Catheter Guard

JorVet

There is nothing more frustrating than working hard to place an IV catheter in a critically ill patient only to have the patient remove it. The IV Catheter Guards are a quick and inexpensive way to detour your patients from chewing or licking on their IV catheters. They are made of a thin lightweight flexible plastic with holes for air circulation. The IV catheter guard is held in place by velcro straps that wrap around the limb. The rough surface of the velcro seems to deter most patients from licking. Straps are reusable, but also inexpensive to replace if damaged. University tested and recommended. Directions for Use: Select the correct size from the four sizes available. Loosen velcro straps. Place IV Guard over the catheter as shown. Wrap velcro straps around the leg and tighten on IV Guard. Soak or gently scrub with disinfectant solution or bleach between uses. Four sizes available!

Central Venous Catheter Kit & Infusion Sets/Pumps

Jorvet Central Venous Catheter Kit

These long-term catheters have been the standard of critical care in human medicine for many years. The catheters are placed in the jugular vein using a technique called Seldinger. It uses a guide wire system.

- Non-reactive polyurethane catheter: can be left in place for extended use i.e. 3-4 weeks.
- Single, double or even triple lumen catheters of various lengths: allows administration concurrently of different IV medications.

Kit consists of:

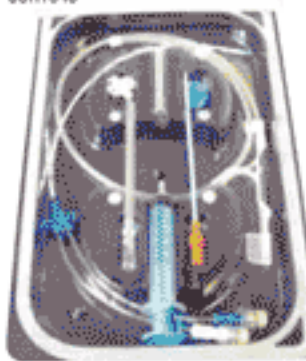

- Polyurethane radiopaque catheter with clamp
- Introducer needle
- Vessel dilator
- Guide wire
- Injection caps
- 5ml syringe
- Illustrated directions

Jorvet Lightweight IV Infusion Pump

IV Set requirement: Standard IV set (10, 15, 20, or 60 drops/ml), or micro drip IV set (60 drops/ml) with 3.4-3.5 mm tubing. Best if Baxter or Abbott IV sets are used.

- Flow rate setting range: 1 ml/h-999 ml/h
- Drip rate setting range: 1 drop/min-333 drops/min
- Flow rate step: 1 ml/h Flow rate accuracy: +/-5% (standard PVC set must first be adjusted)
- Drip rate accuracy: +/- 2%
- Volume infused display: 0-9999 ml
- Volume limit setting range: 0-9999 ml
- Purge rate: 600 ml/h
- Keep Vein Open Flow Rate: 1 ml/h
- Occlusion Pressure: 40kPa-140kPa, 8 levels occlusion sensitivity
- Alarms: Infusion Monitoring: Air in tube, door open, occlusion, pause, infusion complete, abnormal drips, leakage, tube slope, etc.
- Diagnosis malfunctions: Low battery, damage battery, abnormal drip detector, abnormal peristaltic finger pump.
- Power source: 110V/60Hz
- Inner battery: Rechargeable Ni-hydrogen battery, DC12V, 2000mAh
- Charge: 16 hours
- Discharge time: >5 hours
- Power consumption: <15VA
- Weight: 2.1 kg
- Dimensions: 140mm x 168mm x 230mm

Intravenous Products

Blood Collection, Lactated Ringers & IV Splints

Jorvet Small Animal Blood Collection Set

The addition of these blood collection sets allows for easier and proper feline and small animal blood collection. They are a complete closed system that will get better blood component results, i.e., packed RBC or plasma. The bags are provided dry and anticoagulant (JORS22) will need to be added. The sets come in two basic formats: a set with 19g butterfly needle or a 60cc syringe with a 3-way stop cock. Small blood bag collection set.

- 100 dry (blood) collection bag
- 19g butterfly needle with tubing
- complete directions

Jorvet Cochran IV Splint

Small animal veterinarians often are confronted with the problem of administering a continuous or uninterrupted IV drip to an unattended patient. The cephalic vein is easily occluded when an animal is in a sternal position with the elbow in flexion. The patented Cochran IV Splint is the first product that allows the animal to lie comfortably and still ensure a continuous IV flow. This IV splint will enable the practitioner to extend the patency and longevity of an IV catheter and administer a more continuous and even flow of IV fluids to critically ill patients.

Jorvet Blood Collection with Attached Transfer Bag

Considered a closed system, this is useful for separating blood components. Collect blood from a suitable donor in the 450ml bag containing the CPDA#1 anticoagulant via standard blood collection techniques. The blood is separated into plasma and red blood cells portions refrigerated upright either via standing gravity or blood centrifuge. Store the bag with the transfer tube on the bottom since concentrated RBCs are heavier. After separation gently snap the white plastic stopper into half to open the transfer channel which allows concentrated RBC to drain into the attached transfer bag. After completion of transfer the connecting tubing is cut and sealed. Benefits include the ability to freeze the plasma portion for an extended period. Concentrated RBC's can be given to an anemic patient in a much smaller volume.

| | | |

Jorvet IV Extension w/Needleless Valve & T-Port

The open end is a needleless valve female luer slip. The opposite end is right angle male spin luer lock fitting that also has a latex injection port. Sterile. 13g x 7".

JOR467Z \$2.70/ea **Jorvet**

Jorvet Standard "T" Extension Set

Distal end has a female luer fitting. Proximal end has male luer slip with latex injection port. Also slide clamp for flow control.

JOR467T Sterile. 5"L. \$2.18/ea

Jorvet Micro Bore "T" Extension

Same configuration as JOR467T only with smaller bore tubing that is more suitable for smaller patients. Sterile.

JOR467Q \$1.71/ea **Jorvet**

Jorvet Small Bone Extension Set w/Ultrasite

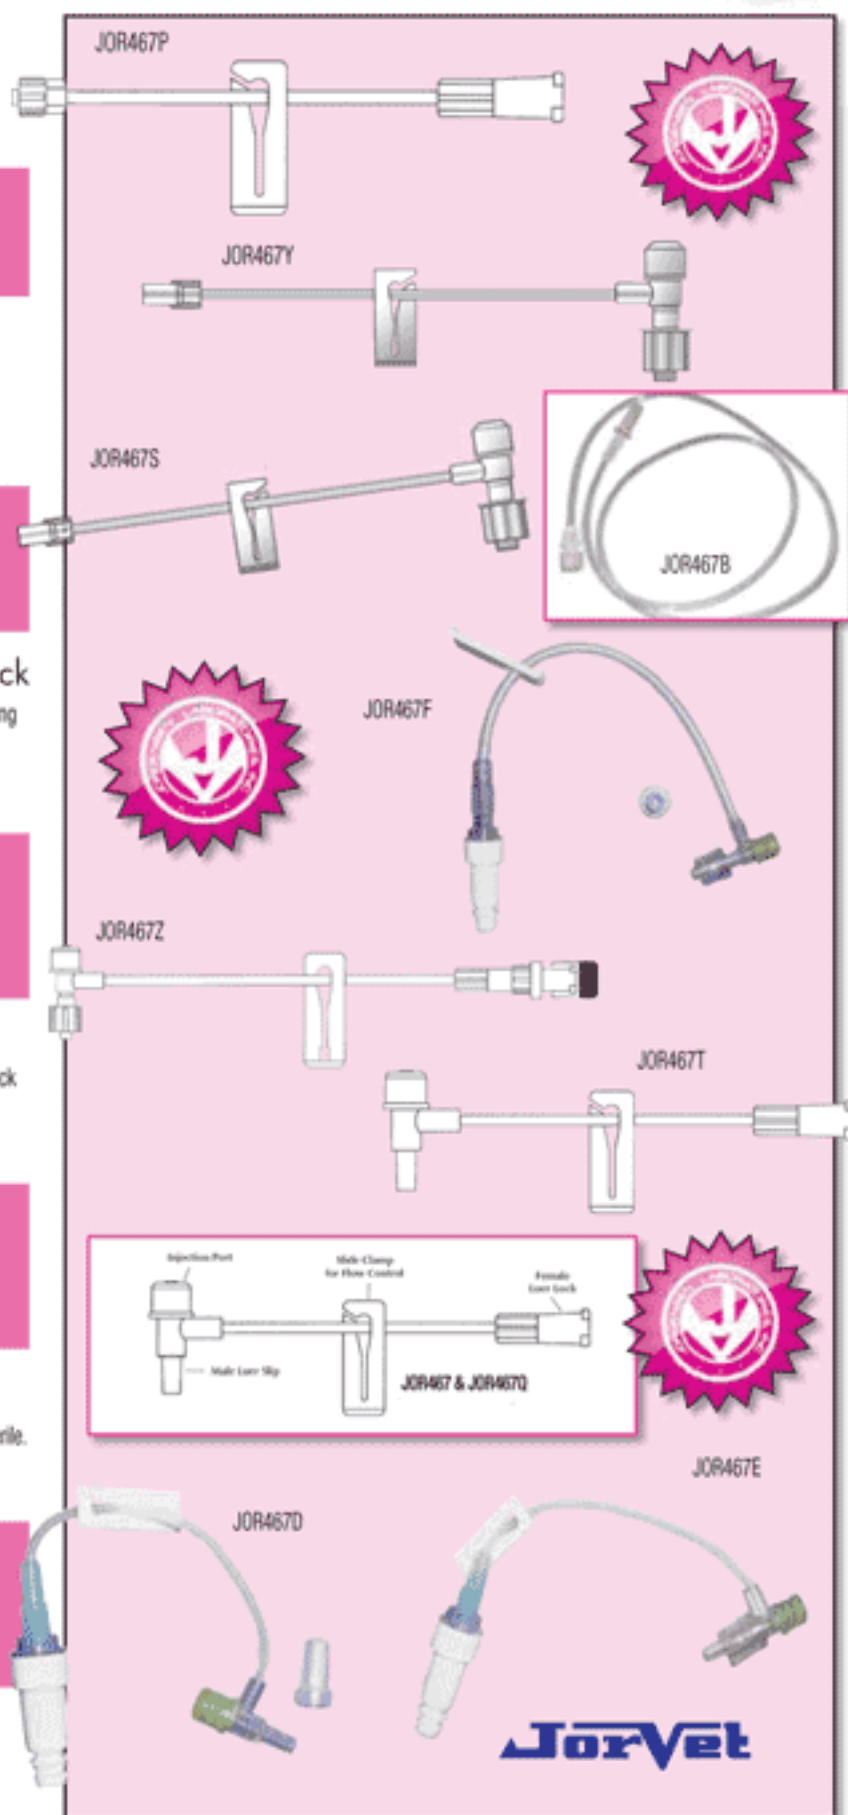

Ultrasite luer lock needle free valve. Male luer lock. 8" length (20.3cm). 0.61ml priming volume. Slide closure clamp.

JOR467D \$2.05/ea

Jorvet Small Bore "T"-Port **Jorvet**

Ultrasite female luerlock needle free. Spin male luer lock. Latex free injection port. Slide clamp.

JOR467E 5.5" length (14cm). 0.66ml priming volume \$2.40/ea

Intravenous Products

Springfusor, Luer Lock Connectors & Adapters

Jorvet Spring Infusor

Jorvet

A simple reusable spring-driver pump used for continuous IV infusions over time, requires no batteries or electricity. The pump is matched with various special sized tubing to determine actual flow rate. Uses include administering oncology and anesthetic drugs, and IV fluids to very small patients.

Features:

- Large variety of flow rates available (e.g., 10ml, 5 minutes to 8 hours)
- Compact and very portable
- Reusable
- No programming required
- Not gravity dependent

Jorvet Dual Pinch Tubing Clamp

Slides over tubing for flow control. Accepts up to 6.6m (20ft) tubing.

JOR594 \$3.00/pk **Jorvet**

JOR594

Jorvet Mini-Spike

Great for preparing and dispensing diluent from multi-dose rubber-stopped vials (i.e., Naxcel). Utilizes a bacterial retentive air-venting filter. Female luer lock attachment.

JOR591 Sterile. 5/pk. \$6.30/pk

JOR591

Jorvet Large Bore IV Administration Set

Larger animals such as horses and cattle require tremendous amounts of IV fluids in a short period of time. The standard smaller human IV sets cannot meet the large IV fluid demands of a critically ill 1,200lb horse. The Jorvet Large Bore IV Set can increase the flow rate up to almost 20-liters per hour, a necessary volume in severe colic or equine critical care emergency.

Jorvet IV Pump

Jorvet

for rapid infusion of large volumes of IV fluids, the rubber bulb pump infuses air into any bottle by needle insertion. Air pressure forces fluid out much quicker than simple gravity.

JOR27R For equine and bovine use. Dark orange. \$12.30/ea

Jorvet IV Set

Simplex IV Bell. High quality latex. 4' tubing. (needle included)

JOR63 Funnel Type \$9.00/ea

Jorvet Complete IV Holder Track System

This simple system puts a moveable IV bag holder on a track that is suspended from the ceiling. The IV holder can be positioned above cages, treatment area, or the surgery table. When not in use, it is simply retracted upward and pushed off to the side.

- Track can be installed into any type of ceiling.
- Lightweight aluminum track comes in any length sections; can be trimmed with hacksaw if needed.
- Four-wheel carrier runs in track. It is locked into position by turning it 360°. A pendant ring is attached to carrier.
- IV holder attached to carrier. It has 4 ram's horns at 90° angle. They each can hold an IV bag. It extends and retracts at the push of a button.
- Oval sections of track are also available. IV holder for four bags (JOR833h)
- Four-wheel carrier with ring (JOR833c)
- Two end caps for track (JOR833e)

Intravenous Products

IV Fluid Warmer & Large Volume Sets

Jorvet IV Fluid Warmer

Intravenous fluids should be administered as close to body temperature as possible, especially when hypothermia or shock is a concern. The Thermal I.V. is a small, lightweight warming unit that is easily placed over a standard I.V. line to warm the fluids to 100°F. The unit is placed within 18" of the patient. Thermal I.V. features include:

- A flow rate up to 12 ml/minute
- AC- just plug in and turn on
- Electrical current stepped down to 12 volt for safety
- Adjustable hanging strap
- No separate cartridges needed
- One (1) year manufacturer warranty. Made in the USA

JOR900 Warmer unit \$470.00/ea

Bull Pen Thermal IV Warming Station

Administering IV fluids close to body temperature has become increasingly viewed as a valuable therapeutic modality. Veterinary patients, either small in size or in possible hypovolemic shock, benefit greatly from receiving warm IV fluids (~100°F) versus room temperature (70°F) fluids. However, maintaining a ready supply of warmed fluids has been difficult. The Jorvet Bullpen is an IV fluid warming station that maintains unopened IV fluid bags at a ready to use temperature of 100°F. Up to 4 one-liter bags of IV fluids can be warmed and kept ready to use. IV fluids placed on the Bullpen's top can be left for an extended period of time (weeks), warm and ready for the next patient. Simple to use, with no maintenance required, the Bullpen can be left on 24/7. The Bullpen works in conjunction with the Jorvet Thermal IV (J-900). A one-liter bag takes 2 1/2 hours to reach 90°F and 6 hours to reach and maintain 100°F.

JOR900B One-year warranty. 110V 60 Hz. 16"W x 3 1/8"H x 13 7/8"D. 5.3 lbs. \$380.00/ea

Jorvet Intrafix Air IV Set with "Y" Injection Site.

- Same drip chamber features as JOR400
- 78" soft elastic tubing
- "Y" latex injection site 6" from distal end
- Sterile

JOR400Y \$1.50/ea

Jorvet Universal Disposable IV Set

- A new IV set from Jorvet for use on either vented or non vented IV fluid containers.
- Inexpensive for best value in IV sets
- Sterile

JOR400 Sterile \$1.40/ea

Jorvet IV Set Extra Length

These sets eliminate the need for extension sets. There are 2 "Y" sites: one near the drip set and the other 8" from the distal end. Plus, there is a latex injection port at the distal end. 100" (250cm). Sterile.

JOR400A 100" (250cm). Sterile. \$1.35/ea 

Jorvet IV Set Mini-Drip Xtra Length

JOR468MA 100" (250cm). Sterile. \$1.35/ea

Jorvet Mini Basic I.V. Set

60 drop/ml. The standard IV set except has 60 drops/ml drop orifice. This is the preferred set for fine control of fluid administration to really small patients. Sterile. 68"L.

JOR468M 60 dr./ml. \$1.40/ea

Jorvet I.V. Burette Set

This IV is for small precise volumes that can be accurately measured out in calibrated burette versus 1,000ml IV fluid bags. Very useful for very small patients for accurate dosing.

JOR468B \$3.00/ea 

Jorvet Large Bore Fluid Transfer Set

Suggested for equine IV use. Large bore makes for faster administration of solutions. Short tubing is ideal for a standing horse. Sterile.

JOR466 30"L. \$4.80/ea

Jorvet Large Bore IV Set

The Jorvet large-bore IV set is a simple design for the rapid administration of solutions to large animals. Twice the diameter of conventional IV sets, the large bore increases the flow rate by a factor of 16 over standard human IV sets. Sterile.

JOR400X 72" tubing. \$5.40/ea

Jorvet Large Volume IV Solution Bag

New collapsible bag with large-size drip chamber for use with concentrates of lactated ringers. For rapid infusion of large volumes.

JOR400P 3 liter \$24.90/ea

JOR400Q 6 liter \$21.30/ea

Burton AIM-50 Floor Lamp

Technical Specifications:

- Illumination: 99,000 Lux at 24", 45,000 Lux at 36 inches.
- Color temperature: 3100° K.
- Compact 20-inch/51cm diameter lighthead.
- Larger and adjustable light pattern.
- Uses three 50-watt halogen bulbs with 2000-hour bulb life.
- Extremely smooth focus mechanism with autoclavable handle in the center.
- Y-shaped lighthead promotes light pattern free of cast shadows.
- On/Off standby switch on the lighthead.

Jorvet Animal Stretcher

This stretcher offers much more than any other conventional stretcher. It is equipped with two wheels on one end, and two carrying straps on the other end. This enables one person to move a patient. It can also be used in the conventional two-person carry. The frame is a lightweight aluminum. Stretcher is heavy-duty reinforced nylon. Three 2"-wide straps with buckles can be used to hold patient in position. 48" L x 22" W.

JOR742 up to 180lbs \$87.00/ea

Jorvet Soft Carry Stretcher

Great for injured animal transport. Absence of rigid poles allows carrying of patients in tight corners. Large size for carrying all types of patients. Six padded handles for carrying comfort. Washable nylon.

JOR742B 21" x 34" \$27.00/ea

Gleamer Floor Stand Light

All-purpose, rugged, compact halogen light. Offering 4166 footcandles, a sturdy gooseneck and superior quality components. Provides high intensity, maximum flexibility and extraordinary reliability. It's unique venting system, energy absorbing infrared exchanger and patented reflector filter coatings provide a heat-free beam in a cool, yet compact housing.

960112 Floorstand with casters \$695.00/ea

Halogen Light

You'll be able to work closely with this cool, intense light source to perform suturing, biopsies or any procedure where you need extra light. 20-watt halogen bulb with 1200 hour life provides a 5"-9" prefocused spot. 30000K color temperature. Weighted base with 4 locking casters and 24" heavy duty gooseneck for easy positioning. 3-year warranty. Light shipped directly from manufacturer. Shipping charges billed at actual freight.

152113 4 Caster Base \$768.00/ea

Circulating Warm Water Pump

Hypothermia is a constant risk for the small veterinary surgical patient. Approximately 60-70% of surgery patients become hypothermic. Recent human medical studies have proven that keeping patients warm during and after surgery can markedly improve clinical outcomes. This system places a flat comfortable vinyl blanket under the patient. Warm water is circulated throughout this blanket by a special electrical pump. This pump maintains your selection of temps (96°-107°) within 1.5°F. The pump is matched with the blanket size and material of your choice. This pump has a number of important features:

- Audible Alarm: low water, tilt
- *1 year warranty open sensor and high temperature
- Self-sealing connectors for no water leakage
- Dual thermostats for safety * Includes 8 feet of connecting hose
- 10" (h) X 7" (diameter) weighs 6lbs *Micro Processor Control
- 50 oz. Water reservoir *Digital LED Readout
- Can use tap water *Flow rate 15 gallons/hour
- 8 ft electrical cord *UL approved

JOR783X \$545.00/ea

Vital Signs Monitor

Vital Signs Monitor 300 Series is ideal for Spot Checks or Continuous Monitoring.

This full-featured monitor measures blood pressure (NIBP), pulse rate, MAP and SpO2, plus includes SureTemp® Plus thermometry for oral temperature readings in just 4 seconds. Nellcor® pulse oximetry, SureTemp® Thermometry and an integrated thermal printer are optional. Includes auto blood pressure mode, programmable alarms and built-in memory. R-232 computer interface allows you to upload data to your network or PC. Vital Signs Monitor complete with NIBP, Nellcor SpO2, SureTemp® Thermometry and Printer.

W-A53NTPe1 measures blood pressure (NIBP), pulse rate, MAP and SpO2, plus includes SureTemp® Plus thermometry for oral temperature readings in just 4 seconds \$5,900.00/ea

Equipment & Furnishings

Electrosurgical Units and Electrodes

Jorvet Electrosurgical Unit

The most affordable unit available for today's veterinary surgeon. With more than enough power for any procedure.

Features:

- 3 operating modes at the turn of a dial
- Fully filtered: smooth cutting
- Fully rectified: cutting & coagulation
- Partially rectified: Coagulation: larger bleeders
- 10 different power settings
- Wide selection of electrodes included
- Includes ground plate

Equipment & Furnishings

Electrosurgical Units, Electrodes & Nebulizer/Compressor

Bovie 2250 Digital Electrosurge Generator

A more powerful unit is needed when doing specialized endoscopy procedures like OHE's or spays. This unit will work well with Richard Wolf's Powerblade and other brands of bipolar endoscopy equipment. The increased power is the cut format: 200 watts, fulguration: 80 watts, bipolar: 80 watts. Uses the same JOR484 3/32" tips shown on the following page. 12.3"W x 16.3D x 6"H. Accessories included:

- Two disp hand pieces (JOR484mdla)
 - Autoclavable hand piece (JOR484mdlc)
 - Reusable body or ground plate
 - Five different electrodes
 - Two Electrodes - standard needle (JOR484ad4)*
 - x Three Electrodes - standard blade. (JOR484ad5)*
- Two-year warranty Optional Item: JOR484xd1 Bipolar Foot Switch

Nebulizer/Compressor

Aeromist® Plus Nebulizer Compressor: Get a high quality nebulizer without the high cost. This new sleek design is easy to pick up with break resistant hinges. It remains stable when laying flat on four non-skid rubber feet due to its low center of gravity. The compact design easily fits on small surfaces and the cord conveniently stores inside the shell when not in use.

- Electrical Requirements: 115 VAC / 60 Hz
- Power Consumption: 75 W
- Dimensions: 4.1" (105 mm) H x 5.7" (145 mm) W x 7.9" (200 mm) D; Weight: 1.6 kg (3.53 lb.)
- Sound Pressure Level: 53 dBA; Max. Comp.
- Pressure: 30 PSIG or greater
- Neb. Operating Pressure: 10 - 14 PSIG; Liter Flow Range: 4 - 8 LPM; Particle Size Less Than: 5 microns
- Maximum nebulizer solution capacity: 10 ml
- Operating Temperature: 10 C - 40 C (50 F to 104 F)
- Operating Humidity: Up to 95% non-condensing
- Storage/ Transport Temperature Range: -20 C - 60 C (-4 F to 140 F);
- Storage/Transport Humidity: Up to 95 % non-condensing.

HCS60004 Compact size with initial circuit \$45.00/ea

Deluxe Bovie Electrosurgical Unit

This is a top-of-the-line Electro surgical unit made by the original Bovie Company. They first invented the Electro surgical unit in the 1920s. The complete table top unit is fitted with veterinary specific equipment. Five modes: cutting, cutting/coagulation, coagulation, fulguration, bipolar. User has option of handpiece finger switch or foot control

- Rotary dial operates power; shown in 1 watt increments via LED readout
- Reusable body pad (ground plate)
- Built-in bipolar (requires optional foot pedal)
- Five 3/32" electrodes; interchangeable with other same size brands
- 101/4"W x 51/2"H x 10"D, 14 lbs.
- U.L. approved Accessories Included:
- Two Disposable Handpieces (JOR484md1a)
- Autoclavable Handpiece (JOR484md1c).

Equipment & Furnishings

Gas Vak Systems & Accessories

Jorvet Multi-Station GasVak Unit

There is an increasing awareness among veterinarians and their staff about the health hazards of breathing waste anesthetic gases. The JorVet GasVak Scavenger system is an active unit that removes waste anesthetic gases at the pop-off valve on all anesthetic machines or from the end of a non-rebreathing system. The waste gas is then vented outside the clinic via a vacuum fan power unit.

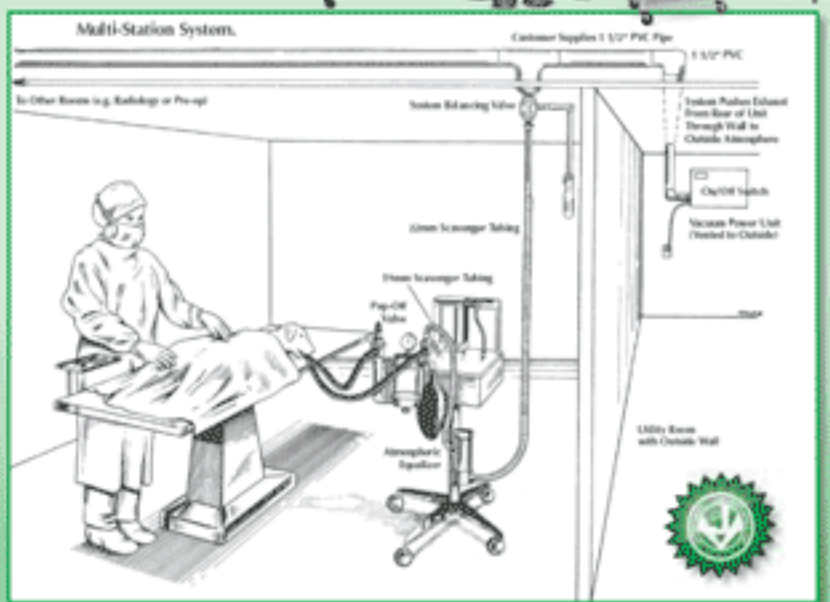

- For facilities with more than one anesthesia location
- Ceiling outlet or balancing valve at each location
- Each anesthesia machine has a scavenger interface or atmospheric equalizer mounted on gas machine

JOR302 Unit comes complete with: \$1,290.00/ea

- Two balancing valves
- Two atmospheric equalizers

Multi-Station GasVak Unit

JOR302W Multi-Station GasVak Unit with Wall Mount Balancing Valves \$1,360.00/ea

GasVak™ Active Scavenging System

JOR302R Multi-station with Remote Control. \$1,700.00/ea

Jorvet GasVak™ Scavenging System

The JorVet GasVak Scavenger System is an active unit that removes waste anesthetic gases at the pop-off valve on all anesthetic machines or from the end of a non-rebreathing system. The waste gas is then vented outside the clinic via a vacuum fan power unit.

- Mounted next to outside wall
- Up to 25' of tubing or PVC pipe can be on exhaust, allowing exit through the ceiling or going up and over another room.
- Works best with one anesthesia location and one anesthesia machine.
- Scavenger tubing provided

JOR301 Single Station \$695.00/ea 

Jorvet Gas-Vak Scavenging Tune-up Kit

- Tune-up Kit consists of:
- 22mm corrugated clear tubing, 15'.
- 19mm corrugated blue tubing, 15'.
- Four adaptors, 22mm o.d. x 22mm o.d./15mm i.d.
- Two adaptors (cuffs), 22mm o.d. x 22mm i.d.
- Two adaptors, 19mm i.d./22mm o.d. x 22mm o.d./15mm i.d.

JOR302T \$63.00/ea 

For each anesthesia station the following equipment is required.

GasVak™ Balancing Valve

Equipment & Furnishings

Balances & Scales

Portable Digital Scale w/Stainless Tray

This scale is particularly suited to the veterinary industry. With a capacity of 44 lb (20 kg) and readability of 1/2 oz (10g), the scale will accurately weigh infants or small animals. The scale has a "Hold" feature that will capture an unstable weight and keep it on the display for recording after the weight is taken off. The scale can operate on battery (single 9VDC) or AC (adapter included) and comes with a stainless steel weighing tray.

JOR825SS \$169.00/ea

JorVet

JorVet Walk-On Scale (G)

Clients love to weigh their pets on this walk-on scale. Special software will capture the weight of a moving animal. Stainless steel top with rubber mat to avoid slippage. All units are pre-calibrated and simple to install using the adjustable feet for leveling.

- Weighs Kg (0.1) or pounds (0.2) units with tare function
- Weighs up to 250 Kgs or 500 lbs
- Remote LCD display with 3 meter (10') cord for wall mounting
- 22"W x 36" L x 2"H
- AC with 4 AAA batteries

Jorvet

Jorvet Thermal Jacket

JorVet Thermal Pad is a very effective, economical source of providing warmth to retain or increase body temperature for your veterinary patients. Thermal heat is circulated by standard warming blanket placed between two sturdy sheets of 21" x 27" polypropylene 5/8" thick. This plastic pad has a smooth surface for easy cleaning and is extremely puncture resistant. This system connects to our Thermal Pump (JOR7831), and comes with connectors to adapt to other circulatory water pumps on the market.

JOR784W \$102.00/ea

Plastipad Urethane Blanket JorVet

Constructed of rugged urethane that is lightweight with extra strength that resists punctures. Seam strength is triple that of vinyl. Urethane is easy to clean.

JOR784D 12" x 18" \$218.00/ea

Total length 6ft. 4ft hose then Y's, 2ft length on each Y.

JOR784DC 2ft length on each Y. \$84.00/ea

JorVet

Protect-A-Pad Cover Fits

There is a widespread use of circulating hot water blankets in veterinary medicine. An animal's sharp claws can very easily puncture these blankets. These cover pads are a soft padded, quilted cotton that protects the water blanket and provides comfort for the patient. The blanket has excellent heat transference and is inserted between the pad layers with Velcro closes. Protect-A-Pads work with most brands of circulating hot water blankets. Machine washable.

JOR784Q 18" x 24" \$37.00/ea
 JOR784R 22" x 30" \$46.20/ea

Equipment & Furnishings

Smoke Shark, Soak Trays & Drenchers

Jorvet Smoke Shark

Noxious smoke is generated when using either an electrosurgical unit or surgical laser. At the very least smoke is a nuisance odor, and at worst, an occupational health hazard. The Smoke Shark is designed to remove smoke and particulate matter generated by electrosurgical generators or lasers at the operative sight. The Smoke Shark unit consists of a smoke evacuation power unit, filter canister, and various tubing attachments. The four stage filter captures particles down to 0.01µm with over 99.99 percent efficiency. The filter has an 18-hour shelf life and contains 24 ounces of carbon giving it superior ability to eliminate odors. Tubing (6') connects the filter to the surgery site. A small arm stand holds the tubing close to the surgical site without contaminating the sterile field. Features:

- Line voltage: 120 VAC ± 10%
- Line frequency: 50-60 Hz
- 17.78 cm (7") W x 29.85 cm (11.75") H x 46.36 cm (18.25") D
- Weight: < 6.5 kg (< 14 lbs.) w/o filter

JOR483 Complete with: \$1,960.00/ea

- Smoke Shark power unit
- Long life filter
- 6' tubing (24/pk)
- Foot switch
- Arm stand

Feline Breathe Easy Inhalant Delivery System

A great aid in treating feline asthma has been improved! The "Feline Breathe Easy" has been a very popular product in treating feline asthma. The pocket spacer holds a metered dose inhaler (MDI) to deliver medication.

- The new pocket spacer is called the Vortex and has three advantages over other plastic pocket spacers:
- Anodized Aluminum chamber versus plastic. The anodized aluminum is non-electrostatic and delivers more medication from the MDI to the patient.
- 'Duckbill' shaped valve designed for minimal aspiratory effort, ensures a low loss of medication.
- Vortex Cyclonic aspiratory flow pattern enhances aerosol delivery.

JOR843 \$37.50/ea

Jorvet Aspiration Suction Unit

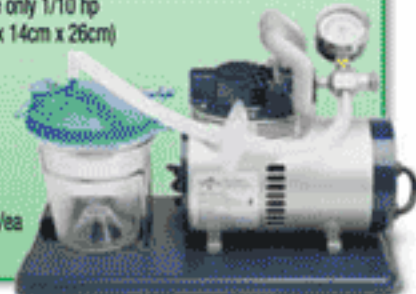

This portable unit will provide powerful suction via an aspirator pump motor. Intraoperative suction of blood or body fluids. Attach to endoscope to keep field of vision clear or sample collection.

Features:

- Aspiration range 0-27" Hg
- Powerful 1/5 hp motor, most other units have only 1/10 hp
- Compact 14" L x 5 1/2" W x 10 1/2" H (35cm x 14cm x 26cm)
- In line hydrophobic filter protects motor
- 800cc Storage canister
- Lightweight, 12.4 lbs.
- Five-year warranty

Delta-Lite Plus Fiberglass Cast Tape

Delta-Lite Plus is a new fiberglass cast tape that combines a fiberglass substrate and advanced water activated polyurethane resin system which provides tack-free properties. The tack-free properties allow ease of application and molding using standard examination gloves.

Features and Benefits
 • Very Smooth surface - Less abrasive finished cast enhances patient comfort while it reduces clothing snags

- Excellent rigid support (immobilization) - Creates long-lasting, light weight cast
- High lamination - Creates a strong bond between layers ensuring a strong finished cast
- New resin formulation - Use exam glove of your choice. Improves unrolling tension improving ease of cast application
- Good conformability - Makes casting application easier with change of anatomy
- Outstanding molding - Produces an anatomically correct cast

Jorvet Dorsi-Flex Assist

Provides light to moderate assistance for normal hind paw placement. Designed for use as a therapy aid or for daily activity. (Not to be used for dogs with severe neurological impairments.)

Uses:

- Reduces knuckling/standing on the dorsum of the paw
- Mobility aid for unstable or weak distal hind legs
- Assists with tarsal/hock flexion and digital extension
- Can be used bilaterally

Features:

- Adjustable, elastic tension straps
- Includes breathable, anti-skid, Thera-Paw boot
- Will not immobilize joints
- Lightweight
- Easy to put on/take off
- Cleans easily by rinsing with warm water

Gel Cast & Splints

Jorvet Gel Cast

This pink soft cast or bandage is useful for the management of soft tissue sprains or lower leg edema. The cast is actually a bandage material that is 100 percent cotton gauze evenly impregnated with a non-hardening zinc oxide paste. Considered a primary dressing that should be covered with a secondary bandage. Rolled and packaged in individual vacuum sealed pouches. Features and benefits:

- Contains zinc oxide paste to allow bandages to stay moist and comfortable, encouraging ambulation
- Thread-locking edges that prevent unraveling
- Non-gelatin. Does not cake or harden, stays soft over an extended period of time
- No preservatives that may cause allergy or hypersensitivity
- Vacuum sealed pouch prolongs shelf life.

Sam Splints

The Sam® Splint is a closed-pore, foamed, coated, malleable aluminum product that is so unique it is patented. This lightweight radiolucent immobilization device, well-accepted in the human field, has been carefully evaluated and improved to meet the unique requirements of veterinary medicine. The Sam® Splint is the lightweight, universal veterinary splint.

- Washable, not affected by water, disinfectants or temperature extremes.
- Compact. May be stored flat or rolled.
- Easily cut with ordinary scissors.
- Radiolucent.

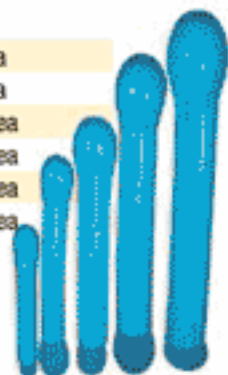

| | | |

Orthopedic Products

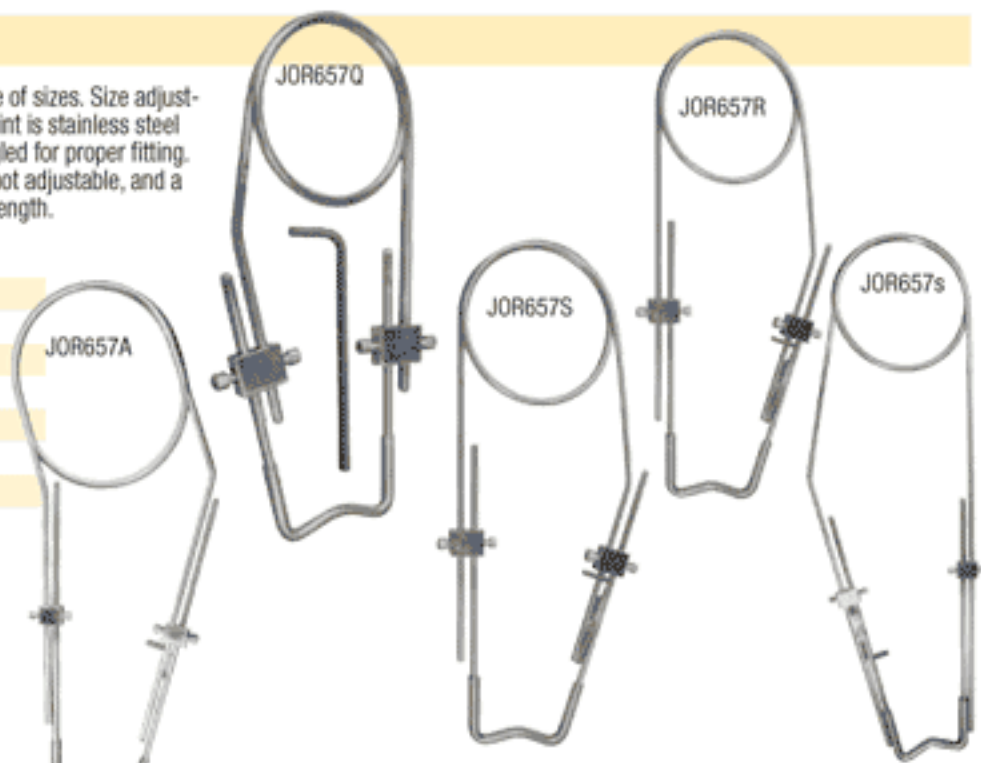

Jorvet Splints; Orthopedic, Adjustable & Mason

Jorvet Adjustable Splints

These pre-formed "T" splints offer adjustments over a wide range of sizes. Size adjustable by a simple set screw. The bottom or distal portion of the splint is stainless steel and the upper portion is malleable aluminum. It can be bent or angled for proper fitting. The proper sizing consists of the upper circle diameter, which is not adjustable, and a lower portion, which is adjustable over a maximum or minimum length.

Marq-Easy Thermo Plastic Splints

Jorevet Marq-Easy Thermoplastic Splint Sheets

Solid construction 1/8" thick splint sheets offers superior rigidity and tensile strength (180,000 psi), making it ideal for weight-bearing splints in small and large animals (i.e., medium to large dogs, horses, and livestock). The tough, rubberbased material makes a strong, rigid splint, drapes well over contours and bony areas, and adheres to itself when heated to reinforce or patch splint. Radiolucent. Tan.

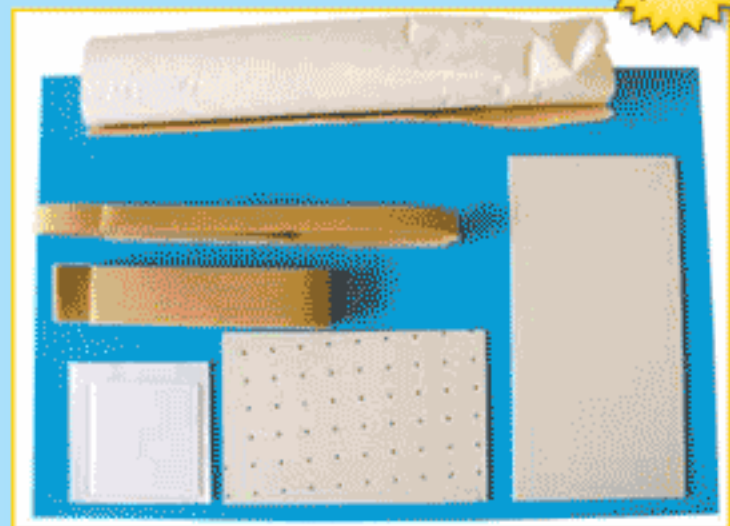

| | | |

| JOR940V | Kit includes: 1" x 36" L strap and 12" hook patch with self-adhesive back side. Both can be trimmed to customize the splint. | \$8.60ea |

Marq-Easy Thermoplastic Splint Sheets Kit

Provides all the basic components to get started with thermoplastic splinting. A wide range of applications can be accomplished with the materials provided along with the comprehensive CD R Kit includes:

- JOR940b Marq Easy 1/8" Thick Splint Sheet. 6" x 12".
- JOR940g Marq Easy 1/16" Thin Splint Sheet. 6" x 9".
- JOR940w Polycushion 1/8" Thick Padding. 18" x 24".
- JOR940x Compact Foam 3/8" Thick Padding. 16" x 24".
- JOR940s Clear Thera-Gel 1/8" Thick Sheet.
- JOR940v Soft Padded Velcro Strapping. 1"W.
- JOR940t Soft Padded Velcro Strapping. 2"W.
- JOR940cd Instructional CD ROM.
- JOR291bc Cotton Stockinette 2" x 25 yd. (also in kit)

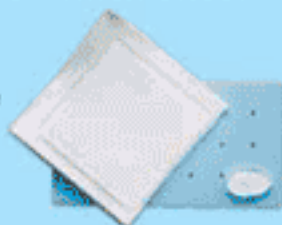

JOR940K Starter Kit \$135.00/ea

Jorvet Clear Thera-Gel 1/8" Thick Sheet

With self-adhesive back. Cut to fit to protect bony prominences and sensitive areas. Contains mineral oil to help soften and protect delicate skin. Washable with soap and water.

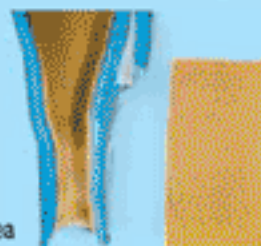

JOR940S Latex-free, 4" x 4". \$24.60/ea

Jorvet Polycushion 1/8" Thick Padding

Self-adhesive back. Closed-cell, soft construction. Adheres to splint sheet prior to heating in water. Applying this padding on splint sheet prior to heating in water takes longer to soften (~5 minutes). For all-purpose use. Wipes clean with damp cloth.

JOR940W Latex-free. Tan. 17 3/4" x 24" \$19.50/ea

Jorvet Compact Blue Foam

With self-adhesive back. Open-cell, slow-recovery construction. Medium-density, compact foam molds with body heat to contour body parts. Use to pad the splint for increased patient comfort. Contains some latex.

JOR940X 3/8" Thick Padding (for Splints), 16" x 24" sheet \$35.45/ea

Jorvet Soft Padded Velcro Strapping

Velcro Strapping useful for larger animals or to disperse pressure over larger surface areas. Kit includes: 2" x 36" L strap and 12" hook patch with self-adhesive back side. Both can be trimmed or thinned as needed.

JOR940T 2" x 1 yd \$12.90/set

Jorvet Halpa Fleece Liner

With self-adhesive back. Open-cell, extremely softweave. Mild stretch makes it easier to line intricate spaces and contours for use with smaller animals, including small dogs, cats, birds, and exotics. Useful to pad strapping material and for covering minor creases in splints.

JOR940Y Latex-free 100% cotton. Pink. 9" x 16" \$18.75/ea

Jorvet External Fixation Starter Kit

Basic kit to provide components enough for any type I frame in small and medium size. Ideal for beginning entry into external fixation.

| | | |
|----------|--|-------------|
| JOR371K | Complete Kit | \$442.00/ea |
| JOR371S | Single Fixation Clamp, Small | \$30.00/ea |
| JOR371M | Single Fixation Clamp, Medium | \$25.50/ea |
| JOR371DS | Double Fixation Clamp, Small | \$54.00/ea |
| JOR371DM | Double Fixation Clamp, Medium | \$55.00/ea |
| JOR371PA | 3/32" External fixation pins (4) pt. thrd. | \$16.20/ea |
| JOR371PB | 1/8" External fixation pins (4) pt. thrd. | \$9.75/ea |

Jorvet Small Fixation Type I Kit

The pins of Type-I frame pass through both bone cortices. The clamps and connecting rods are assembled only on one side of the injured leg. Type-I Kit contains:

- 6 Single clamps
- 2 External fixation part thread pins
- 2 Double trocar smooth IM pins
- 1 Connecting rod

| | | |
|----------|----------------------------------|-------------|
| JOR371KS | Small, Pin, 3/32" dia. Rod, 6"L | \$149.00/ea |
| JOR371KL | Large, Pin, 5/32" dia. Rod, 10"L | \$154.00/ea |

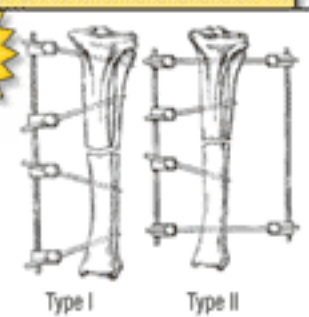

Type-II External Fixation Kit

The pins of the Type-II configuration pass through two sides of the limb. Clamps are attached to both ends of protruding pins. Type-II kit contains:

- 4 Double trocar IM pins
- 8 Single clamps
- 2 Connecting bars

| | | |
|-----------|--------------------------------------|-------------|
| JOR371KBL | Large, IM pin, 5/32" x 10" Rod, 10"L | \$216.00/ea |
| JOR371KBM | Medium, IM pin, 1/8" x 9" Rod, 8"L | \$199.00/ea |
| JOR371KBS | Small, IM pin, 3/32" x 8" Rod, 6"L | \$199.00/ea |

Jorvet Extra-Large or Equine KE

Oversized KE clamps takes a full 1/4" pin.

| | | |
|-----------|--------------------------|-------------|
| JOR371XLD | Double KE Clamp, X-Large | \$140.00/ea |
| JOR371XLS | Single KE Clamp, X-Large | \$77.00/ea |

Jorvet Connecting Rod

A variety of sizes are offered to work with every case.

| | | |
|-----------|--------------------|-----------|
| JOR371RMH | 3/16" x 10" length | \$9.00/ea |
|-----------|--------------------|-----------|

Jorvet Dynamic External Fixator Kit

New design allows KE device to do limb lengthening on a dynamic basis of 1mm per day. KE pins and threaded rods are the same sizes as standard KE parts. External Fixator Kit contains:

- 2 Threaded rods
- 4 Sliding double KE clamps
- 8 Locking nuts
- 2 Raised-center face pins
- 2 Trocar-trocar pins

| | | |
|-----------|--------|-------------|
| JOR371DFL | Large | \$640.00/ea |
| JOR371DFM | Medium | \$505.00/ea |
| JOR371DFS | Small | \$600.00/ea |

Jorvet Connecting Rods

| | | |
|------------|--------------------------|------------|
| JOR371RXLA | 100mm L., 5/16" diameter | \$32.00/ea |
| JOR371RXLB | 200mm L., 5/16" diameter | \$42.00/ea |
| JOR371RXLC | 300mm L., 5/16" diameter | \$52.50/ea |
| JOR371RXLD | 400mm L., 5/16" diameter | \$72.00/ea |

Jorvet KE Starter Kit with raised (positive) Threaded Pins

| | | |
|----------|--|-------------|
| JOR371XB | Medium Pin Kit. JOR371m 8 Medium Single Clamps. JOR371g 4 Positive Profile End-Threaded, medium. JOR371b 4 Positive Profile Mid-Threaded, medium. JOR371rmg 2 Connecting Bars, 8"L. JOR372d Drill Bit, 7/64". | \$279.00/ea |
|----------|--|-------------|

| | | |
|----------|--|-------------|
| JOR371XA | Small Pin Kit. JOR371s 8 Small Single Clamps. JOR371f 4 Positive Profile End-Threaded, small. JOR371a 4 Positive Profile Mid-Threaded, small. JOR371rsf 2 Connecting Bars, 6"L. JOR372b Drill Bit, 5/64". | \$304.00/ea |
|----------|--|-------------|

Jorvet Type-I Half Pin

Partially threaded pins engage the cortex and increase the pull out resistance.

| | | |
|----------|------------|-----------|
| JOR371PC | 5/32" x 5" | \$9.75/ea |
|----------|------------|-----------|

We do not stock all Orthopedic Products. Note that Jorvet/Jorgensen brand Products have a \$10 Dropship fee, as well as extra overnight fees.

| JOR371RLA | Large Rods 5/16" D, 4" L | \$7.50/ea |
| JOR371RLB | Large Rods 5/16" D, 6" L | \$7.50/ea |
| JOR371RLC | Large Rods 5/16" D, 8" L | \$13.50/ea |
| JOR371RLD | Large Rods 5/16" D, 10" L | \$12.00/ea |
| JOR371RLE | Large Rods 5/16" D, 12" L | \$9.00/ea |

Jorvet Carbon Fiber ESF Bars

Carbon fiber ESF bars offer two advantages over conventional stainless. They are radiolucent and lighter in weight but comparable in strength. Note: carbon fiber needs to cut with a saw versus stainless pin cutters.

| | | |
|------------|------------------------------------|------------|
| JOR371RMAC | Medium Bars 3/16" D, 2" L | \$7.50/ea |
| JOR371RLAC | Large Bars 5/16" D, 5/16" W x 4" L | \$10.20/ea |
| JOR371RLBC | Large Bars 5/16" D, 5/15" W x 6" L | \$15.00/ea |

Jorvet Fixation Clamp

| | | |
|----------|---------------|------------|
| JOR371SH | Hinged, Small | \$93.00/ea |
| JOR371LH | Hinged, Large | \$96.00/ea |
| JOR371MH | Hinged Medium | \$94.00/ea |

Jorvet Dynamic External Fixator Parts Compatible with System

New design allows KE device to do limb lengthening on a dynamic basis of 1mm per day. KE pins and threaded rods are the same sizes as standard KE parts. External Fixator Kit contains:

- 2 Threaded rods
- 4 Sliding double KE clamps
- 8 Locking nuts
- 2 Raised-center face pins
- 2 Trocar-trocar pins

| | | |
|-----------|---------------------------------|-------------|
| JOR371DLC | Sliding Double KE Clamp. Large | \$108.00/ea |
| JOR371DMC | Sliding Double KE Clamp. Medium | \$96.00/ea |
| JOR371DMS | Sliding Single KE Clamp. Medium | \$46.50/ea |
| JOR371DSS | Sliding Single KE Clamp. Small | \$42.00/ea |
| JOR371KAL | KE Knurled Adjustor. Large. | \$28.50/ea |
| JOR371KAM | KE Knurled Adjustor. Medium. | \$25.50/ea |
| JOR371KAS | KE Knurled Adjustor. Small | \$25.50/ea |
| JOR371LL | KE Locking Nut. Large. | \$5.10/ea |
| JOR371LM | KE Locking Nut. Medium. | \$4.50/ea |
| JOR371LS | KE Locking Nut. Small. | \$4.50/ea |

Jorvet Medium Fixation Type I Kit

The pins of Type-I frame pass through both bone cortices. The clamps and connecting rods are assembled only on one side of the injured leg. Type-I Kit contains:

- 6 Single clamps
- 2 External fixation part thread pins
- 2 Double trocar smooth IM pins
- 1 Connecting rod

| | | |
|----------|-----------------------------------|-------------|
| JOR371KM | Medium. Pin, 1/8" dia. Rod, 8" L. | \$144.00/ea |
|----------|-----------------------------------|-------------|

Jorvet Mid-shaft Positive (Raised) Threaded External Fixation Pins

Positive or raised thread pins have threads extending above the smooth shaft on a portion of the pin. The positive threaded pins have a tougher pull-out resistance and are the external fixation pins used almost exclusively in human orthopedics. There are two choices of pin styles and three different sizes.

1. Threaded portion is in mid-shaft
2. Threaded portion is at the end of the pin

All pins are 316LVM implant quality stainless steel.

| | | |
|---------|---|------------|
| JOR371A | Small. Shaft 3/32" dia., Thread 1/8" dia., Thread Part 3/4" L, Total 4" L, Thread Pitch 0.9mm | \$18.00/ea |
| JOR371B | Medium. Shaft 1/8" dia., Thread 5/32" dia., Thread Part 11/4" L, Total 5" L, Thread Pitch 0.9mm | \$18.60/ea |
| JOR371C | Large. Shaft 5/32" dia., Thread 3/16" dia., Thread Part 11/2" L, Total 6" L, Thread Pitch 0.9mm | \$18.60/ea |

We do not stock all Orthopedic Products. Note that Jorvet/Jorgensen brand Products have a \$10 Dropship fee, as well as extra overnight fees.

Round Trocar

Stainless steel with 10 plastic disposable cannulae. 5. shaft.

| | | |
|--------|-----------|------------|
| JOR40P | 5. shaft. | \$94.00/ea |
|--------|-----------|------------|

Equine Trocar/Cannula

Suggested use for cecum puncture.

| | | |
|---------|--|-------------|
| JOR40EK | Very small 3mm dia. x 135mm (5.4") shaft | \$148.00/ea |
|---------|--|-------------|

Corkscrew Trocar with Plastic Stylet

This is the self-retaining bloot trocar used in chronic bloats. Make a small 3/4" incision in hide. Screw the trocar into position. After insertion, the rumen should be pulled up close to the peritoneum by placing a few wraps of gauze between the trocar plate and hide.

| | |
|--------|-----------|
| JOR40F | \$4.80/ea |
|--------|-----------|

Jorvet Pin Cutter

- For cutting intramedullary pins and customizing bone plates
- Stainless steel. 1470g. 48cm(19"L).
- Cuts up to 6.4mm (1/4") pins.
- Narrow jaws allow extra-close pin cutting

| | | |
|--------|------------------------|-------------|
| JOR220 | 19" L, Stainless Steel | \$295.00/ea |
|--------|------------------------|-------------|

IM Bone Pin Protective Tube

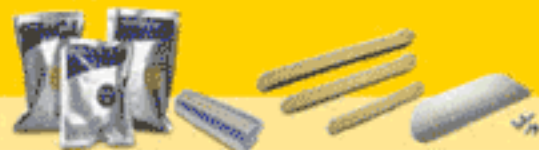

Stores Bone Pins in an aluminum autoclavable round tube with a screw-on cap.

| | | |
|---------|--|-------------|
| JOR250X | 320mm long x 30mm diameter | \$104.00/ea |
| JOR250Y | 225mm long x 30mm diameter for "K" wires | \$104.00/ea |

We do not stock all Orthopedic Products. Note that Jorvet/Jorgensen brand Products have a \$10 Dropship fee, as well as extra overnight fees.

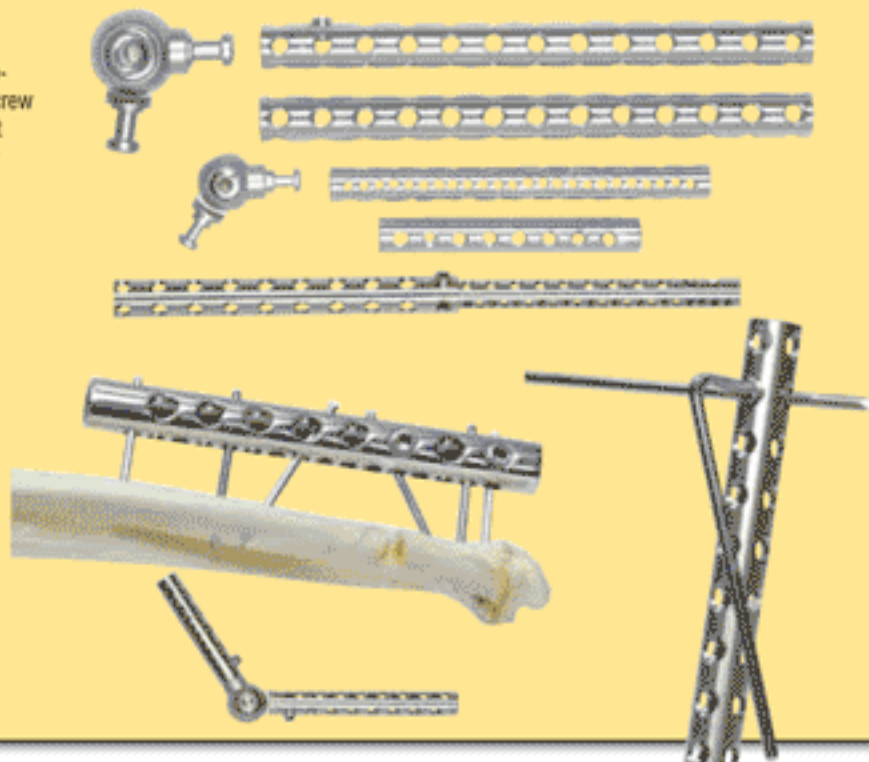

Fessa Tubular Fixation System & Cortical Nut

Fessa Tubular Fixator System

This system is widely used in Europe and offers several advantages over conventional fixator systems. The connecting tubes or rods use a simple hexhead set screw as the pin holding or clamping mechanism. The system is very strong for its light weight. The smaller tubes will accept the smallest of K-wire making it extremely useful in fracture management of small exotics and cats.

Jorvet Combination Drill Tap & Insert

| | | |
|----------|------------------|-------------|
| JOR1072G | for 2.7mm screws | \$132.00/ea |
| JOR1072H | for 3.5mm screw | \$132.00/ea |

Jorvet 2.0mm Drill Bit Hard

| | |
|----------|------------|
| JOR372BH | \$39.00/ea |
|----------|------------|

Jorvet Cortical Nut

Occasionally tapped threads strip and a larger screw is inappropriate. Lag screws are particularly vulnerable, as only one cortex is available for tapping. A cortical nut manufactured from implant grade nylon can give the screw purchase to allow normal tightening. The thread form is designed to grip the screw to minimize backing out. Sterile.

| | | |
|---------|-------|------------|
| JOR375A | 2.7mm | \$15.00/ea |
| JOR375B | 3.5mm | \$19.50/ea |
| JOR375C | 4.5mm | \$21.00/ea |

Jorvet Pin Removal Forceps

Pin removal is made easy with this forceps. Also useful for bending, holding, and cutting small pins and wires. Parallel action pliers may be used in tandem with bone plate bender for contouring smaller plates.

| | | |
|--------|--------------------------------|-------------|
| JOR442 | Stainless Steel, w/Wire Cutter | \$246.00/ea |
|--------|--------------------------------|-------------|

Jorvet Enclosed Bone Pin Cutter

Completely covers a bone pin up to 4mm (5/32"). Addresses the problems created by open end standard pin cutters. The enclosed shearing action of the pin cutter:

- Eliminates the potentially dangerous flying pin end.
- Removes sharp point that can irritate soft tissue or cut the patient or people coming into contact.
- Eliminates the slightly deformed pin end that could jam the KE clamps.

| | | |
|---------|-------------------|-------------|
| JOR220P | up to 4mm (5/32") | \$224.00/ea |
|---------|-------------------|-------------|

Pincutter with Breakdown Handle

Large pin cutter similar to JOR220 only handles detach to fit into smaller autoclaves. From 490mm (19 3/8") to 260mm (10 3/8"). Gold colored handles with tungsten carbide inserts.

| | |
|---------|-------------|
| JOR220Q | \$340.00/ea |
|---------|-------------|

Pearson Raised Thread Pins

Smooth-shank pins have poor resistance to pull out. Negative-thread pins are weak. Positive or raised thread pins offer strength and good pull-out resistance. The Pearson pin addresses three major problems associated with the use of threaded pins:

1. Threads are proud of the shank, eliminating the point of weakness found at the thread-shank interface of negative-thread pins.
2. Existing self-tapping pins impact bone debris at the bone pin interface, causing necrosis and microfractures. The Pearson pin has a unique flute form that collects bone debris as it is formed, minimizing damage to the bonepin interface.
3. Trocar tipped pins cause thermal necrosis if inserted without pre-drilling. Pre-drilling takes time and causes soft tissue damage. The Pearson pin incorporates a unique drill point designed for minimal "skate" on the bone surface. The pin pre-drills its own pilot hole. The Pearson pin is available in 1/8", 5/32", and 1/4" shanks, with either end-thread or mid-thread.

| | | |
|----------|----------------------------------|------------|
| JOR371HP | End-Thread Pin. 5/32" shank, 6"L | \$31.00/ea |

Sherman Self Taping Screws & Basic Plating Kit

Sherman Self Tap Screws, 3.5mm (9/64")

The 9/64" self-tapping screw has similar pull-out resistance to 3.5mm cortical screws. The main problem with this screw has been a lack of suitable bone plates. Our new range of 3.5mm round-hole plates considerably widens the scope of these self-tapping screws. Cruciate head. 6/pk.

| | | |
|---------|-----------------------------|------------|
| JOR406A | 3.5mm x10mm, 6pk, cruciate | \$33.00/pk |

| JOR406O | 3.5mm x 57mm, 6pk,cruciate | \$42.00/pk |

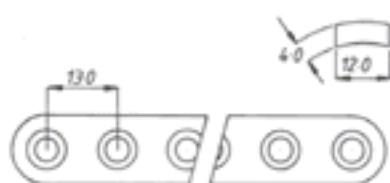

Round-Hole Plate 3.5mm Heavy-Duty

12mm W, 4mm thick heavy-duty plate is stronger than either the 3.5mm compression plate or our 3.5mm standard round-hole plate. Use of this plate makes 3.5mm cortical or 9/64" screws appropriate for the larger canine breeds.

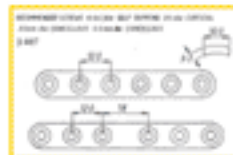

| | | | | | |

Compression Bone Plating Basic Kit

The object of compression is to provide primary bone healing. A special guide is used to position the pilot drill hole. The corresponding tap then cuts the thread path. As the cortical screws are tightened through the unique plate holes, they are forced away from the side of the hole toward the fracture site. Compression of both fragments is then achieved. Set includes instrumentation and an assortment of implants for plating and lag screw procedures.

Cortical screws now available with self-tapping threads. Sold in single packs. (Add the letter "S" after each code.)

Jorvet

Self-Tapping Screws. Self-Tapping screws save time and work extremely well in most circumstances especially in the proximal tibia for TPLO and TTO. Available in 2.0, 2.4, 2.7 and 3.5mm diameters.

3.5mm Compression Plate. Use with 3.5mm cortical or 3.5mm cancellous screws to produce fracture compression.

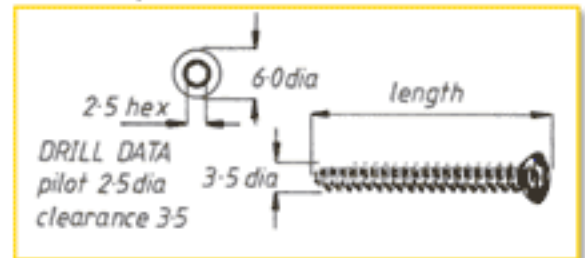

Jorvet Cortical Screws 3.5mm

This is the self-retaining bloot trocar used in chronic bloats. Make a small 3/4" incision in hide. Screw the trocar into position. After insertion, the rumen should be pulled up close to the peritoneum by placing a few wraps of gauze between the trocar plate and hide.

Bone Plates

Jorvet "T"-Plate

Available for 3.5, 2.7, and 2.0mm screws, either cortical or self-tapping. "T" plates are used almost exclusively for the repair of fractures of the distal radius. In addition, they also may be used in a partial carpal arthrodesis.

| | | |
|---------|----------------------------------|------------|
| JOR428A | 2mm, 4 hole, 18mm L | \$34.50/ea |
| JOR428B | 2.0mm, 4-hole. Left angle, 18mm | \$27.00/ea |
| JOR428C | 2.0mm, 4-hole. Right Angle. 18mm | \$27.00/ea |
| JOR428D | 2.7mm, 5-hole, 32mm | \$27.00/ea |
| JOR428E | 2.7mm, 5 hole Left Angled, 32mm | \$28.50/ea |
| JOR428F | 5 Hole Right Angle, 32mm | \$28.50/ea |
| JOR428G | 3.5mm, 6 hole, 55mm | \$49.00/ea |

Hybrid "T" Plates

The problem with many distal radius fractures is the distal segment is so small that it is difficult to place sufficient screws. A "T" plate can help but often the head of the plate is too wide. Hybrid "T" plates can provide a solution.

- Screw holes in the head are smaller and closer together than those in the shaft
- Plate will accept same size screw in the head as in the shaft, but with reduced screw angulations

| | | |
|---------|--|------------|
| JOR829A | 1.5 or 2mm head 2mm shaft 32mm length of shaft | \$86.00/ea |
| JOR829 | 2.7 or 3.5mm head 3.5mm shaft 62mm length of shaft | \$92.00/ea |

Pantarsal Arthrodesis Plate.

The surgical immobilization of the hock joint can be difficult. A medially applied plate appears to best neutralize the effect of the long lever arm created by arthrodesis. Data from the manufacture of 50 custom plates has enabled Jorvet to create a pantarsal plate which fits most medium and large dogs. The proximal portion is standard 3.5mm DCP, broadening over the vulnerable calcaneal region, and finally tapering out over the metatarsals as a 2.7mm DCP.

| | | |
|---------|-------------------|-------------|
| JOR433A | left, 2.7 / 3.5mm | \$165.00/ea |
|---------|-------------------|-------------|

Pantarsal Arthrodesis Plate

For small dogs. Overall length 100mm. 2.7mm/2.0mm screws.

| | | |
|----------|-------|-------------|
| JOR433BL | Left | \$150.00/ea |
| JOR433BR | Right | \$150.00/ea |

Our pantarsal plate is 135° with the middle screw placed in the center of the talus or the center of motion of the joint. This is not a one size fits all, but the only alternative is a custom plate. For cats. Overall length 78mm. 120° angle, better to match feline anatomy especially useful for severe shearing injuries. 2.7mm/2.0mm screw

| | | |
|----------|---------------------------|-------------|
| JOR433CL | Left, 2.0mm, 2.7mm | \$150.00/ea |
| JOR433CR | Right, Left, 2.0mm, 2.7mm | \$150.00/ea |
| JOR433 | Right, 2.7 / 3.5mm | \$158.00/ea |

Intertarsal Arthrodesis Compression Plate

is slightly wider and the holes are positioned to cover the metatarsal more completely. Middle hole picks up the central tarsal bone and T4. 2.0mm/2.7mm (sheltie size). (not pictured) 55mm.

| | | |
|---------|-------------------------------------|-------------|
| JOR428Z | Intertarsal Arthrodesis PL, 2/2.7mm | \$117.00/ea |
|---------|-------------------------------------|-------------|

Jorvet Distal Femur Plate

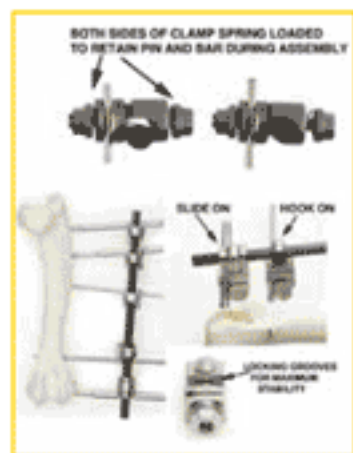

Fracture repair in the supracondylar femur region can be challenging, particularly in medium to large dogs. Forces acting on this region are complex and must be neutralized. In addition, the bone shape makes the use of standard plates virtually impossible. Jorvet supracondylar plates are designed to fit the distal femur with a minimum of further contouring. These plates are curved on the distal end to follow the natural bone curvature. The plate thickness tapers distally from 1.5mm to 1mm on 2mm plates. In cats and small dogs supracondylar fractures are usually simple and transverse, hence the 2mm plates are relatively lightweight. Medium and larger dogs typically have more complex fractures at this site with multiple fragments, requiring much more plate support. Our 2.7 and 3.5 plate's shape and strength reflect this. Apply the plate when possible to the lateral surface of the femur.

| | | |
|---------|--|-------------|
| JOR428P | 2.0mm Supracondylar Plate, Left, 50mm L | \$93.00/ea |
| JOR428Q | 2.0mm Supracondylar Plate, Right, 50mm L | \$93.00/ea |
| JOR428R | 2.7mm Supracondylar Plate, Right, 70mm | \$139.00/ea |
| JOR428S | 2.7mm Supracondylar Plate, Left, 70mm | \$139.00/ea |
| JOR428T | 3.5mm Supracondylar Plate, Right, 170mm | \$226.00/ea |
| JOR428U | 3.5mm Supracondylar Plate, Left, 170mm | \$220.00/ea |

Supra Condylar Osteotomy Plates (SCOP)

Osteotomy of the distal femur is now a recognized technique for the management of patella luxation in medium and larger dogs with added femoral abnormality. The use of straight plates is difficult due to hole positioning and plate contouring. These supra condylar plates are computer designed to fit this area. Pre-contoured to minimize intra operative adjustments. For complex supra condylar fractures use our large supra condylar plates or distal femoral plates (see above).

Bone Plates & Gauzges

Tibial Wedge Osteotomy Plate

These "T" plates are designed with 3 round holes in the top of the "T" and compression holes along the length of the shaft.

| | | |
|---------|------------------------------------|-------------|
| JOR822A | 6-holes. 39mm L. Uses 2.7mm screws | \$75.00/ea |
| JOR822B | 6-holes. 55mm L. Uses 3.5mm screws | \$103.00/ea |
| JOR822C | 7-holes. 79mm L. Uses 3.5mm screws | \$103.00/ea |
| JOR822D | 6-holes. 26mm L. Uses 2.0mm screws | \$35.00/ea |

Standard TPLO Plate

JorVet version of the original TPLO plates.

- Made of 316LVM implant grade stainless steel
- Milled, not cast The JorVet plate has been modified in the head region to make contouring easy while retaining the stiffness of 316LVM elsewhere for stability and rapid healing. The lower profile makes closure easier.

| | | |
|---------|--------------|------------|
| JOR438 | 3.5mm, Left | \$87.00/ea |

Self-Tap Plating Case w 2.7/3.5mm Screw Rack

Stainless Steel Case. 2.7/3.5mm screw rack

| | |
|---------|-------------|
| JOR430D | \$325.00/ea |
|---------|-------------|

Biological Healing Plates

These plates are designed to bridge a section of shattered long bone. It effectively acts as a buttress plate. No attempt is made to reconstruct. The fracture site is not disturbed to minimize de-vitalization and contamination. The plate maintains the length and permits weight bearing. Use of these plates avoids leaving empty screw holes over the fracture site. Empty holes significantly weaken the construct. Use when proximal and distal sections are intact and the body of the femur are un-reconstructable. All plates have round holes as there is no need for compression.

| | | |
|---------|---|------------|
| JOR433D | 2.0mm 8 hole 65mm long - 6mm wide | \$51.00/ea |
| JOR433E | 2.7mm 6 hole 68mm long - 7mm wide | \$57.50/ea |
| JOR433F | 2.7mm 7 hole 67mm long - 7mm wide | \$57.50/ea |

Suture Screw/Anchor **JorVet**

Suture anchors have many uses, particularly reattachment of a ligament to bone. A screw is placed into bone and the head of the screw has an eyelet for suture placement. The screws are self-tapping after placement of a smaller pilot hole. A special driver is used to insert the screw. Suggested uses include:

- Coxo femoral luxations
- Shearing injuries
- Collateral ligament repairs
- Anchor for CCL lateral sutures

| | | |
|---------|--|------------|
| JOR836 | Cortical Screw, 2.0mm, 10mm L, 1.0mm eyelet dia., 1.5mm pilot hole | \$30.50/ea |

Osteometer for TTO **Jorvet**

JOR436A \$135.00/ea

Wedge Osteotomy Gauge Set **Jorvet**

These 14 wedge gauges (8-22°) simplify marking and cutting of an appropriate wedge. Parallel marks on each gauge allow the surgeon to mark and cut a wedge having equal proximal and distal borders. Borders the same length result in a better closure both functionally and cosmetically.

JOR822S 14 Wedge Gauges (8-22°) \$120.00/ea

Wedge Angle Finder Overlay **Jorvet**

A simple acetate overlay helps calculate the tibial plateau angle from which you can easily calculate the size of the wedge to remove. Included lines indicate the normal tibial plateau angle, and a 5° line, regarded as the most appropriate post-op angle. Also on the acetate are actual size outlines of range of TPLO plates to help you select the most appropriate plate.

JOR822X Call For Pricing

Triple Osteotomy Plate **Jorvet**

6-hole plate with 2 holes allowing compression designed specifically for triple osteotomy procedures. For use with 3.5mm x 4.0mm screws. Easily bend plate into desired angle.

| | | |
|---------|---|------------|
| JOR216 | 4.5cm L. Flat. | \$76.00/ea |
| JOR216A | TPO Large Plate, pre-bent, 30° - left side, length 48mm | \$85.00/ea |
| JOR216B | TPO Large Plate, pre-bent 30° - right side, 48mm | \$85.00/ea |
| JOR216C | TPO Small Plate, prebent 30° - left side, 35mm | \$85.00/ea |
| JOR216D | TPO small plate, prebent 30° - right side, 35mm | \$85.00/ea |

Slocum/TPLO Rotation Gauge **Jorvet**

Eleven rotation gauges simplify the TPLO rotation procedure. Correct millimeter measurement readings from the table assists selecting an appropriate gauge. Then mark the bone using the JOR822t scriber or an osteotome. No more need to work with cumbersome rulers. These 5-15mm gauges are on a handy -key ring.

JOR822F rotation gauge \$101.00/ea

Jorvet Cruciate Staples **Jorvet**

Spikes under the head trap the autografts. Barbs on the legs prevent pull out. Cruciate staples provide very secure fixation of fascial autografts behind the femoral condyle. Any mallet can be used to drive the staple into the bone.

JOR838 Staple Introducer. Jaws of staple introducer engage grooves in head of staple giving a very firm grip allowing accurate staple placement. \$210.00/ea

JOR838K Includes Introducer Plus 8 Staples \$750.00/ea

JOR835M Stainless Steel Case Only (for staple kit) \$234.00/ea

We do not stock all Orthopedic Products. Note that Jorvet/Jorgensen brand Products have a \$10 Dropship fee, as well as extra overnight fees.

Epoxy ESF Putty & Technovit

Epoxy ESF Putty **Jorvet**

This putty offers a quick and simple alternative to standard bar and clamp systems. The putty, once mixed, stiffens in five minutes and within one hour is fully cured. The putty comes in a round protective resealable 3/4" dia. tube. The amount required can be clipped off just like cookie dough. It has a pre-measured catalyst that is activated upon kneading or mixing.

Features:

- No liquid and powder mixing required
- No odor
- Immediately very moldable to shape
- Inexpensive compared to clamps/bars
- Applications:
- Different size pin placed at varying angles
- ESF in very small animals (i.e., guinea pig)
- Fractures of the mandible
- Protecting sharp ends of cut pins
- Joining non-standard pins and bars

| | | |
|---------|------------|------------|
| JOR751 | 55g, Tube | \$7.50/ea |
| JOR751A | 110g, Tube | \$16.50/ea |

Protection of Cut Ends of Pins

Stabilization of Opening Wedge Osteotomy

Stabilization of Bilateral Mandibular Fracture

Stabilization of Medial Shearing Injury Hock

Fractured Tibia in a Cat

Tarsal-Metatarsal Arthrodesis

Fractured Tibia in a Guinea Pig

Bone cement is a sterile form of Polymethyl Methacrylate (PMMA) originally formulated for use in hip replacement. It is available with or without antibiotics and a range of viscosities. In addition to hip replacement bone cement, veterinarians have found a wide range of other applications. There are two types that offer different viscosities for different applications. All consist of liquid/powder portions that are mixed together. Now includes sterile mixing bowls with spatula. This makes the process much easier with better odor control.

Bone Cement Type 1: Medium Viscosity

Type 1: Medium Viscosity forms a digitally (finger) malleable putty.

Applications:

- Cement the acetabular component of a hip replacement
- Adjunct to acetabular fracture with pins and screws
- Spinal fractures
- Management of cervical wobblers by distraction fusion
- Filling dead space in equine tooth extractions
- Manufacturing of antibiotic impregnated beads (AIPMMA)
- Choose to add one's choice of suitable antibiotic or pre-added gentamycin, creating a slow release focal antibiotic. Especially useful in the management of refractory rabbit abscesses. Instructions included.

| | | |
|---------|---------------------------|-------------|
| JOR912 | 40gm | \$114.00/ea |
| JOR912G | 40gm with 1gm Gentamycin. | \$110.00/ea |

Bone Cement Type II: Low Viscosity **Jorvet**

When mixed, is suitable for use through a syringe with a large catheter tip. Applications: Cementing the femoral prosthesis

| | | |
|---------|-----------------------------|-------------|
| JOR913 | 40gm | \$108.00/ea |
| JOR913G | 40gm with 1gm of Gentamycin | \$113.00/ea |

Jorvet Technovit Dual Pouch

Technovit: A powder and liquid that when mixed together form a hard acrylic. Methyl methacrylate compound is getting widespread use in veterinary medicine in a number of different applications. These forms require smaller, more specialized packaging than the standard hoof applications. Two relatively new uses include:

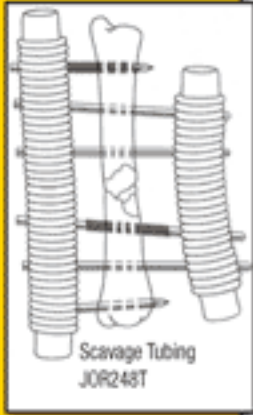

1. Acrylic in place of a connecting bar in the use of an external fixator. The acrylic can be shaped to follow body contours. An additional requirement is a tube-shaped container for holding the acrylic's shape while it cures.
2. A second use is in mixing an antibiotic powder together with the acrylic powder portion. Then the liquid portion is mixed in. The resulting mixture is shaped into very small beads that can be strung together like a string of pearls. The beads can be inserted into certain types of refractory wounds or abscesses. The bead acts as a time-release capsule for the antibiotic. The antibiotic leeches out directly into the infection site. The acrylic remains inert and is removed at a later date. The product is packaged in a heavy-duty 3ml sealed bag. The powder and liquid are separated by a plastic removable divider.

| | | |

Orthopedic Products

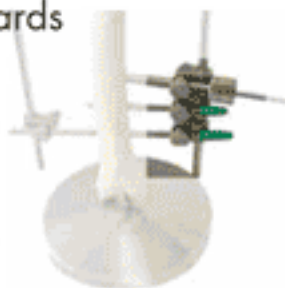

Fixation Supplies

Jorvet Surgical Instrument Guards

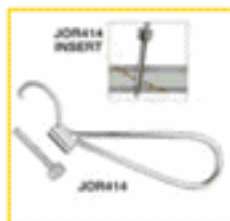

Jorvet instrument guards are designed to protect valuable instrument tips from damage during sterilization and handling. Sharp and pointed tips can break through sterilization pouches and injure the surgeon. 50/pkg.

- Non-sterile, but can be autoclaved or gas sterilized
- Medical-grade plastic (vented)
- Guards can also work as covers over exposed bone pins.

Jorvet

| | | |
|---------|------------------------------------|------------|
| JOR926A | White, 1/16" x 3/4" (1.6mm x 19mm) | \$13.80/ea |
| JOR926B | Blue, 5/64" x 3/4" (2.0mm x 19mm) | \$13.50/ea |
| JOR926C | Green, 7/64" x 3/4" (2.8mm x 19mm) | \$14.10/ea |
| JOR926D | Red, 1/8" x 1" (3.2mm x 25mm) | \$14.10/ea |

Drill Guide and Insert

| | | |
|---------|--|-------------|
| JOR414 | Small. 3.5mm i.d. For 3.5mm drill bit. | \$124.00/ea |
| JOR414E | Large. 6.5mm i.d. For use with JOR414g insert sleeve and 4.5mm screw system. | \$99.00/ea |

Jorvet Soft Tissue Protection Sleeve

Rotating pins, drills and taps will "pick up" soft tissue, skin, muscle, nerves and blood vessels, causing serious damage. Use of tissue protection sleeves minimizes such damage. The teeth at the top of the guide locate on the bone while the stainless steel tube provides a barrier between soft tissue and implant equipment.

| | | |
|---------|-------------------------|-------------|
| JOR415A | for drill/taps to 2.0mm | \$102.00/ea |
| JOR415B | for drill/taps to 2.7mm | \$98.00/ea |
| JOR415C | for drill/taps to 3.5mm | \$99.00/ea |
| JOR415D | for drill/taps to 4.5mm | \$100.00/ea |

Jorvet Countersinks

This instrument contours the top of the screw hole to fit the screwhead. It is used for lag screw procedures and for the reattachment of small bone fragments.

| | | |
|----------|---|-------------|
| JOR372W | Small Countersink, 2.7/3.5 and 4.0mm. Screw Heads with T-handle | \$82.00/ea |

| JOR409LH | Large countersink, T handle, 4.5-6.5mm | \$86.50/ea |

Quick Release Tap Handle

Quick Release Tap Handle Synthes Fit. Fits all taps 2.7mm, 3.5mm, 4.0mm, and 4.5mm.

| | | |
|--------|---------------|-------------|
| JOR413 | 2.7mm - 4.5mm | \$238.00/ea |
|--------|---------------|-------------|

Small Pin/Tap Chuck

| | | |
|---------|------------------------|-------------|
| JOR214S | for 2mm taps 4" length | \$111.00/ea |
|---------|------------------------|-------------|

Jorvet KE Plus clamp

Kirschner-Ehmer (KE) external fixation is a versatile system that has stood the test of time. Recent recommendations include the use of positive or raised profile pins. Traditional or standard KE clamps are difficult to use with positive profile pins. Also, standard KE clamps can only be used with one size pin. The new KE Plus Clamp can be used with positive profile and various sized pins.

| | | |
|----------|---|------------|
| JOR371AD | Small, Largest Thread/Shank 3.6mm (9/64") Smallest Thread/Shank 0.9mm (1/16") | \$30.00/ea |
| JOR371BD | Medium, Largest Thread/Shank 4.8mm (3/16") Smallest Thread/Shank 2.4mm (7/64") | \$33.00/ea |
| JOR371CD | Large, Largest Thread/Shank 6.5mm (1/4") Smallest Thread/Shank 3.0mm (1/8") | \$33.00/ea |

Jorvet Split KE Clamp

The reduction and stabilization of complicated fractures is a time consuming procedure. If additional clamps and pins are found to be needed during surgery the whole frame must be disassembled. The split clamp allows the addition of clamps at any time during the surgery. A centrally placed washer increases holding power.

| | | |
|-----------|--------|------------|
| JOR371SCL | Large | \$60.00/ea |
| JOR371SCM | Medium | \$60.00/ea |
| JOR371SCS | Small | \$60.00/ea |

Jorvet KE Tissue Protector

Soft tissue protection is extremely important during the insertion of KE bone pins. Without soft tissue protection there is a tendency for soft tissue structures such as muscle, blood vessels, and nerves to be wrapped around the pin. This tendency is greatly increased with the use of raised threaded pins or drill bits. Other drill guides and tissue protectors will work when placing free standing pins. However, when placing pins in the middle of a KE frame, they can not be used.

| | | |
|----------|-----|------------|
| JOR371TP | 7"L | \$85.00/ea |
|----------|-----|------------|

Insert Sleeve (for Drill Guide)

| | | |
|----------|--|-------------|

Orthopedic Products

Orthopedic Drills & Accessories

Makita Orthopedic Power Drill Set

A power driver with features making it the best on the market. The power source is a high quality cordless reversible Makita driver drill.

- Variable-speed 0-600 RPM vs. Standard model which has 100 or 200 RPM settings.
- No skating effect at start, when drill may skid or jump
- 31/2" cannulated extension with 1/4" Jacobs chuck
- Extension and chuck can be autoclaved separately. The drill can be covered with an autoclaved shroud (order separately).

JOR238 81/4"L. 2.2 lbs. \$330.00/ea

Makita Orthopedic Drill

Variable-speed 0-600 RPM vs. Standard model which has 100 or 200 RPM settings. Do not autoclave.

JOR238PD Drill Only \$180.00/ea

Jorvet Drill Shroud

Autoclavable Drill Shroud with Velcro closure.

JOR238S \$13.35/ea/ea

Disposable Drill Shroud fits any size drill. Special material has impervious inner layer. Provides full fluid repellency; top side has adhesive strip.

Not Pictured

JOR238SD Disposable, Sterile. 5/pk. \$11.10/pk

Jorvet Small Jacobs Chuck

Lightweight blue anodized aluminum. 120g. 14cm.

- Much finer, more delicate, and less than half the weight of standard chucks
- Ideal for small dogs and cats when using "K" wires and small pins up to 5/32". Handle not slotted as JOR214L

JOR214 120g. 14cm \$188.00/dz

Ortho Chuck Extension Only

JOR238D1 Extension Only \$60.00/ea

Jorvet Jacobs Pin Chuck

Unique design on the standard instrument for introducing bone pins. An open slot cut into the handle permits visibility of the pin resting in the chuck, saving time by allowing the surgeon to check pin depth without having to remove the chuck. The stainless steel Jacob's accepts K-wires as small as 0.035" and pins as large as 1/4". The handle and extension piece are lightweight, blue anodized aluminum alloy. Key and extension piece included.

JOR214L Jacobs Chuck, 10 1/2"L. \$189.00/ea

JOR214LD1 Short chuck & key \$112.00/ea

Power Drill Adapter, With Chuck

JOR238D1 \$164.00/ea

Jorvet Orthopedic Punched Hole Gauge

For pre-drilling positive profile pins. Pre-drill with a bit slightly smaller than the pin shank.

JOR372M \$36.00/ea

Bone Screw and Drill Bit Gauge

Bone Screw and Drill Bit Gauge. (Metric)

JOR372P (Metric) \$27.00/ea

| JOR238SB30 | Radius 30mm | \$445.00/ea |

Cast Cutters and Cruciate Repair

Cast Cutter & Accessories **JorVet**

Designed with multiple attachments that allow for a wide range of orthopedic procedures, as well as cast removal. The oscillating head permits delicate work or more aggressive cutting as needed.

Suggested procedures:

- Femoral head excision
- Triple Pelvic Osteotomy TPO
- Amputations
- Trochlear wedge osteotomy
- Necropsy
- Cast removal
- Tibial wedge osteotomy
- Saw specifications:
- Oscillations: 14,500/min.
- 9.6V, includes 110V charger and battery

| JOR412CS | Sleeve for JOR412C | \$90.00/ea |

Depth Gauge

Accurate measurement of hole depth is essential to select the appropriate screw size. A range of gauges is available for the various screw sizes. Hole depth is read from the instrument. Remember to add plate thickness if necessary.

| | | |
|---------|-------------------------------------|-------------|
| JOR410 | for 2.7-4.0mm screws. Range 6-40mm. | \$200.00/ea |
| JOR410A | for 2.0mm screws. Range 6-20mm. | \$202.00/ea |

Fixation Pins Positive Threaded Portion at End of Pin

Positive or raised thread pins have threads extending above the smooth shaft on a portion of the pin. The positive threaded pins have a tougher pull-out resistance and are the external fixation pins used almost exclusively in human orthopedics. There are two choices of pin styles and three different sizes.

1. Threaded portion is in mid-shaft
2. Threaded portion is at the end of the pin

All pins are 316LVM implant quality stainless steel.

| | | |
|---------|--|------------|
| JOR371F | Small. Shaft 3/32" dia., Thread 1/8" dia., Thread Pitch 1" L, Total 4" L, Thread Pitch 0.9mm | \$13.50/ea |

Jorvet Goniometer Plastic 360

The goniometer can be used for the calculation of tibial plateau angles, wedge resections, angles of anteversion plus others. It also can be used to measure pre- and post-op range of motion to evaluate post-op physiotherapy. White background assures ease of seeing number on any color dog.

JOR752P Medium for dogs over 60lbs. 6" (15 cm). \$18.00/ea

Jorvet Goniometer

Canine Rehab Goniometer 5m

| | | |
|---------|----------------------------|------------|
| JOR752M | Small for dogs under 16lbs | \$20.00/ea |
| JOR752 | Large | \$99.00/ea |

Adjustable Drill Guide Jorvet

Designed to ensure accurate positioning of drill holes prior to inserting screws or prostheses. The pointed end is placed at the desired destination for the drill bit. The body of the device is tightened at the point of entry. Device includes 3 drill sleeves: 3.5mm, 2.5mm, and 2.0mm.

| | | |
|----------|---|-------------|
| JOR414H | 3.5mm, 2.5mm and 2.0mm sleeves. | \$260.00/ea |
| JOR414HL | 4.5mm sleeve. | \$191.00/ea |
| JOR414HX | for use with JOR414HL 5.5mm sleeve (equine) 13cm length spread. | \$68.00/ea |

Load/Neutral Drill Guide

To exert compression at a fracture site, the pilot bit must be positioned precisely in the slot in the compression plate. The load/neutral drill guide has two sleeves, one for compression (load) and one where no compression is exerted (neutral). There is one combined guide for each screw size.

| | | |
|---------|--|-------------|
| JOR411 | for 2.4mm plate and 1.8mm pilot hole bit. | \$270.00/ea |
| JOR411B | for 2.7mm plates. Uses 2.0mm pilot hole drill bit. | \$336.00/ea |
| JOR411C | for 3.5mm plates. Uses 2.5mm pilot hole drill bit. | \$330.00/ea |
| JOR411D | for 4.5mm plates. Uses 3.2mm pilot hole drill bit | \$330.00/ea |

Jorvet CCL Lateral Suture System Double Swaged-On Line and Needle.

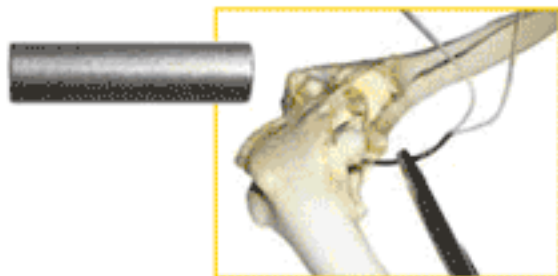

Some CCL deficient patients benefit from the use of double sutures. This is particularly true of very large dogs and 100 lb line. Passing a second needle behind the fabella risks damaging the first line and the peri-fabellar structures which ultimately will hold the nylon sutures. Double line, Swaged-on sutures allow the placement of two lines with one pass of the needle. Available as single sterile packs with or without crimps. The double line is supplied Swaged on as a loop and will, therefore, be of interest to those surgeons using the self-locking McKee/Miller knot (VCOI 1999/12:78-80)

Jorvet Double Line and Needle

| Without crimp tube | | | |
|--------------------|---|--|-----------|
| JOR710KD | 500mm x 2 Line. 50 lb. / X-Small Needle | | \$9.00/ea |
| JOR710MD | 800mm x 2 Line. 80 lb./Small Needle | | \$9.00/ea |
| JOR710PD | 800mm x 2 Line. 100 lb./Medium Needle | | \$8.10/ea |

Jorvet Double Line, Needle and Crimps

| | | |
|----------|--|------------|
| JOR710KE | 500mm x 2 Line. 50 lb. / X-Small Needle, Plus 10mm Crimps. | \$19.50/ea |

| JOR710ME | 800mm x 2 Line. 80 lb. / Small Needle, Plus 12mm Crimps. | \$20.25/ea |

Jorvet Mason Nylon Line

Mason nylon line 100yd spools.

| | | |
|---------|---------------|------------|
| JOR714 | 20lb, 100 yds | \$28.50/ea |
| JOR714A | 40lb | \$42.00/ea |
| JOR714B | 60lb | \$63.00/ea |
| JOR714C | 80lb | \$75.00/ea |
| JOR714D | 100lb | \$88.00/ea |

Jorvet Cruciate Suture Needle

Cruciate Suture Needle. Designed for use with heavy nylon in the lateral suture repair method for cranial cruciate ruptures. Needles are specially curved along with a heavier body, making passage around the femur/fabella area much easier. Stainless steel.

| | | |
|----------|-------------|-------------|
| JOR710XA | Small, 6/pk | \$264.00/ea |
|----------|-------------|-------------|

Jorvet Cruciate Suture Needle

Cruciate Suture Needle. Designed for use with heavy nylon in the lateral suture repair method for cranial cruciate ruptures. Needles are specially curved along with a heavier body, making passage around the femur/fabella area much easier. Stainless steel.

| | | |
|----------|--------------------------|-------------|
| JOR710W | X-Small, 15mm dia. 6/pk. | \$8.10/pk |
| JOR710XA | Small, 6/pk | \$264.00/ea |
| JOR710Y | Medium, 6/pk | \$8.70/pk |
| JOR710Z | Large, 6/pk | \$8.70/pk |

Jorvet Meniscus Probe

Visualization of the caudal horns of the meniscus can be a challenge. Often the process of exposing the caudal horn can result in distortions. A normal meniscus can look damaged or a "bucket handle" tear can sit back and look normal. It is helpful to gently probe the meniscus to establish its true condition. Dimensions refer to length of tip. Use 1mm in dogs <30kg and for dogs >30kg use a 2mm.

| | | |
|----------|------------------------|------------|
| JOR710N | 2mm (nerve hook) Probe | \$23.50/ea |
| JOR710NA | 1mm Probe | \$21.00/ea |

Mason Line Crimp Tubes

These crimp tubes are specifically designed to be compatible with Mason brand of nylon line also used in the Securos® brand crimp tube range. All stainless implants grade with polished seamless tubing. Mason line swaged on various special sterile cruciate needles.

| | | |
|----------|----------------------|---------------|
| JOR1070 | 40# crimp tube 15pk | \$60.00/ea/pk |
| JOR1070A | 80# crimp tube 15pk | \$60.00/pk |
| JOR1070B | 100# crimp tube 15pk | \$60.00/pk |

Mason line swaged on various special sterile cruciate needles.

| | | |
|-----------|--|------------|
| JOR1070KA | 40lb nylon with medium cruciate needle | \$57.00/pk |
| JOR1070KB | 40lb double nylon line with medium cruciate needle | \$57.00/pk |
| JOR1070KC | 40lb double nylon line with small cruciate needle | \$57.00/pk |
| JOR1070M | 80lb nylon with large cruciate needle | \$57.00/pk |
| JOR1070MB | 80lb nylon with small cruciate needle | \$57.00/pk |
| JOR1070MD | 80lb double nylon line with medium needle | \$57.00/pk |
| JOR1070ME | 80lb double nylon line with large needle | \$57.00/pk |
| JOR1070MF | 80lb double nylon line with small needle | \$57.00/pk |

Jorvet CCL Suture System Starter Kit

- JOR710SA • Crimping forceps \$240.00/ea
 • 2 pkg. of each (3) different sized cruciate needles swaged onto nylon line and crimp tubes. Sterile. (6 total) (implants for 6 procedures)
 • Procedure instructions on CD-ROM
- JOR710S Cruciate Repair Starter Kit \$395.00/ea

Jorvet Tensioning Clamp

These small stainless steel clamps feature knurled knobs that lock onto the nylon suture. After that, they are attached to a standard Gelpi or Weillaner retractor and tension applied to the proper level. No need to throw away crimp tubes or purchase expensive tensioning instruments.

- JOR710R Pair \$54.00/pr

Heavy-Duty Needle Driver

Tungsten carbide jaws. Especially designed to grip cruciate needle and ease passage around tough fabella tissue. 7"L.

- JOR710Q 7"L \$68.00/ea

Cruciate Repair CD/Rom

Complete procedure available at nominal cost.

- JOR710V FREE with CCL Suture System Starter Kit

Compound Action Crimper

- JOR710X 7 1/2" \$8.70/pk

Jorvet LigaFiba Braided Polyethylene Fiber (Material Only)

Monofilament nylon has been the standard suture material for the lateral suture technique for repair of CCL damage. Newer materials are made of braided polyethylene fiber and offer several advantages over nylon.

- Significantly stronger (up to 15 times)
- Better flex fatigue resistance and abrasion
- Knots tie easier This makes LigaFiba suture material an ideal material for ligament and tendon repair. Its available packages are:
- LigaFiba suture material only
- Provided with attached cruciate needle and straight needle
- LigaFiba with toggle buttons in bone tunnel procedures in both cruciate and hip repairs

| | | |
|---------|-----------------------------|------------|
| JOR444A | 150 lb test X 500mm length | \$15.00/ea |
| JOR444B | 250lb. Test x 600mm sterile | \$17.50/ea |
| JOR444C | 500 lb test X 600mm length | \$20.00/ea |

Jorvet LigaFiba Lateral Suture

LigaFiba lateral suture with swaged on needles one end has attached cruciate needle for fabella ligament passage. The other end a straight needle for passing through tibial crest. The LigaFiba ties easily but also can be crimped (require JorVet fiber crimper instrument JOR710x) and JorVet fiber crimp JOR448a. Sterile package.

- JOR444D 20lb w/needles \$31.50/ea
 JOR444E 500lb w/needles \$31.50/ea

Jorvet LigaFiba ISO Toggle Suture

A newer technique for extra capsular repair of CCL damage uses a bone tunnel between iso metric point on the femur. A set of small toggles are used instead of passage through the fabella ligament. The LigaFiba is passed through the bone tunnel with an attached straight needle. Step by step guidelines available The LigaFiba can be readily tied by the toggle button. Step by step guidelines available. The LigaFiba can be readily tied by the toggle button

- JOR444F 250 lb test (dogs up to 50lbs) Bone tunnel use JOR372cx, 2.5mm drill \$88.00/ea

Graft Passer with Small Eye

Instrument with handle and thin 3cm radius curved tip with small eye. The small eye will hold the large nylon suture used in cruciate repair. The curved end is used to access tight areas (i.e., between the fabella and femoral condyle).

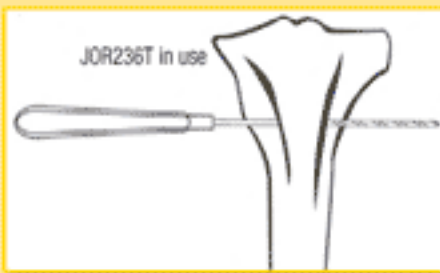

- JOR236SE 6"L., Stainless Steel \$95.00/ea

Bone Tunnel Borer

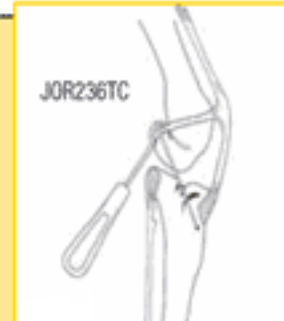

The borer is a small handle with an attached drill bit. This hand instrument is used to create a bone tunnel quickly and easily without having to set up a complete orthopedic drill (i.e., CCL repair through tibial tuberosity). Stainless steel. 18cm.

- JOR236T 2.7mm \$81.00/ea
 JOR236TC w/Counter Sink \$102.00/ea

| | | |
|---------|----------------------------------|-------------|
| JOR225E | Double action, 3mm bite, 8 1/2". | \$190.00/ea |
|---------|----------------------------------|-------------|

Jorvet Stifle Lever

Jorvet

Examination and management of meniscal injuries is made extremely difficult by the limited access to the medial meniscus during routine approaches. Exposure of the medial meniscus is typically achieved by either use of a stifle distractor or by a Hohman retractor. Hohman retractors are not designed for levering against articular cartilage in that the blade does not "fit" the trochlea. The stifle lever is designed to substitute the Hohman. The caudal surface of the stifle lever is contoured to fit the trochlea of large dogs. The load is dissipated over a large area minimizing trauma. The ring style handle is convenient for retraction by the surgeon using the thumb. The tip atraumatically hooks behind the caudal aspect of the tibial plateau.

| | | |
|---------|--------------------|------------|
| JOR235S | 9" (225mm) length. | \$61.00/ea |
|---------|--------------------|------------|

Jorvet Curved Graft Passer

Used in anterior cruciate repairs such as the "over the top procedure." Using the Graft Passer lessens the risk of damage to joint surfaces and ancillary structures. Stainless steel.

| | | |
|----------|---------------------------|-------------|
| JOR236XS | X-Small, 2.0cm dia. head. | \$106.00/ea |
|----------|---------------------------|-------------|

Jorvet Graft Passer with Small Eye

Instrument with handle and thin 3cm radius curved tip with small eye. The small eye will hold the large nylon suture used in cruciate repair. The curved end is used to access tight areas (i.e., between the fabella and femoral condyle).

| | | |
|----------|-----------------------|------------|
| JOR236SE | 6"L., Stainless Steel | \$95.00/ea |
|----------|-----------------------|------------|

Micro Tooth Meniscus Clamp

Management of meniscal injuries is very important. In medium and small dogs space limits access. The toothed minimeniscus forceps are designed to grasp damaged meniscus tissue to facilitate removal using micro blades.

| | | |
|---------|--|------------|
| JOR236H | The toothed minimeniscus forceps are designed to grasp damaged meniscus tissue to facilitate removal using micro blades. | \$36.00/ea |
|---------|--|------------|

Jorvet Meniscus Knife

A specially-designed knife for use in the limited space of the canine stifle.

| | | |
|---------|------|-------------|
| JOR236M | 15cm | \$102.00/ea |
|---------|------|-------------|

JOR236M

Double Loop Cerclage Wire Tightener

Cerclage wire tightener with two tightening knobs for double loop eyed wire. Fiber handle

1. Use single tightener for single wire
2. Use both tighteners for double loops

| | |
|----------|-------------|
| JOR218LD | \$140.00/ea |
|----------|-------------|

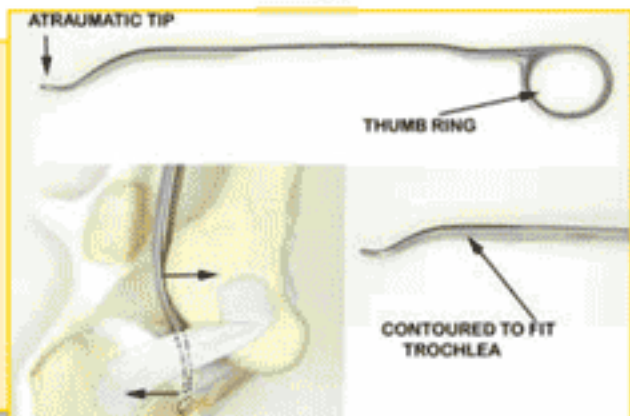

Jorvet Stifle Lever

Jorvet

Examination and management of meniscal injuries is made extremely difficult by the limited access to the medial meniscus during routine approaches. Exposure of the medial meniscus is typically achieved by either use of a stifle distractor or by a Hohman retractor. Hohman retractors are not designed for levering against articular cartilage in that the blade does not "fit" the trochlea. The stifle lever is designed to substitute the Hohman. The caudal surface of the stifle lever is contoured to fit the trochlea of large dogs. The load is dissipated over a large area minimizing trauma. The ring style handle is convenient for retraction by the surgeon using the thumb. The tip atraumatically hooks behind the caudal aspect of the tibial plateau.

Jorvet Stifle Retractor

The examination of the meniscus and intraarticular structure during anterior cruciate repair is a real necessity. This visualization often is difficult even in the largest of dogs. The stifle retractor allows gentle retraction between the femur and tibia, exposing the entire stifle joint to a thorough exam without damaging the joint surface. Stainless steel.

JOR240W \$210.00/ea

JOR240WB (<50 Kg), X-Small \$158.00/ea

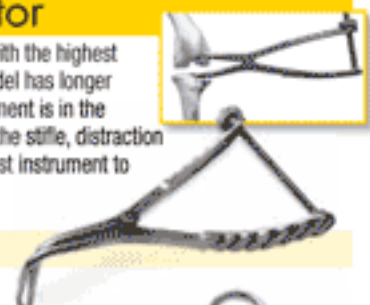

JOR240WS Wallace \$135.00/ea

Modified Stifle Retractor

Designed for medium and large dogs (the group with the highest incidence of meniscal damage), this improved model has longer jaw tips which are self protecting when the instrument is in the closed position. Once inserted atraumatically into the stifle, distraction exposes the longer tips for maximum grip. The best instrument to examine the caudal horn of the medial meniscus.

JOR240WM (15-50 Kg), 7 1/2" \$213.00/ea

Jorvet Small Stifle Retractor

5", 6mm profile. The small overlapping tips allow atraumatic entry into small arthrotomies and small stifles.

JOR240WA (5-50 Kg) \$161.00/ea

Stifle Distractor w/Spinlock

The working tips of our spinlock are the same as the ratchet version. The spinlock offers more secure distraction as it is less likely to slip. The spinlock also offers an infinite range of position versus the ratchet.

JOR240WAS Small \$180.00/ea

JOR240WBS X-Small \$180.00/ea

Jorvet Small Fragment Forceps

Single pointed reduction forceps typically applies pressure at the exact point where it is desirable to place an implant. Splitting the tips allows implants to be placed at the ideal position (e.g., repair of lateral condyle fractures).

JOR212S 5 1/4" \$122.00/ea

JOR212L Extra Large, 8". May be used to provide temporary stabilization of osteotomy while the plate is contoured and placed. \$128.00/ea

JOR212LS Large, Spin Lock Closure. 7 1/2" \$163.00/ea

JOR212M Medium, 135mm. \$119.00/ea

Esophageal Foreign Body Forceps

- One day you will need these!! An especially long forceps that can remove foreign bodies such as fish hooks or lodged bones from even the distal esophagus or trachea.
- Backward facing teeth for maximum grip
- shaft diameter small as possible to allow placement of endoscope alongside

JOR212EFB 25cm shaft x 3.0mm diameter \$160.00/ea

Twin-Point Fragment Forceps

Single pointed reduction forceps typically apply pressure at the exact point where it is desirable to place an implant. Splitting the tips allows implants to be placed at the ideal position (e.g., repair of lateral condyle fractures).

JOR212TC Curved Tip, 6 1/2" \$133.00/ea

JOR212TS Straight Tip, 6 1/2" \$123.00/ea

Bone Plate Holding Forceps

These forceps are designed to maintain plate position through a hole in the plate. The ball, just behind the point of the jaw, locates in bone plate screw hole causing minimal interference elsewhere in the operation site. Also, useful as a reduction forceps in soft young bone, as the balls prevent over-penetration of the bone.

JOR212P 6" (15 cm). \$133.00/ea

Reduction Forceps with Spinlock

Spin lock. Provides incremental secure control, round ends.

JOR212GS Standard, 6" (15cm). \$104.00/ea

Baby Kerns Bone Forceps

German made, Stainless steel. **Jorvet**

JOR159L Standard, 8" (21cm) \$169.00/ea

JOR159 15cm, 6" \$147.00/ea

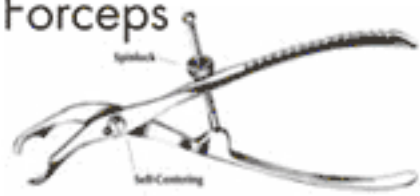

Mini Baby Kerns Bone Holding Forceps

Jorvet Verbrugge Forceps

JOR213VA 6.5" \$192.00/ea

JOR213VB 9.5" \$220.00/ea

Bone Holding Forceps

- For small dogs and cats
- Wide jaws offer maximum compression
- Bone screws and IM pins can be inserted through the center

JOR213 Stainless steel, 15 cm. 6" \$133.00/ea

Pig OB Forceps

Danish model. These forceps open sideways, making it practically impossible to catch the uterine lining. The piglet is gently grasped either around the head or the hips. No need of inserting your hand to place the instrument.

JOR22 23" L. \$24.00/ea

Condyle Clamp

An improvement over the old style rectangular plexi-glass condyle clamp. This triangular, stainless steel, two-sided clamp fits over the humeral condyles and allows greater alignment. A lag screw can be inserted through the hole in the middle of the triangular plate. Reduction may be checked by radiography prior to lag screw fixation. Pressure should be applied proximo-laterally not just purely laterally.

Jorvet Bone Plate Benders

Proper contouring of bone plates is a necessity for proper reduction of fractures. Used in pairs, bone plate benders are the most cost-effective method of plate contouring. Stainless steel.

- JOR853 Small Bender. 1.5mm/2.0mm. Used for small 1.5/2.0mm plates. 140mm L. Pr/Pk. \$59.00/pr
- JOR853B Heavy Bender. 4.5mm. Used for 3.5mm broad and 4.5mm plates. 200mm L. Pr/Pk. \$82.00/pr

Jorvet Plate Bending Pliers

Double-sided roller-type. Used for 3.5mm narrow, 3.5mm broad and 4.5mm narrow plates. Stainless steel with aluminum handles.

- JOR852 15" (380mm) L. \$307.00/ea

Jorvet Reconstruction Plate Pliers

Used for 3.5mm reconstruction plates. Stainless steel.

- JOR852A 290mm L. \$212.00/ea

Plate Bending Pliers TPLO Guide Wire Bender

Also useful for bending guide pins for the TPLO technique. Stainless steel with satin finish.

- JOR854X Contours 2.7/3.5mm narrow bone plates \$445.00/ea

Jorvet Bone Scriber

- JOR822T \$32.00/ea

Leighton Bone Pin Introducer

designed to help reduce overriding fractures and facilitate insertion of the intramedullary pin into the distal segment of a fracture.

- JOR158 (see illustration for explanation of use) \$170.00/ea

We do not stock all Orthopedic Products. Note that Jorvet/Jorgensen brand Products have a \$10 Dropship fee, as well as extra overnight fees.

Jorvet Bone Toggle only

The toggle insertion process is commonly difficult due to use of home-made or other commercial devices. Typically problematic is the toggle coming back out of the hole in the acetabulum. The toggle insertion device deposits the toggle reliably and safely into the pelvic canal through the 4.5mm hole in the acetabulum. Pulling back on the LigaFiba while retaining the insertion device in the hole "flips" the toggle, preventing pullout. The LigaFiba line which passes through the hole in the toggle is passed down through the drilled hole in the femoral head and neck. Use of an adjustable drill guide (JOR414h) ensures accurate placement of this hole.

- JOR863T Double-wrapped in sterile pouch with LigaFiba (JOR2001b) and button. \$43.00/ea

Jorvet Toggle Insertion Kit

The hip toggle is a well-proven method of management of coxo-femoral luxations. A tunnel is drilled up through the femoral head and neck, plus through the acetabulum where the round ligament normally attaches. The toggle is placed through the acetabulum. It turns cross ways on the medial side of the pelvis. LigaFiba runs the length of the tunnel, and tension is applied to the toggle, keeping the hip in place.

- JOR863 Includes insertion device and one sterile toggle with 180 lb. LigaFiba (JOR2001b) and button. \$130.00/ea

OMROD Orthopedic Button

- JOR863X \$13.50/ea

Deluxe Bone Toggle Kit

Includes: JOR414H Drill Guide, JOR863 Toggle Insertion Kit with 1 toggle, JOR863T Insertion Toggles (5) with buttons and LigaFiba Line. Sterile. JOR863X Omrod Button.

- JOR863K Includes: JOR414H Drill Guide, JOR863 Toggle Insertion Kit with 1 toggle, JOR863T Insertion Toggles (5) with buttons and LigaFiba Line. Sterile. JOR863X Omrod Button. \$550.00/ea

Jorvet

Orthopedic Distractor **Jorvet**

Can be used with ESF Pins 3.2-4.0mm. Distractors are useful instruments for the proper repositioning and compression of long bone fractures. The distractor will hold the bone in anatomical alignment and allow the placement of either bone plates, K-E external fixation devices, or bone screws. The instrument will greatly reduce the amount of manipulation that goes on when trying to maintain alignment during surgery, and allows the surgeons to concentrate their efforts on applying the proper fixation device.

JOR237 \$610.00/ea

Stille Liston Bone Cutting Forceps

33-1668 10.5", Double Action 4mm jaw \$129.00/ea

Sterilization, Disinfectants & Cleaners

Iodine Scrub/Solution, Autoclave Tape & Sterilization Pouches

Povidone Iodine Scrub Solution

Generous foaming action helps loosen foreign matter on skin. Rinses easily, leaving no residue. Emollient formulation is soft and non-drying to the skin.

| | | |
|----------|----------|------------|
| PVPSCR-G | 1 Gallon | \$29.99/gl |
| PVPSCR-P | 16oz | \$4.29/ea |

Povidone Iodine Solution

Prep solutions contain 10% weight by volume. Effective for skin and mucous membrane preparation prior to surgical prescrub. Solutions are antimicrobial solutions with surfactants, and contain 7.5% weight by volume Povidone Iodine, USP solution equivalent to 0.75% available iodine. Effective as a surgical scrub or first aid antiseptic.

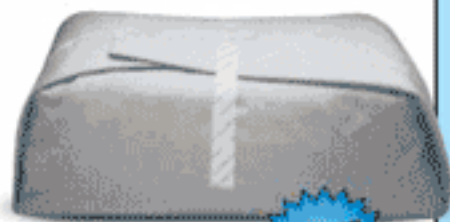

| | | |
|----------|----------|------------|
| PVPSOL-G | 1 Gallon | \$29.99/gl |
| PVPSOL-P | 16oz | \$4.29/ea |

Surgery Sterilization Pack Wraps

These non-woven, soft but tough surgical wraps are useful for wrapping surgery packs during sterilization and storage. They can also be used for actual surgery drapes in precut sizing. The green Sontara fabric is very durable but economical. It withstands steam sterilization for a superior barrier against air and water borne bacteria.

| | | |

Nylon Brush

For proper cleaning of expensive surgical instruments. These brushes will remove all tissue residue and dried blood from hard to reach areas on surgical instruments.

JOR364 7"L \$1.80/ea

Stainless Steel Brush

Stainless Steel Bristle for burrs and rasps.

JOR364S \$1.80/ea

Double Sided Brush

Double-Sided Brush with both nylon and stainless steel bristles.

JOR364D \$2.25/ea

Foaming Autoclave Cleaner

Foaming Autoclave Cleaner. The steam autoclave is a workhorse in today's veterinary clinic. Its heavy use even with distilled water results in dark brown scale deposits on the inside chamber. If not regularly cleaned, these deposits will foul the surgical pack and affect the performance and longevity of the autoclave. It is recommended to clean the autoclave after every 20 cycles, or once per month if used everyday. The JorClave foaming autoclave cleaner will remove all rust spots, stains, and corrosion. In addition scale, alkaline and mineral deposits on the inside chamber walls of autoclave. It also works well on stainless steel carts, trays, or surfaces.

- Mild acidic solution removes rust, stain, spotting, and corrosion
- Most other solutions are slightly alkaline, but the actual deposits are alkaline in pH.
- Foaming action stays on surface longer than standard liquid spray
- Pump spray goes on easily and quickly
- Restores original finish
- No more noxious odor from walls of autoclave

JOR646 \$12.75/ea

Surgical Instrument Milk

An absolute necessity for lubricating and protecting expensive surgical instruments. Use after every cleaning to extend the life of all types of stainless steel surgical instruments. Contains a special additive which

- dissolves organic debris that may build up in the box lock.
- Inhibits corrosion. Deposits anti-corrosive microfilm onto instrument surface
- Gentle ingredients. Formulated with non-aggressive and near neutral pH (7-8)
- 1 gallon makes 7 gallons of lubricant
- Available 4 gallons/case

JOR648 \$33.00/ea

Pink Germicide

An inexpensive disinfectant that allows the submerged instrument to be quickly used after just 10 minutes. It has an anti-corrosive agent that makes it safe to use with stainless steel instruments.

Germicide's advantages:

- Quaternary ammonium compound
- Fast acting
- Low Toxicity
- Ready-to-use, no dilution needed

JOR883 1 Gallon \$16.50/gl

Nolvasan S Cleaner

For disinfection of inanimate objects to aid in control of numerous canine, bovine, and equine Infectious viruses. Concentrated, mix with clean water.

RXNOLS-16 1 pint \$23.50/btl

Surgical Enzyme Cleaner

This cleaner is excellent for removing stubborn organic debris that can stain your surgical instruments. It is a blend of four different enzymes to be the most effective cleaner available. Free of metal attacking agents. Does not contain scale forming phosphates, chlorides or hydroxides

- Concentrated for best economy. Only 1 oz. (30ml) is needed for 1 gallon of wash solution
- Cleans a wide range of metal surfaces. Safe and effective for stainless steel, aluminum, tungsten carbide, copper and brass instruments
- Available 4 gallons/case

JOR649 1 gallon \$48.00/ea

Instrument Cleaners

Enzymatic Instrument Cleaner (A)

Enzymatic Detergent is a specially formulated presoak and cleaner designed to provide one-step cleaning of delicate fiber optic equipment such as endoscopes and cytoscopes, as well as other surgical instruments including those for eye, cardiovascular and general surgery. It is designed as a soak solution for surgical instruments to be used immediately following their use in a surgical procedure. Hemolytic Neutral pH Bacteriostatic Double Enzyme, Non-corrosive, Free rinsing. Safe for scopes Can be used in ultrasonic cleaners. Cleans hard to reach surfaces One gallon bottle

B9 1 Gallon \$29.95/gl

Ultrasonic Cleaning Solution (B)

Concentrated cleaning solutions are non-ammoniated. This concentrated solution is designed to dilute one part concentrate to ten parts water. It is specially formulated to provide a mild yet effective solution for cleaning instruments. Properly used, it will easily remove blood and other body fluids for longer instrument life. One gallon.

JOR382G 1 Gallon \$56.25/gl

Manual and Ultrasonic Instrument Detergent (C)

This Manual and Ultrasonic Instrument Detergent is specially formulated for both manual and ultrasonic cleaners. It is safe for metals, plastics, glassware and rubber. This LOW FOAM cleaner is designed for use in mechanical washers, disperses quickly, and is well suited for automatic injection systems. When hand processing instruments heavily laden with gross organic debris, the use of this cleaner is recommended prior to disinfecting. It contains no animal enzymes and maintains a pleasant odor. It contains four enzymes and three enhancers that make it exceptionally effective in breaking down protein, blood and fat from lumens, box locks and channels. One Gallon bottle

LSD 1 Gallon \$21.00/gl

Enzymatic Instrument Pre-Cleaner Gel (D)

This product is designed for removal of proteinaceous matter from instruments and medical apparatus by coating these surfaces and sustaining moisture during transporting. Cleaner is biodegradable, non-corrosive, and will not stain instruments or equipment made of glass, metal, plastic or rubber.

ENZ220Z 22 oz \$10.95/btl

Instrument Lubricant (E)

Instrument Lubricant (sometimes called milk or milk bath products) is a ready-to-use product that extends instrument life. It helps keep scissors sharp with regular use, and ensures proper operation of hinges, box locks and joints to inhibit growth of bacteria, yeast and fungi. Just use after cleaning or before sterilization or decontamination.

IL220Z 22oz, ready to use \$10.95/btl

Instrument Lubricant Concentrate (F)

Surgical Instrument Lubricant Milk is used after every use of the instrument. Not only does this product lubricate all moving parts, but it helps prevent spotting, staining and rusting of your most precious instruments. This product is not a detergent or sterilizer. Instruments must be autoclaved after Surgical Instrument Lubricant Milk has been applied. The lubricant bath should be replaced at least weekly or more frequently depending on number of instruments processed. Ingredients: Water Polybutene Oleth-2 Oleic Acid Triethanolamine Methylparaben Propylparaben Hydrogenated Castol Oil One gallon makes SEVEN GALLONS of lubricant

ILG 1 gallon, concentrated \$21.00/gl

Surgical Neutral Detergent (G)

Ultrasonic and manual cleaning detergent for surgical instruments.

- Very concentrated. 5ml makes 1 gallon
- Works on metals, rubber, plastic and glass
- High suds with rust inhibitor
- Dispenser pump included
- Available 4 gallons/case

JOR647 Gallon \$48.00/ea

Sterilization, Disinfectants & Cleaners

Sterilization Trays

Jorvet Sterilization Cassette Tray

Useful for sterilizing and for storage between procedures.

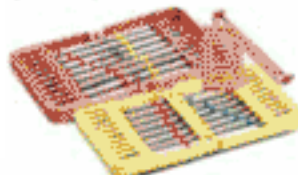

JOR973H \$29.00/ea

Compact Dental Instrument Sterilization Cassette

This compact tray holds up to eight dental hand instruments. Fits into ultrasonic cleaners, plus is autoclavable up to 270°F. End covers snap off/on, for easy removal (left off when using a mouth mirror). A locking strap secures instruments.

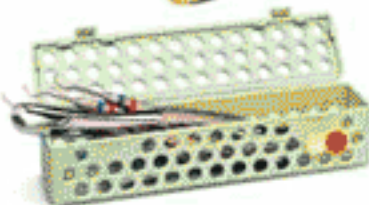

JOR943C 4" x 7" x 5/8" \$30.40/ea

Jorvet Steri Container

A small sterilizable kit that holds a few special instruments. This hinged-lid container fits into ultrasonic cleaners, plus is autoclavable.

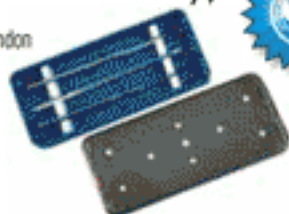

JOR943X 8" x 1 3/4" x 1 3/4" \$13.80/ea

Knife Storage Tray (Sterilization Tray)

This autoclavable tray holds small knives like test or tendon knives via two silicon bars.

JOR667 6" x 21/2" x 3/4" \$30.00/ea

Jorvet Sterilizing Tray

Holds a spay surgery pack.

JOR665L X-Large, Two layers, 15" x 10" x 2 1/2" \$465.00/ea
 JOR665 Large, 15" x 10" x 1" \$280.00/ea

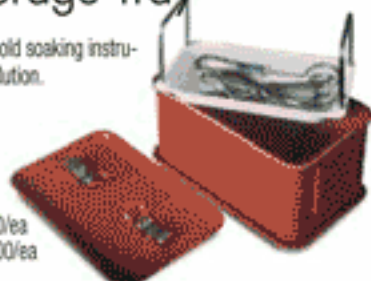

Cold Sterilization Storage Tray

Three piece soaking and sterilization set is ideal for cold soaking instruments. The perforated tray can be lifted out of any solution.

- Stainless steel latches seal the tray
- Can be autoclaved up to 300° F
- Red fiberglass reinforced plastic

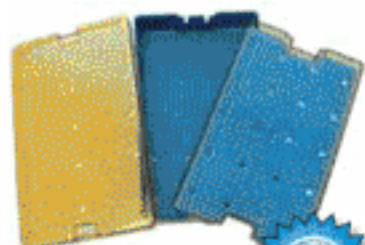

JOR369 6" W x 9 3/4" L x 4 1/2" H. \$92.00/ea
 JOR369L 11" W x 17" L x 6" H. \$162.00/ea

Sterilization Tray

This two layer tray can hold any type of instrument. The rubber mat allows instruments to lay in any configuration. It is autoclavable and can be cold sterilized.

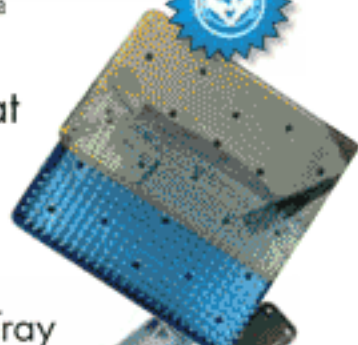

JOR41T Two later tray, 10" x 6" x 1.5" \$158.00/ea

Sterilization Tray w/Mat

Autoclave Tray with rubber mat.

JOR664T 6" X 4" With Mat \$39.00/ea

Rigid Endoscope Storage Tray

Two silicone bars hold scope in safe carrying/storage case.

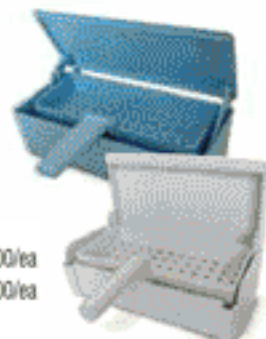

JOR666 16" x 21/2" x 11/2" \$125.00/ea

Jorvet Small Soaking Tray

Cold Sterilization Soaking Trays. Durable plastic made to withstand disinfectants and sterilants. All have drain baskets that allow lifting the tray out of solution and having the solution drain back into the main container. Equipped with fitted sealed lid.

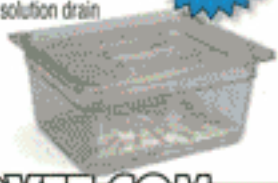

JOR882B 10" x 5" x 3" Grey \$85.00/ea
 JOR882C One-pint volume, 3-1/2" W x 8" L x 2-1/4" H. \$55.00/ea

Clear Cold Sterilization Tray

Durable plastic made to withstand disinfectants and sterilants. All have drain baskets that allow lifting the tray out of solution and having the solution drain back into the main container. Equipped with fitted sealed lid.

JOR882 20" x 12" x 6" Large \$196.00/ea
 JOR882A 12" x 10" x 6" Medium \$50.00/ea

Sterilization, Disinfectants & Cleaners

Disinfectants, Cleaners & Wipes

Germicidal Disinfectant Detergent

A quaternary-based all-purpose bactericidal, virucidal and fungicidal disinfectant detergent with unique neutral pH formula which will not leave a film. Use in veterinary hospitals, kennel rooms, cages and on food and water bowls. Effective against most pathogenic organisms found in veterinary clinics and kennels including Salmonella, Staphylococcus, Pseudomonas, Escherichia coli, Trichophyton, Canine distemper, feline picornavirus, Herpes Simplex Type 1 & 2, HIV-1, HIV-2, Infectious bovine rhinotracheitis, Influenza A2, Pseudorabies and Vaccinia according to the criteria established by the U.S. Environmental Protection Agency for registration and labeling of a disinfectant product as a bactericide, fungicide, or virucide.

RNAL 1 Gallon \$19.95/gl

Cavicide Disinfectant

Cavicide is an effective, ready to use, multi-purpose, broad spectrum solution for use on the surfaces of inanimate objects. Especially useful in O.R.'s, E.R.'s, isolation areas, labs and other critical areas where environmental infection control is necessary.

CV1000 1 Gallon \$26.95/gl
CV1024 24 fl Oz \$10.95/btl

Cavicide Wipes

The power of Cavicide in a wipe! Pre saturated with Cavicide, the cloth wipes are proven to kill both TB and Hepatitis B. Durable, non-woven, non-abrasive towels that don't bunch up during use. Does the job of three products- cleaner, disinfectant and decontaminant. 160 per tub.

CV1100 160 wipes \$10.34/btl

Disinfecting Wipes

For use on Environmental surfaces. Disinfect and Deodorize conveniently with easy pop-up dispenser. For use on hands and nonporous surfaces. 50 Pre-saturated Wipes. Double extra large wipes are three times the size of regular wipes.

DISWIPE 50 wipes \$24.74/ea

Parvosan Disinfectant

RXPARVOSAN gallon \$33.00/gl

Hose End Sprayer

Heavy-duty hose-end sprayer is built tough for professional use. Automatically meters cleaner/ disinfectant concentrate to the exact ratio. Combines attachments for both heavy-duty blasting and foaming. Features a quick-disconnect coupling reservoir.

ACE-950GFMR adjusts to ratios of 0.5, 1, 2, 4.5 and 6 oz/gal

\$72.80/ea

Glutaraldehyde Cold Sterilization Solution

Glutaraldehyde is used as a cold sterilant to disinfect and clean heat-sensitive equipment such as dialysis instruments, surgical instruments, suction bottles, bronchoscopes, endoscopes, and ear, nose, and throat instruments. This chemical can also be used as a tissue fixative in histology and pathology labs and as a hardening agent in the development of x-rays.

Metrimist Deodorizer

MetriMist is a natural, aromatic deodorizer that eliminates offensive odors by cleaning the air, not masking the smell. MetriMist is non-toxic, biodegradable, non-flammable and safe to use on all surfaces.

MX1151 1 oz spray \$2.39/btl

Disinfectant Cleaner

Surface Disinfectant that kills a wide range of pathogens in ONE MINUTE. Meets OSHA's Bloodborne Pathogen Standard.

DISG 1 Gallon \$23.95/gl
DISQT 1 Quart \$9.95/qt

Wavicide Sterilizing Solution

The preferred solution for items like endoscopes, that cannot be autoclaved. A 30-day, 2.65 percent glutaraldehyde sterilizing solution. It is a true sterilant versus just a disinfectant. Wavicide is similar to other glutaraldehydes (i.e., Johnson and Johnson's Cidex). Wavicide is similar to other solutions as in:

- 2 percent glutaraldehyde solution
- Must preclean instruments before immersion
- Must rinse with sterile water before use
- Wavicide's advantages:
- No separate activator chemical needed
- Ready-to-use, no mixing or shaking
- Unused bottled solution keeps for full year
- 30-day reuse
- Use at room temperature
- Lemon scented

Sterilization, Disinfectants & Cleaners

All American Portable Sterilizer

A complete self-contained sterilizer with an immersion heating element, automatic thermostatic control, automatic release valve and pilot light. First in the field to develop an immersion type Pressure Sterilizer for all physicians' offices, hospitals and laboratories. Connects to any outlet and ready for use instantly. This compact and portable unit will quickly pay for its low cost in the saving of time alone. There are no additional supplies to purchase nor is there any maintenance cost other than the electric power consumed. The sterilizer is made of a high quality cast aluminum alloy with the special features of the famous ALL-AMERICAN Pressure Cookers. The portable electric automatic sterilizer meets all requirements for physicians, dentists, first aid stations, hospitals and laboratories. It will provide a complete and efficient sterilization facility with an extremely low cost. The ALL-AMERICAN Sterilizer is automatic in operation, controlled by a Fenwal thermostat and pilot light. Only a small amount of water is needed to create the dry steam. At a temperature of 250 degrees F. or 15 P.S.I., it penetrates the bandages or instruments, making them sterile in 30 minutes. (note: Sterilization time count begins when temperature and pressure levels are reached.)

- Available in 120v or 240v
- Operational on 50hz or 60hz
- Calrod immersion heating element
- 120 Volt AC, 1050 watt, 8 3/4 amps or 240 Volt AC, 1050 watt, 4.38 amps
- Fenwal thermostatic control
- Heavy cast aluminum cover & bottom construction
- Aluminum alloy seamless inset container
- Large sterilizing capacity (831 cubic inches)
- Aluminum rack
- Complete and effective sterilization at lowest possible cost
- Flexible metal exhaust tube
- Dial gauge and control valve
- 3-wire grounded cord and plug for safety
- Metal-to-metal seal (no rubber gaskets)
- Shipping weight: 30 lbs
- Packed in individual corrugated cartons

Ultrasonic Cleaner

For the highest quality specialized instruments we now introduce a premium line of ultrasonic cleaners and cleaning solutions that keep your instruments spotless for longer lasting performance. What is ultrasonic cleaning and how does it work? High frequency sound waves are used to produce more than 40,000 alternating high and low pressures per second. As these waves travel through a specially formulated cleaning solution, millions of microscopic bubbles form and violently implode. This process, known as cavitation, creates a scrubbing action capable of cleaning up to 16 times more efficiently than hand scrubbing. In minutes, all body fluids and foreign particles are removed, even from the tightest grooves, cracks and interior surfaces of the instrument being cleaned. These ultrasonic cleaning systems represent the most advanced technology in ultrasonic cleaning available today.

Features:

Heavy-duty transducer. 25 percent heavier. Providing greater power and better dissolution in the tank.

- Operation at higher Hz. Cleaner operates at 60,000 Hz. This higher Hz equals a short wave-length that increases efficiency in cleaning small crevices. Standard units operate at 35,000-40,000 Hz.
- Extended limited warranty of 2 1/2 years.

Odor Control

KOE Kennel Odor Eliminator Concentrate

Eliminates, not masks, odors. It even works on old, impregnated odors from cages, runs, walls and other large areas. Creates a mild, outdoor fresh odor. Concentrate (0.25 oz per gallon of water)

| | | |
|-------|--------|-------------|
| KOE | 8oz | \$10.95/btl |
| KOE-G | gallon | \$79.00/gl |

AOE Deodorizing Wipes

Eliminates, not masks, odors from anal gland secretion, tom cat spray, necrotic tissue, urine, feces, emesis, etc. Used on animals, accidents, bedding, cages, litter or any place with companion malodor. Spray directly on the source of the odor. Can also be used as an air freshener. Ideal for deodorizing cat litter boxes and neutralizing tomcat spray in the home.

| | | |
|-------|---------------|------------|
| AOE-W | 80 wipes/pack | \$7.95/pk |
| AOE-S | 8oz | \$4.50/btl |

Cat-Odor Off

Eliminates animal odors in carpets, upholstery and other porous surfaces from urine, tomcat spray, feces, emesis and more. Works where other products haven't and won't. Contains no enzymes so may be used without loss of efficacy with or after detergents (carpet shampoo) and germicides. Soaker, penetrates to the source of the odor. Sprays and powders only treat surface problems. Removes many Stains.

| | | |
|-------|------------------|-------------|
| CO-O | 16oz | \$5.00/btl |
| CO-OC | 16oz concentrate | \$11.99/btl |

Dog-Odor Off

Eliminates undignified dog odors including normal body odors, urine, feces, emesis and necrotic tissue. Used on dogs, accidents, cages, bedding or anywhere there is an animal related odor problem. Not an enzyme, bacteria or mask thus may be used after shampoos, cleaners, germicides without loss of efficacy. Eliminates odors without bathing. Fleas and ticks hate its natural cedar fragrance. Works better than cedar bedding because it stays with the dog wherever it goes.

| | | |
|-------|-----------|------------|
| DO-O | 8oz spray | \$4.50/btl |
| DO-OC | 16oz | \$4.85/btl |

OdorzOut

OdorzOut products consist of a blend of Zeolites. They have a honeycomb-like structure with pores which absorb and trap unpleasant and noxious odors. Zeolites have a negative molecular charge which attracts the dust particles, which in turn will eliminate the unwelcome odors. Zeolites unusual longevity is a result of millions of tiny micro-pores that give the material a great absorbent surface.

| OAPG-875 | All Purpose Granules, 875g | \$18.95/ea |
| OPP-799 | Powder, 755g | \$18.95/ea |

Skunk-Off

Stops skunk odor instantly and permanently on contact. Removes all traces of skunk spray from dogs, other pets, people, clothes, cars, homes, anybody or anything a skunk has sprayed or anything a skunk-sprayed animal has rubbed against. Safe, will not damage or irritate sensitive tissue of eyes, ears or nose. Liquid is applied full strength as a spray or soaker from the easy-to-use squeeze bottle. Shampoo is thoroughly applied to the entire animal and then rinsed.

| | | |
|-----|-------------------|-------------|

Stethoscopes & Laryngoscope Blades

Ultrascope Stethoscope

Enormously popular in the human medical field. The stethoscope head is pressure sensitive for assessment of heart and lung sounds. The scope will filter noises, such as barking dogs, while amplifying heart and lung sounds. Combines great acoustics with your choice of 15 custom colors (call for choice of color) & 25 custom designed heads. Features cardiology style tubing. Total weight 4 oz. The head design features an acoustic resonant amplifier with frequency range 20- 35 kHz and solid acrylic one-piece design weighing 2 oz. Ultrascoopes are custom made to order, therefore they are non-returnable. NOTE: If diaphragm wears out due to normal wear, it will be replaced for free.

Gowland's Otoscope with veterinary length specula.

JOR45A 4x. Uses two "C" batteries \$146.00/ea

Otoscope Cone

Use cold sterilization only. For use with lightsource

JOR114S For use with lightsource JOR114bh \$5.40

Otoscope Cone

23834 4mm, Welch Allyn, Macroview Otoscope \$5.50/ea

23835 5mm, Welch Allyn, Macroview \$5.50/ea

Welch Allyn Diagnostic Kit

WelchAllyn®

We offer two Welch Allyn Diagnostic Kits, each comes complete with a standard ophthalmoscope, choice of otoscope, a direct plug-in rechargeable handle and a soft case. Set One includes:

- 3.5v standard ophthalmoscope.
- 3.5v otoscope (operating or pneu), complete with three polypropylene specula sizes 4, 5 and 7mm.
- Direct plug-in rechargeable 3.5v handle, 100-130v, 50/60Hz.

96121 Kit w/Pneumatic otoscope \$607.16/ea

96171 Kit w/Operating otoscope \$711.17/ea

Reister Diagnostic Kit

The Reister Diagnostic Kit offers a battery operated bayonet with multiple instrument heads.

Operates with two "C" batteries (not included)

This kit includes:

- Chrome-plated bent arm illuminator.
- Two chrome-plated Laryngeal Mirrors (3.0mm & 4.0mm).
- May ophthalmoscope with lens wheel and correcting lens diopter ranging from -20 to +20.
- Chrome-plated nasal speculum that manually opens & closes.
- Chrome-plated otoscope.
- Three reusable specula.
- Swivel magnifying lens and an outlet for pneumatic testing.
- Chrome-plated tongue blade holder that holds wooden & plastic blades.
- Traditional hard storage case.

20-205 Complete Kit \$216.35/ea

Otoscope/Ophthalmoscope Combo Kit

This outstanding Ri-Mini Combination Kit features both an otoscope and an ophthalmoscope and includes a connector for pneumatic testing, replacement ear specula, replaceable 2.5V halogen lamp and is packaged in a traditional hard storage case. Operates with two AA batteries (not included).

20-312 Combo Kit \$272.75/ea

Ri-Mini Ophthalmoscope

The Reister Ri-Mini Ophthalmoscope is designed for the examination of the eye and its background. Correcting lenses with diopter ranges of 0 to +20 and 0 to -20 can be adjusted on the lens wheel and four different aperture and/or filters can be selected. Operates with two "AA" batteries (not included).

20-311 Mini-Ophthalmoscope \$180.00/ea

Reister Otoscope

The Reister Economy Otoscope offers superior optics and craftsmanship. Unit comes complete with bayonet otoscope head, three reusable specula, swivel magnifying lens, and comes in a vinyl storage pouch. Operates with two C batteries (not included).

20-660 Reister Kit \$81.80/ea

Replacement Otoscope Bulb

Replacement Bulb

23-390 Fits 20-660 Otoscope \$7.50/ea

23-600 Fits #20-310 Otoscope \$20.00/ea

23-605 Fits #20-311 Otoscope \$25.00/ea

Ri-Mini Otoscope

When combined with an ear speculum, the Reister Ri-Mini Otoscope is the ideal instrument to use for lighting and examining the auditory canal. Includes replaceable 2.5V halogen lamp and traditional hard storage case. Operates with "AA" batteries (not included).

20-310 Mini-Otoscope \$125.45/ea

Otosopes & Ophthalmoscopes

Welch Allyn 3.5V Coaxial Ophthalmoscope Head

The Welch Allyn ophthalmoscope comes with a Halogen HPXTM lamp that provides 30% more light output, for true tissue color and consistent, long-lasting illumination, coaxial optical system for shadow-free spot and easier entry into undilated pupil, crossed linear polarizing filter to reduce corneal reflection, red-free filter for use with any aperture, 18 possible aperture combinations for greater versatility and sealed optics. Handle not included.

| | | |
|-------|------------------------|-------------|
| 11720 | Coaxial Ophthalmoscope | \$258.94/ea |
| 11730 | AutoStep Coaxial | \$310.73/ea |

Welch Allyn 3.5V Standard Ophthalmoscope Head

The Welch Allyn ophthalmoscope comes with a halogen light for true tissue color and consistent, long-lasting illumination. Six aperture selections for general and specialty uses, 28 lenses (-25 to +40 diopters) for better resolution, rubber brow rest and illuminated lens dial clearly identifying setting. Handle not included.

| | | |
|-------|-----------|-------------|
| 11710 | Head Only | \$238.40/ea |
|-------|-----------|-------------|

Welch Allyn 3.5v Rechargeable Handle

These Welch Allyn 3.5v rechargeable handles are universal, accepting all Welch Allyn 3.5 instrument heads. Chrome plated with smooth, non-abrasive knurled finishes to ensure a no-slip grip, well-balanced and fit comfortably in the hand with the weight distributed evenly end to end, come with a long-lasting nickle-cadmium battery, have a safety switch to prevent accidental draining of the battery and metal head connectors for durability.

| | | |
|---------|--------------|-------------|
| 71000-A | Handle, 3.5V | \$151.78/ea |
|---------|--------------|-------------|

Welch Allyn Diagnostic 2.5V Otoposcope with Specula

This Welch Allyn 2.5v Diagnostic Otoposcope uses a halogen light for true tissue color and consistent, long-lasting illumination. Its fiber-optics produce cool light with no reflection, no obstruction. The wide angle viewing lens allows instrumentation under magnification.

| | | |
|-------|-----------|-------------|
| 24031 | Head Only | \$151.79/ea |
|-------|-----------|-------------|

Digital MacroView™ Veterinary Otoposcope

The Welch Allyn Digital MacroView™ Veterinary Otoposcope is a simple, affordable tool that lets you see, explain, and save digital images of the ear.

Improves

- Communication which can lead to better client compliance
- Gives you an excellent training aid for educational purposes
- Offers you the ability to view small details of ears, mouth, and teeth
- Allows you to store digital images in patient records for enhanced documentation of exam findings
- Provides you the ability to share images with other providers as visual descriptive reference
- Compatible with all Welch Allyn 3.5 V power sources

| | |
|-------|---------------|
| 23960 | \$2,200.00/ea |
|-------|---------------|

Welch Allyn 3.5V Pneumatic Consulting Otoposcope Head

The Welch Allyn Pneumatic Consulting Otoposcope comes with a Halogen HPXTM lamp that provides 30% more light output, for true tissue color and consistent, long-lasting illumination, two viewing lenses for dual observation, teaching and consulting, fiber-optic illumination for cool light, a sealed system for pneumatic otoscopy and a rotatable head for left and right side viewing. Handle not included. Comes with 3 polypropylene specula: sizes 4, 5 & 7mm.

| | | |
|-------|-----------|-------------|
| 20262 | Head Only | \$496.19/ea |
| 20260 | Head Only | \$231.98/ea |

Welch Allyn 3.5V Operating Otoposcope Head

The Welch Allyn Pneumatic Otoposcope comes with a Halogen HPXTM lamp that provides 30% more light output, for true tissue color and consistent, long-lasting illumination, open system for convenience during procedures, rotatable lens and speculum for ease of use and fiber-optic illumination for cool light. Handle not included. Comes with 3 polypropylene specula: sizes 4, 5 & 7mm.

| | | |

| 71630 | Holds 2 3.5V Handles Wa | \$490.20/ea |

WelchAllyn®

Indirect Viewing Lens

Jorvet

Aspheric 20 diopter hand held lens. This 20 diopter all glass indirect convex lens combined with a source of direct illumination i.e. bright penlight allows for 'indirect' ophthalmoscopy of the fundus. The veterinarian holds the lens in front of the animal's eye. At arm's length, the veterinarian direct light at lens:

- Provides a larger field of view of the fundus than is possible with a standard ophthalmoscope
- Exam at safe distance with fractious animals
- Comes with blue velour storage bag

| | | |
|--------|-----------------------|------------|
| JOR992 | 2 1/2" d x 1/2" thick | \$52.00/ea |
|--------|-----------------------|------------|

Illuminators, Speculums & Bulbs

Welch Allyn 3.5v Wall Transformer

The 767 Wall Transformer is designed to put everything needed for fast, accurate diagnoses at arm's length. And it does this in a convenient, modular package. Features handle-based rheostat for quick light-intensity adjustments, contoured handles that are easy to hold and maneuver, a high-impact ABS housing, modular coiled cords that are guaranteed for 10 years and new Halogen HPX lamps that provide 30% more light.

| | | |
|-------|-----------------------------|-------------|
| 76710 | Wall Transformer | \$466.09/ea |
| 76720 | Wall Transformer with clock | \$525.01/ea |
| 76730 | Third Handle Module | \$260.23/ea |
| 71420 | Bracket | \$56.26/ea |

WelchAllyn®

Welch Allyn IndirectViewing Lens

20 diopter all-glass indirect convex viewing lens allows for less distortion while providing for a larger field of view. Allows for examination at a safe distance from fractious animals. Combined with a source of direct illumination, allows a veterinarian to perform monocular indirect ophthalmoscopy. At arms length, the examiner directs light on the viewing lens, which then reveals an inverted picture of the fundus.

| | | |
|-------|------------|------------|
| 12300 | 20 Diopter | \$81.60/ea |
|-------|------------|------------|

WelchAllyn®

Polypropylene Specula

The material used in the Welch Allyn Reusable Polypropylene Specula is lightweight but durable. The specula may be autoclaved, boiled, or sterilized in solution and can be attached easily.

| | | |
|---------|-----|-----------|
| 24303-U | 3mm | \$2.50/ea |
| 24304-U | 4mm | \$2.50/ea |

These fit Diagnostic Scopes only

Welch Allyn Illuminator 3.5V

Featuring the new Halogen HPXTM lamp that provides 30% more light output, for true tissue color and consistent, long-lasting illumination, fiber-optic illumination for cool light and is convertible to a throat illuminator/penlight.

| | | |
|-------|----------------------------------|------------|
| 26530 | Nasal illuminator w/9mm speculum | \$98.20/ea |
| 26535 | Nasal illuminator | \$44.64/ea |

WelchAllyn®

Welch Allyn 3.5v Transilluminator

Featuring a HPXTM lamp, fiber-optic transmission for cool distal light and fully sterilizable. Optional cobalt blue filter.

| | | |
|-------|---|-------------|
| 41100 | Finoff Ocular transilluminator | \$91.07/ea |
| 41101 | Finoff Ocular transilluminator w/Cobalt Blue Filter | \$136.90/ea |
| 41102 | Cobalt Blue Filter | \$32.13/ea |
| 43300 | Curved Transilluminator | \$109.83/ea |

WelchAllyn®

Welch Allyn Halogen Lamp

Lamp bulbs provide a halogen light for true tissue color and consistent, long-lasting illumination.

WelchAllyn®

| | | |

Diagnostic Supplies

Basic & Binocular Microscopes & Accessories

Basic Laboratory Microscope

Premiere Brand

- Real optical glass lenses
- 10x widefield eyepiece
- 3 Achromatic objective lenses 4x, 10x, 40x Power
- Magnification from 40x to 400x
- 90mm x 90mm Stage with clips
- 6 Hold disc diaphragm
- 5 prepared glass slides
- Overall size: 4" x 6" x 11"

MFL-02 Complete Scope kit \$112.00/ea

Ultimate Laboratory Microscope

The same great optics are now even more versatile on a new base with a rechargeable battery light source. The detachable AC power cord can be used to power the light or recharge the battery for portable use "in the field". Battery lasts for hours and can be recharged hundreds of times for years of valuable scientific research!

MFL-05 Complete Scope kit

\$130.00/ea

Binocular Microscope Replacement Bulb

MA13 For MFL-02 \$10.00/ea

Binocular Microscope

Technical Features:

- 30 degree inclined binocular Seidentopf style head, rotatable 360 degree
- Eye piece: 10x wide-field
- 4 DIN objectives: 4x (N.A. 0.10), 10x (N.A. 0.25), 40x (N.A. 0.65), 100x (oil immersion, N.A. 1.25)
- Magnification: 40x to 1600x
- 4 1/2" X 5" (120x125mm) Mechanical stage with coaxial drive/rack and pinion adjustment, left hand controls
- Abbe condenser NA 1.25 with iris diaphragm
- Filter (Blue and Green)
- Coaxial coarse and fine focusing and low knob position
- Built in variable intensity halogen illuminator, 6V 15W
- UL approved 3 wire cord
- Plano-concave mirror (reflector) for ease in outdoor use
- Spare bulb and fuse
- Eye piece pointer for learning aid (optional)
- Size: 6"x8"14 1/2"H, H.W. : 11 lb

Microscopes & Accessories

Deluxe Microscope w/Plan Objectives

A deluxe version of the Revelation III, this microscope has all the same features plus the following upgrades:

- Objectives are plan giving increasing clarity of the image especially on the fringes
- Super-wide eyepiece tube of 30mm provides a huge field of view
- Larger and modern looking frame
- Larger mechanical stage, 160mm x 140mm

JOR334MP \$1,710.00/ea

Infinity LabScope

This new model has a beautiful design with a number of important features.

- Infinity optics usually found only on very expensive microscopes. Best optical system for highest clarity and resolution.
- LED illumination: gives bright almost daylight illumination with very long-lasting bulb, with cool temperature
- 4 semiplan objectives, flat field across 95% of your view
- 10x/20 super wide high-point eyepieces, higher focal point means you can wear glasses and see more of your specimen at each magnification power.
- Ergonomic design
- Can rest your arms and hands flat on the table with all controls in easy reach.
- Optional 50x oil infinity objective
- The highest resolution objective available, which doubles the view of the 100x oil for faster scanning and counting.

JOR3340C \$199.00/ea

Inspector Zoom Dissecting Microscope

A high resolution stereo zoom microscope, also called a dissecting microscope, with both lower (transmitted) and variable upper (reflected) illumination. Its clean 3D imaging and broad field of view make it perfect for selecting viable embryos. Use the lower transmitted, dim the upper light, and zoom the magnification from 6.5x to 45x to see the structure and condition of each embryo. High magnification options up to 72x or 90x are available. Frosted glass stage with two holding clips.

JOR755 \$1,100.00/ea

Semen Evaluation LabScope

Semen Evaluation LabScope, is perfect for veterinarians interested in live specimen microscopy including: semen evaluation, live biological specimen analysis, and standard brightfield applications. Motility analysis should be performed at 37°C to keep sperm active. The heated stage has a digital temperature control unit permitting temperature settings between 25-50°C and maintains accurate and stable temperatures within +/-0.5° during observation. Unplug the cord from the stage, and the LabScope looks and functions like a standard laboratory-grade microscope. The PLAN phase objectives and turret condenser allow flatfield, high contrast viewing of live, unstained specimens, and easy magnification changes

with the flip of the thumb. Simply turn the turret condenser wheel to switch between brightfield, darkfield, phase 10x, phase 40x, and phase 100x settings. System Features:

- Laboratory binocular microscope
- 10x/20 high-point, oversized WF eyepieces
- Complete semen evaluation system
- X-Y mechanical stage for precise slide movements
- Built-in heated stage with removable cord
- Variable digital temperature control 25-50°C
- Set temperature in 1° increments
- Displays actual temperature in 0.1° increments
- Accurate within 0.5°C
- Reaches temperature with 1-2 minutes
- Switchable power input 110V or 220V AC
- Digital temperature control unit
- 84mm (3.4"W) x 225mm (9")L x 153mm (6.5")H
- 2.5 kg (5.5 lbs.)
- Turret condenser with phase contrast and brightfield
- PLAN flat-field phase contrast - Phase 10x, Phase 20x, phase 40x, phase 100x
- DIN PLAN flat field objectives
- Variable halogen 20 watt Koehler illumination
- Includes blue-green-yellow filters, immersion oil, dust cover & manual
- Microscope specifications
- 200mm (77/8")W x 270mm (105/8")L x 420mm (161/2")H
- 9kg (20 lbs.)
- 110V or 220V AC power
- Lifetime warranty on mechanical and optical components,
- 1-year warranty on electrical components

JOR333C Trinocular Labscope with 10x, 20x, 40x, 50x oil, and 100x oil objectives with BioVid camera \$2,850.00/ea

Trinocular scope w/Biovid camera

A number of different microscopes can be combined with a camera system. The camera system is then connected to a monitor or computer.

JOR333A \$2,380.00/ea

Revelation III Microscope & Pulse Oximeter

Revelation III Microscope

Revelation III Microscope is an improved version of our previous model "Revelation." Excellent for the veterinary in-clinic laboratory. Use for fecal floatation on 10x to cytology on 100x oil immersion. Mechanical stage with coaxial controls (140mm x 140mm) Binocular head with wide field 10x eyepieces Four DIN achromatic objectives: 4x, 10x, 40x, and 100x.

- Moveable ABBE condenser N.A. 125
- 12V 20 watt halogen bulb
- Fine and coarse focus adjustments
- Dust cover
- Inexpensive

TonoVet

The use of tonometry to measure Intra Ocular Pressure (IOP) is the only real tool for the screening of glaucoma. Traditional tonometers determine pressure by repeatedly pushing an instrument against the cornea and calculating the force necessary to flatten the cornea. The TonoVet uses a newer technology called "rebound" tonometry. The portable hand held unit is positioned 1/4" away from the cornea. At the push of a button, a tiny probe painlessly and rapidly reaches out and touches the cornea. Six rapid measurements are taken in seconds! The unit is self-calibrating with its own software and it is the size of a cell phone. It has been approved for use on all veterinary patients. It has a limited four year warranty. It runs on 4 AA batteries and has a measurement range of 1-99 mm Hg.

Veterinary Pulse Oximeter with Thermistor

Measures oxygen saturation and temperature. Small pulse oximeter with adjustable alarms and LED display that runs continuously. Includes a lingual sensor and rectal sensor with thermistor.

- Intended for continuous pulse oximetry
- Portable with alarms and two LED displays 12-hour NiCad or continuous AC-powered operation
- Adjustable pulse tone levels
- Pitch changes with rise or fall in oxygen saturation
- Adjustable alarm levels for oxygen saturation and pulse rate
- Previous alarm settings are recalled from memory
- Output port for data communication to other instruments. Unit has a five year warranty and sensors each have a 1 year warranty.

Diagnostic Tests

Reagent Strips

High quality test strips at affordable prices. Large Selection of test strip configurations. Easy to read color chart. Uniform read times.

D10 10 Tests, Glucose, Protein, Ketone, pH, Blood, Bilirubin, Urobilinogen, Nitrite, Specific Gravity, Leukocytes 100/Btl \$39.95/ea

Vet-10 Urine Reagent Strips

These urine test strips offer two major advantages:

- Veterinary specific: for urine specific gravity these strips allow values for what veterinary medicine requires
 - Priced at considerable savings over other brands
- These test strips are a high quality grade product made in the USA. The 10 colors on the strip are configured in the same order as the Ames Multistix-10® to avoid confusion and maintain continuity.

The expanded test strip now has the 10th test for leukocytes. 100 test strips per bottle. The strips test for: 1. Nitrite 2. Urobilinogen 3. Protein 4. pH 5. Specific Gravity 6. Ketone 7. Bilirubin 8. Glucose 9. Blood 10. Leukocytes

JOR630X 100/pk \$44.00

JOR630X

Vet-BUN Reagent Strips

These sensitive color-coded test strips use one drop of whole blood to give blood urea nitrogen (BUN) reading. They are a quick and simple screening test for this important blood parameter. Made in the USA.

JOR630Y 25 strips per bottle. \$27.00/ea

JOR630G 100 pack \$12.00/ea

Fecatector Diagnostic Kit

A unique, sanitary, leak-proof collection device, to be used by the client for obtaining fecal samples from pets. The same container then doubles as the laboratory flotation device. This eliminates the need for technicians to transfer or contact the stool sample. Comes complete with laboratory instructions card and easy-to-follow client instruction sheets. Comes in a compact display box for wall-mounted or counter use.

606-2799 50 kits per box \$17.99/box 6+\$15.99/ea

Zinc Sulfate Fecal Flotation Medium

RX0VA-GAL 1 gallon \$10.99/gal

Fecal-Ova Float Kit

A fecal flotation exam is a necessary part of every routine physical exam as well as many diagnostic workups. Various internal parasite eggs can be detected through this simple test by the use of flotation solutions, which cause the ova to rise to the top of these solutions. Often times, the client is asked to bring a stool sample from home, which is not an easy task in most cases. The fecal ova float is a two-part plastic container for use as both a fecal collection container and a flotation exam container. The inexpensive containers facilitate a simple and hygienic collection of fecal material. Upon arrival at the clinic, the containers will hold the flotation solution, with no spillage, for a flotation exam. Packaged in handy 50-kit dispensing

JOR950 Fecal Ova Float, Dispensing Box with 50 Kits. 7 1/2" x 5 1/2" x 5" \$19.50/ea

Fecal-Ova Float Refill

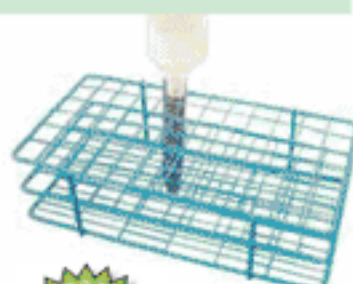

JOR950B Fecal Ova Float. 50 Kits/Bulk. (dispensing box not included) \$15.90/bx

Con-Trate® Fecal Filters

Contrate fecal filters are especially useful when used in conjunction with swing arm centrifuges for fecal exams. The filter is designed to seat on top of conical test tubes. It is used to filter out particulates and debris from fecal solution after the flotation solution has been mixed with the sample. The contrate fecal filter helps eliminate messy spills and is a good substitute for gauze sponges or tea bag strainers.

JOR952 5/pk. Tray not included. \$12.90/pk

Disposable Polystyrene Tube

Conical shaped tube with graduations.

JOR546A 15ml 100/bx \$12.60/ea

Blood Flow Monitor

Doppler Ultrasonic Blood Flow Monitor

Hypertension (high blood pressure) is often overlooked during diagnosis, treatment and routine physical exams in small animals. In addition, many hypotensive (low blood pressure) patients, such as those suffering from shock, benefit greatly from Doppler measurement of blood pressure when knowing the pressure can mean effective and timely treatment. Combining Doppler with an appropriate size "cuff" for small animals, provides the veterinarian with the same non-invasive method for testing blood pressure as is available in human medicine. A small probe is placed over a peripheral artery, e.g., digital or coccygeal. An ultrasonic crystal in the probe transmits pulse wave sounds back to the amplifier. The pressure cuff is then placed proximal to the probe. The cuff is inflated until the pulse sounds are no longer audible. The cuff is slowly deflated, using the manometer, until pulse sounds are audible once more, at which point the manometer displays a numeric value of the animal's systolic pressure.

Features:

- Lightweight, hand-held unit
- High quality, veterinary-specific "cuff"
- (sphygmomanometer)
- Comes with two cuffs (2.5 cm and 5.0 cm)
- Run on 9-volt battery, included
- Complete with carrying case

Intelect® Transport Ultrasound **Jorvet**

Therapeutic ultrasound provides deep tissue-heating to treat musculoskeletal injuries, as opposed to superficial heat treatment. Ultrasound also delivers non-thermal pulse down effects. The combination of deep heating and non-thermal effects makes this a unique and versatile therapy. This unit is transportable featuring logical control system; a large easy-to-read graphical LCD display, and user defined protocols. **FEATURES:** Ergonomically designed applicators, 10cm² head size for equine patients, fully functional 1 and 3.3MHz frequencies, pulsed and continuous therapy, head warming function on applicators, two year warranty on unit, 90 days on sound heads.

JOR1015ED1 10cm Ultrasound applicator head

\$342.00/ea

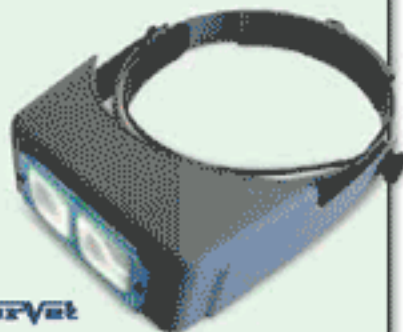

Jorvet Optivisor®

Jorvet

Optivisor is a precision binocular headband magnifier which permits unrestricted user efficiency—leaving both hands free, while reducing eye strain—allowing three dimensional vision. It can be worn over prescription eyeglasses. Equipped with these unique features:

- Optical glass prismatic lenses. Ground and polished to precision optical standards.
- Bevel edged and mounted in interchangeable plastic frame.
- Adjustable pivots allow the visor to be tilted out of the way when not in use, and at your fingertips when magnification is needed.
- Adjustable headband conforms to fit all head sizes. Fabricated from a special blend of lightweight material. Comfortable when worn for long periods of time.
- High impact visor is tough, durable, and always new in appearance.
- Genuine leather comfort band is padded with orthopedic felt to add comfort.
- Magnifies 2.5 times at 8".
- Optivisor is perfect for eye exams, (i.e. corneal foreign body, distichiasis). Varying magnifications and focal lengths available:

| | | |
|---------|----------------|------------|
| JOR801 | 2 1/2 X at 8" | \$63.00/ea |

ECG Machine

The ECG is one of the most under utilized diagnostic parameters in veterinary medicine. An ECG is an absolute necessity for proper cardiac diagnostics. The Jorvet Single Channel ECG and monitor offers what veterinarians need at a very reasonable price. The all-important lead II rhythm strip can be run for screening purposes; and if further evaluation is deemed necessary, all 6 common leads can be run for more thorough diagnostics.

Features and Benefits:

- One touch keypad buttons allow for easy set up and operation
- Large screen is well lit and easy to read
- Single channel displays and prints one lead at a time
- Features both MANUAL and AUTO modes
- Dimensions are 12"L x 8 7/8"W x 2 5/8"H
- Weighs just 6.25 lbs
- Operates on either AC or 12 volt NiMH rechargeable battery
- Patient comfortable electrode clips
- Built in paper printer
- Supports patient monitoring via onscreen tracing, i.e., lead II
- Supports diagnostic evaluation via the printed tracing
- 3 year warranty on the ECG unit, 1 year on battery and leads

The portability and high-resolution imaging and video recording make clinical diagnosis simple and practical. It educates the client in understanding the process resulting in increased compliance. This one of a kind video otoscope has multi-use capabilities in one device. Designed with precision and cutting edge technology. Features:

- **Portable.** This device can be plugged into any Microsoft platform computer with a USB2.0 port.
 - **Power.** No batteries or external power source is needed. It is powered through the USB port.
 - **Light Source.** 6 LED bulbs allow 10,000 working hours.
 - **High Resolution Imaging and Video Capture.** The Bio-Cam 2.0™ with a quad VGA of 1280H x 960V, 15fps creates sharp and accurate imaging for easy diagnosis. The BioCam 2.0™ also records real-time video through live capture.
 - **Multi Usage.** With its live capture, easy one-touch record and focus functions, the BioCam 2.0™ allows before and after imaging. It is capable of being used for multiple diagnosis as in skin lesions, dental tartar, ear infections and more.
 - **Interchangeable Speculum.** Interchangeable disposable speculums offer medical professionals more flexibility for diagnosing. The portability and high-resolution imaging and video recording make clinical diagnosis simple and practical. It educates the client in understanding the process resulting in increased compliance. Respirator/Alarm & Vagiscopes

Vet-Alarm Respiratory Monitor **JorVet**

This respiratory monitor is a simple yet reliable indicator of apnea. The sensor is placed in the breath pathway and detects each breath. If a breath does not take place in a selected time interval an alarm will sound. A flashing liquid crystal screen shows the last time a breath was detected. 2" x 5" x 5".

- Small, 1 1/2 lbs.
- Rechargeable battery
- Mounting bracket

JOR166M 2" x 5" x 5" \$495.00/ea

Vet-Alarm Respiratory Monitor Accessories

JOR166MD1A Sensor Wire with Connector \$48.00/ea
 JOR166MD2 Rechargeable battery \$36.00/ea
 JOR166MD3 AC adaptor recharger \$24.00/ea

Jorvet Breathe Safe Respiration Monitor

This tiny—smaller than a cigarette pack—monitor makes a great apnea alert monitor. The small microprocessor beeps with every breath with a very high sensitivity.

- Easy to use: just connect between endotracheal tube and anesthesia circuit
- No adjustments: a sophisticated algorithm recognizes and indicates every breath with a beep, working from a 1 lb. kitten to a 200 lb. St. Bernard.
- Apnea alert: a distinctive alert sounds if patient fails to breathe for 45 seconds
- Auto shut-off
- A high density long-life lithium battery provides years of service
- One-year warranty

JOR166RM 1/2"W x 2 1/4"L x 1 1/2"D. 3oz \$200.00/ea

Hemo Nate Blood Filtration System

Removes small volumes of particulate debris through an 18 micron stainless steel filter which allows viable blood product to pass through with ease. Especially useful with "syringe" method of transfusion used in feline medicine.

JOR522H Attaches to any male fitting. \$6.60/ea

Hemo Tap Filter Spike

This spike has a filter and can be used on any blood bag or transfer component bag. Used for adding blood compatible medications or syringe access.

JOR522T \$4.80/ea

Thermometers

Digital Thermometer

Features a variety of high-tech innovations that make it ideal for veterinarians and technicians. It provides accurate temperatures at a fast pace. The portable lightweight high quality thermometer offers a wide temperature range: -40deg to 400deg F (-40deg to 150degC) with 0.10F resolution and a system accuracy of +0.210F or + 0.2% of readings.

Features:

- Operations status (F or C) is indicated on the display.
- Detachable fast-acting probe can be stored in a durable case when not in use.
- 3 1/2"L with reinforced connection. Final temperature readout within 60 seconds.
- Warranty: 1 year on unit, 90 days on probe.

| | | |
|----------|-------------------------|-------------|
| JOR285B | Battery Unit with probe | \$269.00/ea |
| JOR285EC | Extension cord, 10 ft. | \$47.00/ea |
| JOR285P | Probe only | \$79.00/ea |

Quick Read Handheld Digital Thermometer

This thermometer gives a quick reading with an audible beep. The special design is a very ergonomic hand-held angle that works well for all animals large and small. Uses two AAA batteries (included). You can select either Fahrenheit or Celsius. Automatically shuts off if not in use.

| | | |
|--------|--------------------------|------------|
| JOR188 | Reading in 10-60 seconds | \$30.00/ea |

Mobile Anesthesia Unit

Small Animal Lexus Anesthesia System. Performance for a high standard of care with economy of initial investment. Precise machined fittings for an airtight connection. Powder coat finish is attractive and easy to clean. Protected, enclosed flowmeter with 200cc to 4 lpm setting. Integrated O2 flush valve set at 15 lpm. Soda lime canister is protected by its location under block. Smaller size, 970cc, versus standard 1300cc. Also quick turn knob for each change of exhausted soda lime. Pop-off valve attaches to a standard scavenger unit. Manometer pressure gauge for proper bagging of animal.

- Includes two anesthesia circuits, one universal "F" circuit and one non-breathing circuit.
- Available in mobile and table top models.
- Will accept most vaporizers.
- Available with Tech II or Tech IV vaporizer.

|---------|---|-------------|

Soda Lime

JorVet soda lime is a high-grade granular product that effectively absorbs carbon dioxide that is produced as an anesthesia by-product. It is a mixture of calcium hydroxide Ca(OH)₂ also known as lime plus a smaller amount of sodium hydroxide NaOH. Upon exposure to carbon dioxide CO₂, the calcium hydroxide converts to calcium carbonate CaCO₃. This prevents CO₂ buildup in a re-breathing circuit. The sodium hydroxide acts as a catalyst in the process. No potassium hydroxide (KOH) is present in JorVet soda lime; this helps to avoid the formation of toxic compounds such as Compound A and carbon monoxide. JorVet soda lime has a pH color change indicator that changes from white to violet when the soda lime needs to be changed. It will eventually return to its original color if not changed. Therefore, a good rule of thumb is to replace the soda lime every time the vaporizer is filled.

- Minimal dust
- No KOH-minimizing chance of anesthetic reactions that produce toxins
- Irregular particle size-creates more surface area
- Saturation indicator built-in changes from white to violet
- Particle size 4-8 USP Mesh (2.5mm-5mm)

| | | |
|---------|--------------------|------------|
| JOR553 | 3 lb. bag | \$7.50/ea |

Anesthesia Products

Oxy Cage & Buster Cage

Jorvet Vapor Wand

Vapor Wand. Veterinarians often treat ferocious or vicious animals such as aggressive cats and dogs, small zoo animals, wildlife, primates, reptiles, and other exotic species. For proper examination or surgery, these animals need to be anesthetized. Older methods such as pole syringes and darts are high risk to both the animal and the veterinarian. Anesthesia chambers have size limitations, and transferring the patient safely into chambers can be risky. The development of anesthetic agents such as isoflurane can make induction faster, quieter, and safer.

David S. Hodgson DVM, DACVA at Kansas State

University Veterinary Teaching Hospital, developed the innovative Vapor Wand to deliver anesthetic vapors into enclosed cages and pet carriers. The Vapor Wand is a small round stainless steel vented probe with a cotton

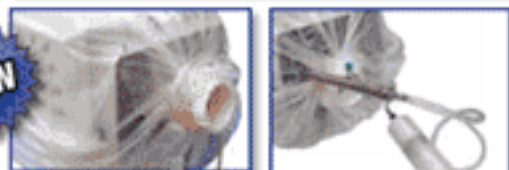

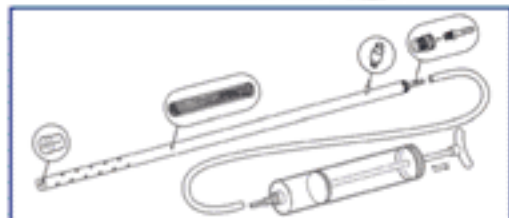

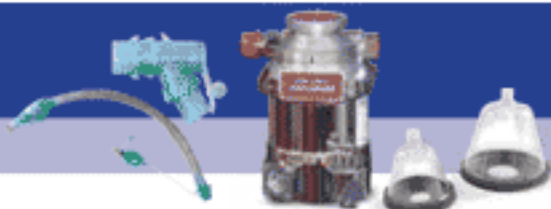

wick. It is attached to a 400ml air pump. When a pre-measured

dose of liquid isoflurane is added to the wick, and the air pump is cycled, the liquid isoflurane is vaporized. Any animal may be quickly anesthetized by use of the Vapor Wand inserted into the sealed environment. The example shown is a transport kennel placed into a plastic bag. The Vapor Wand is inserted into the kennel and the air pump is cycled. The round viewing window allows for observation of the animal during induction of anesthesia. When induction is complete, the bag is opened. The animal may be maintained via mask or other anesthetic techniques.

Vapor Wand Kit. Includes:

- Vapor wand 32 1/2" L x 3/4" D
- 400ml reusable syringe
- Small viewing port with window
- Laminated dosage calibration chart
- Instructional CD-ROM

JOR990 \$180.00/ea

Jorvet Oxy Cage

This portable cage serves a variety of critical care needs. (Product may vary slightly from picture.) Includes:

- Oxy cage
- Two 9cc nebulizers (JOR949n)
- Humidifier canister (JOR653)
- Four lengths oxygen tubing, 7' L (JOR655)
- Christmas tree connector (JORS95c)
- Two 90° elbow connectors

The Oxy Cage is a specially modified lightweight transport kennel. Side windows are clear plexiglass. Special vents can be opened for ventilation. The door grill is backed with a removable clear plexiglass. A special lining in the door frame provides a tight seal when the door is closed. The floor has a raised comfortable floor grill (1/2 hH). Both temperature and humidity information are

provided via a digital monitor. Special connectors allow attachment of oxygen tubing, humidifiers, and medicated nebulizers. Any oxygen source with a flowmeter can be used (i.e., oxygen tank or oxygen concentrator).

Buster ICU Cage

The Buster ICU cage offers the most affordable intensive care unit available. It can simply fold up into a small nylon bag for storage after use.

- Controlled oxygen therapy
- Can double as an anesthesia chamber
- Collapsible for daily storage and set up anywhere i.e. standard stainless cage Specifications on design
- PVC lined for easy cleaning
- Clear vinyl window covers for visualization
- Either warmth or cooling can be provided with reusable gel packs

Accessories include: oxygen accessory kit (JOR1057q)

- 6 color coded venturi oxygen delivery nozzles
- Small nebulizer
- Connecting T-piece
- Oxygen tubing 7ft (2.1m)

Buster Comfort Mattress

- Fits inside Buster ICU cage for soft patient comfort
- Waterproof black nylon cover with zipper
- Can be scrubbed clean then drip dry in minutes
- Withstands most disinfectants
- Includes gel pack that can provide heat (microwave) or cool (refrigerator)
- Gel packs are non-toxic if accidentally consumed
- Buster kennel mattress available separately with gel packs.

Anesthesia Products

Oxygen Concentrators & Supplies

Integra & Ragalia Oxygen Concentrators

Oxygen concentrators separate air into primary components such as oxygen and provide the lowest cost mechanism to do so. The Ragalia offers an ideal and innovative system for supplying oxygen to anesthesia machines and for emergency oxygen needs. This concentrator will extract medical grade O2 directly from the air and deliver it to a desired location.

The digital flow rate meter delivers 1-7 lpm or 1-10 lpm of continuous O2. If the flow meter rate is set at 1 lpm it will deliver a 95 percent O2 concentration, 5 lpm will deliver 90 percent concentration. Made specifically for the veterinary market.

Features:

- Reliable O2 production with constant delivery pressure
- Eliminates need for O2 tank
- Compact, lightweight, yet rugged environmentally tolerant design
- Quiet operation
- Easy-to-read digital flow meter
- Control knobs are large and easily accessible
- Self cleaning, minimal maintenance
- Low operating cost, 5 watt power consumption
- 14.7"W x 26"H x 10.1"D. 54 lbs. (24 Kg)

Three year warranty

Performance:

- Flow rate: variable 1/2-7 lpm (JOR744) or 1/2-10 lpm (JOR744a)
- O2 pressure 5 psi (37.9 Kpa) minimum
- O2 Concentration 95-92 percent at 0-3 lpm 95-90 percent at 3-5 lpm
- Designed for anesthesia machines, 2 maximum.

| | | |
|---------|--|---------------|

JOR744A

Oxygen Booster 90PSI with Relief Valve

The use of an oxygen booster, delivering oxygen at 5-7 PSI, may be combined with an oxygen concentrator. In cases where central oxygen or long oxygen hose lines are needed the oxygen booster should be used to increase oxygen pressure. Free standing metal cabinet uses 110V AC power via a 3-pronged plug. (not pictured)

JOR744C 16"W x 20"H x 8 1/2"D. 16"W x 20"H x 8 1/2"D \$3,250.00/ea

Oxygen Booster 55PSI

JOR744B 16"W x 20"H x 8 1/2"D. 36 lbs. 16"W x 20"H x 8 1/2"D \$2,106.00/ea

Pop-Off Valve Restrictor

The restrictor is placed on the pop-off valve exhaust port and the scavenge tubing is attached to the other end. The button on the device top is depressed to close the exhaust, thus allowing the bagging of the animal. The restrictor allows the anesthetist to leave the pop-off valve open, but the animal still may be bagged when necessary. This prevents the chance that the pop-off valve may be left accidentally closed, a situation which causes high pressure within the system, and can lead to respiratory damage and pneumothorax. Made from Delran, a sturdy, durable material.

Chambers, Masks & Tubes

Jor-Vet Fresh Breath Canister Installation Kit

Breath Fresh Anesthesia Gas Filter. Activated charcoal canisters remove up to 50g of waste anesthetic gas. They attach to standard 19mm scavenger hose.

Features:

- Inexpensive refills available
- Lasts 12-15 hours of anesthesia
- Simple to use: connect and ready to go
- Mounts right on anesthesia machine pole

Mounting Kit includes:

- Mounting Bracket for attachment to anesthesia pole
- Breath Fresh Canister
- 19mm Tubing 40" L

Halls Anesthesia Mask

Soft, malleable black rubber. This mask will conform to the animal's muzzle shape, allowing a custom fit. Standard 15mm connection to anesthesia circuit.

| | | |
|----------|--------|-------------|
| JOR298HA | Small | \$126.00/ea |
| JOR298HB | Medium | \$126.00/ea |
| JOR298HC | Large | \$129.00/ea |

Exotic/Small Animal Anesthesia Mask and Non-Rebreathing Circuit

These especially small masks were specifically designed for use on small exotics such as pocket pets and birds. The small circuit hooks up the same way as a nonrebreathing circuit does to an anesthesia machine.

The masks fit tight around the nose and mouth. Soft conforming cone can be trimmed to custom fit animal's nose. The oxygen/gas tube position can be adjusted inside mask. Also circuit can be taped to the table to help keep it positioned on the animal's nose or muzzle. **Jor-Vet**

| | | |

Jorvet Resuscitation Bag

For emergency artificial respiration. This device is ideal for administering either pure oxygen or room air to oxygen deprived patients. Special valve allows lung inflation upon compression of bag and passive exhalation of CO2 while fresh air refills the compressor bag. Two options feature your choice of hooking up to a central oxygen source or detaching and using room air. Attachment B will fit standard endotracheal tube or can be used with an airtight mask. Compression bag is heavy duty blue rubber.

Oxygen Cylinder/Tank Racks and Carts

Oxygen tanks are cumbersome and top-heavy items. The danger to clinic personnel from a dropped or toppled oxygen tank can be minimized with proper storage and handling. Jorvet offers a number of oxygen tank racks and carts to safely handle the common "H" or "E" cylinders used in veterinary facilities. Various regulators and yokes are also available.

Portable Oxygen Delivery System

The need for an emergency oxygen source can arise at any time. A clinic should be adequately prepared with the proper equipment that is made readily available and is stand-alone. Most clinics do not have central oxygen or may have just one oxygen tank that is dedicated to the anesthesia machine. The Jorvet portable oxygen delivery system is everything you need just add the oxygen!

The system includes:

- "E" oxygen tank with Yoke head - will hold up to 425 liters when full. (JOR688)
- Clic style regulator for "E" Yoke head, 0-15LPM dial. (JOR686R)
- Light weight wrench for opening/closing oxygen tank regulator. (JOR686W)
- Transport cart with 2 wheels that can go anywhere in the clinic. (JOR686)
- Clear oxygen tubing 7ft. Length (4pk) with a female DISS
- Fitting. (JOR655)
- Oxygen catheter 14fr delivers oxygen by nasal insertion or "blowby". (JOR656)
- Connectors: allow connection to standard anesthesia masks.

Oxygen connectors & Gas Hose Assembly

Jorvet Oxygen Connectors and Gas Hose Assembly

A tremendous variety of options are available to design your own oxygen delivery system or add to an existing setup. A wide range of patterns of oxygen connectors is available with the DISS and Ohio style, quick/connect being the most popular.

Jorvet

NOTES about connectors:

DISS = Diameter Index Safety System. These fittings are designed to prevent errors and standardized connections. Only oxygen DISS male threads will match female oxygen DISS threads. Nitrous oxide and other gases each have their own thread patterns.

NPT = National Pipe Thread Sizing.

These relate to anesthesia machine fittings.

Gas Hose Assembly. Jorvet

Design your own custom oxygen or other gas line. FDA medical grade conductive hose that is kink resistant, lightweight, and reinforced with tough nylon braiding. Fittings are chrome-plated brass. Standard 1/4" i.d. • Color-coded to specific gas; **green = oxygen**

| JOR537W | Chemtron female, wall recessed, quick disconnect, similar to JOR537q, but Chemtron style, not Ohio-style. | \$97.00/ea |

"Ganging" medical gas outlets has been done in human hospitals for many years. Now veterinarians are adding more gas and vacuum uses in their hospitals.

In addition to our oxygen outlets, you can order nitrous oxide, vacuum suction, and nitrogen outlets. They are ordered individually — this is the outcome when they are "ganged" together.

| | | |
|------------|-------------------------------|------------|
| JOR537NSC | Nitrous ceiling outlet | \$92.50/ea |
| JOR537NSWC | Nitrous chemtron wall outlet | \$92.50/ea |
| JOR537AVD | Vacuum DISS outlet | \$92.50/ea |
| JOR537VAC | Chemtron vacuum outlet | \$87.00/ea |
| JOR537NW | Nitrogen recessed wall outlet | \$94.00/ea |

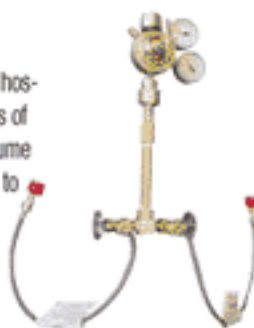

Hoses and connectors are available, call for more information.

Dual Tank Manifold **JorVet**

This dual tank manifold allows delivery of oxygen throughout the hospital or clinic via wall outlets or ceiling drops. The system consists of two pigtail hoses that connect to the "H" tanks. Regulator and volume gauges are included. Then copper pipe (not provided) is plumbed to areas of the hospital requiring oxygen. The unit is wall mounted.

JOR533MH \$828.00/ea

Vacuum Regulator

Vacuum/Suction Regulator for central vacuum/suction outlet with Chemtron connection. Use with JOR537vac shown above.

JOR530VR \$240.00/ea

Tank Mounting Double Cylinder Yoke **JorVet**

Small Animal Lexus Anesthesia System. Performance for a high standard of care with economy of initial investment. Precise machined fittings for an airtight connection. Powder coat finish is attractive and easy to clean. Available in mobile stand or table top models. Will accept most precision vaporizers. Soda lime canister is protect by its location under block. Also quick turn knob for each change of exhausted soda lime. Includes two anesthesia circuits, universal F circuit and non-breathing circuit.

JOR560E Protected, enclosed flowmeter with 200cc 4 lpm setting integrated O2 flush valve set at 15 lpm Smaller size, 970cc versus standard 1300cc

Anesthesia Products

Endotracheal Tubes

Silicon Endo Tube w/Connector

Silicone is the preferred material for endotracheal tubes. However, until now the cost was considered too high for use in most veterinary clinics. This is especially true on the larger sizes above 10mm.

- Endotracheal tube with inflatable cuff
- Connector included
- Lateral murphy eye at distal tip
- Sizes 3mm to 14mm
- Fully transparent
- Silicone Material Benefits:
 - Patient comfort. Silicone is a soft material that conforms to body contours. The soft distal tip lessens the chance for any airway tissue damage.
 - Reusability. Intended to be used over and over again. Silicone resists deterioration better than PVC or red rubber
 - Transparent. See any blood and mucous if they develop.

Endotracheal Tubes

Jorvet Silicon Endotracheal Tube with Wire Reinforcement

Silicone is a great material for endotracheal tubes because it provides superior biocompatibility and flexibility. These tubes have a metal wire reinforcement that spirals the length of the tube. This reinforcement gives rigidity and prevents any possible occlusion.

Features:

- Graduations to aid in depth placement
- Radiopaque line for location confirmation
- Fully transparent to allow observation for development of blood or mucus
- Lateral Murphy eye
- 15mm connector included

Endotracheal Tube Supplies

Jorvet Endotracheal Tube Stylet

Intubation is made easier when using a rigid stylet for the endotracheal tube. This stylet is a plastic coated malleable metal wire. One end has a rubber stopper that fits tightly over the endotracheal tube connector. It can slide to adjust for proper length. This stylet works especially well with silicon tubes that are less rigid than other tubes.

JOR595D9 \$52.00/ea

Jorvet Wye-Connector

Two legs fit standard 22mm anesthesia hoses, and third legs fits 15mm endotracheal tube connectors.

JOR249X Rigid \$2.10/ea
JOR249Y Swivel \$2.70/ea

JorVet

Humidification Management Exchanger **JorVet**

In human anesthesia the prevention of moisture and heat loss is a critical consideration. The smaller patient is especially a concern because hypothermia is more likely to occur. Humidification management exchangers are routinely used in human anesthesia. Veterinarians are starting to recognize the value of these products and make them part of their anesthetic regime.

The Humid-Vent is a compact connector that is a heat and moisture exchanger. They are placed in the breathing circuit between the "Y" piece (or "T" piece for non-rebreathing) and the endotracheal tube. Inside the connector is a special medium consisting of hygroscopic, naturally absorbent microwell paper. The Humid-Vent can be used up to 24 hours. After 24 hours they lose their effectiveness and must be replaced. In veterinary use they are typically replaced weekly. 5/box.

Cage-Mounted Humidifier w/Flowmeter **JorVet**

This oxygen delivery system will attach to any cage.

- 15LPM flowmeter
- Bubble humidifier (JOR653) add water or saline
- Attaches to cage bars via two "U" bolts or wide flatwashers
- Choices of male DISS fitting or male Ohio quick release for oxygen hose connection to flowmeter
- Oxygen tubing 7 ft (JOR655) Oxygen catheter 14ft (JOR656) for nasal insertion of "blow by"

JOR953 Male DISS fitting \$154.00/ea

Anesthesia Products

Nebulizer & Oxyhood

Feline Breathe Easy Inhalant Delivery System. **Jorvet**

A great aid in treating feline asthma has been improved! The "Feline Breathe Easy" has been a very popular product in treating feline asthma. The pocket spacer holds a metered dose inhaler (MDI) to deliver medication.

1. The new pocket spacer is called the Vortex and has three advantages over other plastic pocket spacers:
2. Anodized Aluminum chamber versus plastic. The anodized aluminum is non-electrostatic and delivers more medication from the MDI to the patient.
3. "Duckbill" shaped valve designed for minimal aspiratory effort, ensures a low loss of medication.
4. Vortex Cyclonic aspiratory flow pattern enhances aerosol delivery.

JOR843 \$37.50/ea

Pocket Spacer

JOR843D1 \$30.00/ea

JOR653

Jorvet Oxyhood

The challenge of delivering oxygen to an animal in respiratory distress is difficult in most veterinary clinical situations. An oxygen cage or an ICU unit is an expense beyond the budget of most clinics. The hand held use of anesthesia masks or nasal cannula is stressful to the animal and labor intensive. The Oxy Hood was developed to deliver oxygen in a less restrictive and stressful environment. The Oxy Hood uses the conventional cone shape of an Elizabethan collar and adds a clear plastic "lid" over the end. Numerous vent holes throughout the cone allows the excess gas to vent. Oxygen is provided to the Oxy Hood via a nasal cannula attached to the hood. The oxygen source uses a bubble humidifier to prevent drying of the respiratory tract.

Features:

- Collar is sewn to nylon fabric with a drawstring, plus velcro attachment allows for proper neck sizing
- Lid, or face of unit is attached with zipper
- Clear plastic material is used throughout for better observation and for the animal to see clearly
- Four sets of holes die cut to allow ventilation of carbon dioxide and to maintain the oxygen level at more than 60 percent
- Very small animals can be placed totally in the larger Oxy Hood like an oxygen tent
- Complete with humidifier, oxygen nasal cannula, and oxygen tubing

| | | |
|-----------|------------------|------------|
| JOR248KLA | 60" Hose w/o Bag | \$21.00/ea |
|-----------|------------------|------------|

Pediatric Universal "F" Anesthesia Circuit

For animals weighing 4kg 20kg.

Features:

- Smaller diameter tubing with less dead space than standard uni-limb system
- Pink colored inner tubing 40"
- One 40" hose

| | | |
|----------|------------------|------------|
| JOR248KL | 60" Hose 2 Liter | \$27.00/ea |
|----------|------------------|------------|

Pediatric Universal "F" Anesthesia Circuit

For smaller animals weighing between 4kg and 20kg. Includes a smaller diameter tubing with less dead space than the standard uni-limb system. Pink inner tubing.

| | | |
|----------|-------------|------------|
| JOR248K | With 1L Bag | \$24.00/ea |
| JOR248KA | Without Bag | \$18.00/ea |

Disposable Pediatric Anesthesia Circuit

For use with smaller patients, this lessens the amount of dead space. Consists of two 30" breathing tubes (5/8"), inhaler "Y" piece and mask elbow. Clear color.

| | | |
|---------|--------------------|------------|
| JOR248A | Without 1 Ltr. Bag | \$10.80/ea |
| JOR248B | With 1 Ltr Bag | \$12.75/ea |

Laboratory Equipment & Supplies

Blood Collection, Tubes & Centrifuges

Blood Collection Tube Red Top

Serum tubes have spray-coated silica and are used for serum determinations in chemistry, serology, and immunohematology.

| | | |
|---------|------------------------|------------|
| RED3.0 | 3/4ml Red Plain 100/bx | \$17.50/bx |

| JOR287E | 21", drilled, sterile | \$15.90/bg |
| JOR287F | 21", flex adaptor | \$18.00/bg |

Fixed Volume Pipettor

Pipettors are widely used in laboratories. They are an accurate method of transferring solutions or reagents. They also reduce exposure to samples or laboratory chemicals. Consisting of two parts, a reusable pipettor draws up fluid through the disposable tip which actually holds the fluid in a preset, precise volume. The fluid never reaches or touches the actual pipettor. The disposable pipettes cost only pennies and are discarded after each use. Pipettors are available in either fixed or adjustable volume. Adjustable Volume Pipettor. 200/pk.

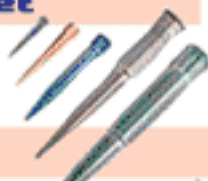

- Easy volume setting by simply turning the plunger
- Streamlined tip for access to narrow containers and tubes

| | | |
|---------|---------------|-------------|
| JOR856 | 0.05ml 200/pk | \$129.50/pk |

Lint-Free Lens Paper

Tissues. Special grade pop-up sheets remove oil immersion that collects and dries on objectives.

JOR869 3" x 4 1/2" x 4 1/2". 280/box. Similar to Kim Wipes. \$4.95/ea

Kim Wipes Acrylic Box Holder

Out of your way, but still at your fingertips. Mount Kim Wipes on the wall with these acrylic holders. Easily attaches with double back tape.

JOR877 130mm x 84mm x 122mm \$16.80/ea

Cadaver Bags **Jorvet**

Heavy-duty 4 ml black plastic. Strong enough to handle the sanitary disposal of animals. Full 35" x 48". 25 bags/pk. (not pictured)

JOR108 25 pack \$28.00/pk

Dose Adaptor

Fits all standard luer lock and luer tip syringes.

JOR206 4" \$8.10/ea

Microscope Cleaning/Service Kit

This kit will work for any and all microscopes. The microscope is a workhorse in the veterinary clinic. It is routinely exposed to many solutions between laboratory stains, immersion oils, and body fluids. These all can adversely affect the optical performance. Routine cleaning, adjustment, and alignment are a necessary function to get the best diagnostic quality images from your microscope. This job is difficult without the proper tools and instructions. The Jorvet microscope cleaning and service kit makes this possible for even the novice microscope user. The kit contains ten different components in a storage case.

- Micro-fiber lens cloth that removes dust and debris from the scope (9" x 9")
- Soft-bristled dusting brush for routine removal of dust and debris
- Set of 3 Allen Wrenches: 1.5mm, 2.0mm, 2.5mm
- Micro-glide gear lubricant
- Precision screwdriver set (5) for very small microscope screws
- Air duster 8 oz. pressurized aerosol can with exterior tube
- Cotton tip applicators (100) for cleaning objectives
- Friction collar small double-sided wrench
- Black nylon zippered storage case. 4" x 7" x 10". 1.9 lbs.
- Detailed illustrated service manual, and a glossary of common microscope terminology

JOR869K \$76.00/ea

Microscope Accessories Custom Organizer

Organizer. A wide variety of items accumulate around a microscope station: slides, pipettes, lens paper, cleaning solutions, immersion oil, and cover slips, etc. These all can be organized in an attractive, clear acrylic display of divider boxes. Each divider box has double-sided foam tape for custom attachment to the central station.

JOR869X 11"W x 14"L x 11"H \$120.00/ea

Cell-VU Hemacytometer System Kit

The safety hemacytometer system for use with all manual-counting procedures.

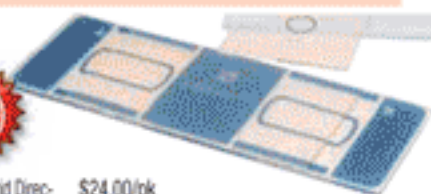

Sperm • CSF • WBC • Urine

Consists of both the slide and cover slips

Slide is dual chambered providing for two determinations per sample

Cover slips are laser-etched grid that is easy to view

JOR821X Each system consists of: 3 slides with dual chamber and 6 cover slips with etched grid Directions for sperm concentration included. \$24.00/pk

Jorvet Neubauer Hemacytometer

Designed especially for counting blood cells with the "unopette." Double rulings are visible through a wide range of illumination. Neubauer rulings are 0.1mm below cover glass. The "H"-shaped moat offers two counting areas. Fused rhodium on glass provides distinct lines.

JOR821 Fused rhodium on glass provides distinct lines. \$129.00/ea

Lab Eartag Applicator

Has specially designed head where tag slips in easily. Allows for quick and simple placement of tag in ear.

JOR49LTA \$92.00/ea

Jorvet Lab Eartags

These small numbered tags are used extensively in research institutions around the world. The small metal brass tags are perfectly suited for mice and rats. They are easy to apply with metal applicator. (JOR49Lta) Choose numbers 1-10,000. 100/box.

JOR49LT 100 pk. \$36.00/pk

Microscope Slides & Accessories

Microscope Slides

Pre-cleaned, high quality glass. Hard, colorless, non-corrosive. Ground, polished edges. 1" X 3" 72 per box.

| | | |
|------------|----------------|-----------|
| MICROFROST | Frosted, 72/bx | \$2.49/bx |
| MICROPLAIN | Plain, 72/bx | \$2.49/bx |

Microscope Slide

High-quality glass slide that will serve every clinical lab need from permanent mounts to fecal samples.

- Slides individually separated by thin tissue paper to prevent sticking together.
- Smooth edges with beveled corners
- 1" x 3" x 1.2mm (1/25") thick (frosted)

| | | |
|---------|-------------------------------|-----------|
| JOR335F | Frosted Edge, 1" x 3", 72/box | \$4.40/bx |
| JOR335 | Clear, 1" x 3", 72/box | \$3.30/bx |

Cover Glass

Microscope cover glass 1 oz. box #1 thickness 22mm X 22mm

| | | |
|------------|-------------|-----------|
| COVERGLASS | 22mm x 22mm | \$2.50/bx |
|------------|-------------|-----------|

Glass Cover Slips

Ultra-thin glass. 22mm x 22mm (~1" x ~1"). 100/Box.

| | | |
|--------|---------|-----------|
| JOR336 | 100/box | \$2.95/bx |

| JOR323D4 | Safranin Counter Stain, 250ml | \$9.60/ea |

Iodine Stain Kit **Jorvet**

Stain Concentration. Useful in identifying difficult to see parasites on fecal flotation or wet mounts. These include protozoan parasites like Giardia, Coccidia, and also helminth parasites. This stain is picked up readily by protozoan nuclear structures and also stains their glycogen masses. Some parasites, like Giardia are very difficult to view unless stained in this manner. 500ml with 4 oz. dropper bottle. 2.1% Iodine Stain. 500ml.

| | | |
|----------|-------------|------------|
| JOR325FM | 2.1%, 500ml | \$33.30/ea |
|----------|-------------|------------|

Live/Dead Semen Stain **Jorvet**

A necessary component of any male fertility exam is a microscopic evaluation of sperm morphology. The Jorvet Live/Dead Semen Stain is a eosin-nigrosin based stain that will stain sperm from every species. 2 x 7.5 ml bottles per package. Complete with detailed instructions and diagrams of abnormal spermatozoa. Keep refrigerated.

| | | |
|---------|-------|------------|
| JOR326S | 15 ml | \$18.60/ea |
|---------|-------|------------|

Lactophenol Cotton Blue **Jorvet**

This stain is useful for fungal exams. It is used in combination with the 10 percent KOH (JOR326). First the KOH clears various debris; then the lactophenol cotton blue will stain the fungal elements a deep blue. 120ml.

| | | |
|---------|-------|------------|
| JOR326B | 4 oz. | \$16.20/ea |
|---------|-------|------------|

New Methylene Blue Stain

This stain has many veterinary applications, from reticulocyte count to estrus vaginal smears. 250ml.

| | | |
|---------|---------------------------------|------------|
| JOR324A | 250ML Methylene blue stain 2 oz | \$8.70/ea |
| JOR324 | 250ml | \$21.00/ea |

Potassium Hydroxide 10% **Jorvet**

Useful in dissolving keratin and other debris when examining a slide for fungal components. 250ml.

| | | |
|--------|------------|-----------|
| JOR326 | 10%, 250ml | \$9.60/ea |
|--------|------------|-----------|

Sudan III Fecal Stain **Jorvet**

A quick diagnostic test is to use Sudan III stain as an aid in the assessment of maldigestion/malabsorption syndromes. The Sudan III will selectively stain lipid droplets orange on a fecal smear. 250ml.

| | | |
|--------|-------|------------|
| JOR325 | 250ml | \$12.60/ea |
|--------|-------|------------|

Coplin Staining Jar **Jorvet**

The Coplin staining jar is used for holding microscope slides during staining procedures. It is made of polyethylene. Internal grooves hold 6-8 standard slides.

| | | |
|--------|--------------------|------------|
| JOR814 | 59mm base, 114mm H | \$14.40/ea |
|--------|--------------------|------------|

Coplin Glass Jar **Jorvet**

Clear thick flint glass with internal ridges for separating slides from each other.

| | | |
|---------|--------------------------|------------|
| JOR814X | with black screw cap lid | \$12.00/ea |
|---------|--------------------------|------------|

0.2 Micron Filter **Jorvet**

Filter is used when transferring serum to 6ml syringes. Procedures will require multi filters. Syringe not included.

| | | |

|---------|---------|-----------|

pH Checker, Counters & Portable Bunsen Burner

Jorvet Checker pH Meter

Small animal veterinarians spend a great deal of time discussing special dietary management and urinary acidifiers for controlling urinary tract disease. The maintaining of urine pH between 6.0 and 6.8 is necessary to minimize struvite crystal formation; usually paper reagent strips are used to determine urine pH through very subtle color changes. Using a pH meter is much more accurate than simple urine reagent strips.

Features:

- Economical, costs less than a bottle of reagent strips
- Fast, easy and highly accurate calibration: 0.2 pH at 68°
- High resolution: reads down to 0.01 pH units
- Small sample required, will fit into small container
- Small lightweight design: 2 1/2 oz with 6" electrode
- Battery operated with 3000 hour life

JOR753 Includes pH meter, screw-on electrode, buffer kit \$67.00/ea and storage solution.

Checker pH meter, complete kit,

Checker pH Meter Kit. Includes pH meter, screw-on electrode, buffer kit and storage solution.

JOR753K \$141.00/ea

LPC-154 30 ml, volume 60mm rim \$1.64/ea

Ceramic Mortar and Pestle

The pharmacy aid for crushing tablets into fine powder. Fine quality ceramic mortar and pestle. Smooth surface with pouring lip. 4 oz.

JOR932 4 oz. \$41.50/ea

Portable Bunsen Burner

This portable completely self-contained compact burner features instant ignition for a fast and reliable startup every time. Simply rest your hand on the touch sensitive pad to instantly ignite the burner. Lift your hand from the pad when you're done to extinguish the flame and shut the unit off. The touch activated burner also features a handy dual use locking mechanism that will either lock the flame on, for those longer jobs, or function as a safety lock that prevents accidental ignition. Weighing just 11.2oz. 1 year warranty. Touch Activated Ignition Pad

- Self Contained & Butane Refillable
- Flame Adjustable Dial
- Butane Blue or Yellow Flame
- Safety Lock Prevents Ignition
- Lightweight and Portable - Moves easily between workspaces
- Includes 1 AA Battery
- Approx 65 mins burn time, will vary according to flame length

JOR1046 Sterilizes Instrument \$139.00/ea

Jorvet Cell Counter

Differential Cell Counter allows the percentage of each type of white blood cells to be counted (leukocytes). Every stroke makes a distinct sound, and when a total of 100 is reached a bell will ring.

JOR505A 5 key \$170.00/ea

JOR505B 8 key \$187.00/ea

Hand Held Tally Counter

Used for counting blood cells, bacteria colonies, drops of liquid or any repetitive event. Tallies up to 9,999. Features a quick reset button and a finger ring for a secure grip. Sturdy, chrome-finish metal construction.

JOR505 \$12.90/ea 

Jorvet Stat Tracker

This is a clever device for helping keep track of timed lab tests. The green light illuminates during the start process, at the halfway point the yellow light illuminates, and then the red light for the final alert. Select between six audible alerts. Time displayed on dual-line, 10-digit LCD. Operates on 110AC.

JOR812 Measures 4 1/2" x 4 1/2" x 9 1/4". \$67.00/ea

Veterinary Virology Sampling Kit

This kit is designed for collection and transportation of viral cultures. The kit consists of a specially designed flocked sample swab and a 1 ml universal transport medium specific for viral culture. Swab features: Velvet or brush textures of swab end is customized to collect maximum target samples. This swab features a unique molded breakpoint enabling safe, reliable break off and 6" length. Universal Transport Medium Features: Volume 1ml. Safe, shatterproof polypropylene skirted tube with distinctive internal conical shape enabling centrifugation of samples and allowing tubes to stand upright on the laboratory bench. Product can be conveniently stored at room temperature prior to use. Media formulation includes antibiotics to inhibit bacterial and fungal flora in patient samples. Three glass beads in each tube facilitate the release and dispersion of patient sample material and virus particles from the swab during vortexing.

JOR1031 \$3.40/pk 

Plastic Forceps

Centrifuges

Tabletop Centrifuge

A truly versatile 6 place bench top centrifuge. Perfect for the office lab or as a backup unit for a busy full service lab. Has an adjustable speed control for spinning urine and speed sensitive samples, a latchable lid and a safety switch.

- 6 place rotor (2-15 ml tubes)
- 30 minute timer
- Speed control (300 - 3,200 rpm)

C816 6-Place rotor \$264.00/ea

Microhematocrit Centrifuge

Jorvet

Microhematocrit Centrifuge. This durable centrifuge provides fast results. Features:

- Tube cover with built-in reader for centrifuge readings and reader card
- Auto off 15 minute timer (on/off switch with indicator light)
- Safety shut-off switch in impact resistant plastic window for safe viewing
- Brush less motor for smooth, quiet operation
- 24 tube (75mm capillary ea.) capacity
- Metal body construction
- Suction cup feet to prevent slipping
- 110V power

JOR503M 24-Place rotor \$870.00/ea

Jorvet Portafuge

Jorvet

The portable 8-place Porta-fuge is an economical fixed speed centrifuge designed for spinning on the go. This unit accommodates most test tubes from 3ml - 15ml. This unit is virtually maintenance-free and the lid port allows easy viewing and taching of specimens while in use. Simply insert the cigarette plug into your car's power outlet for quick blood separation at 3300rpm.

JOR501P Portable 12v \$295.00/ea

Universal Centrifuge

Jorvet

A truly affordable 24 place centrifuge with no extra charge for angle head rotor and 24 tube carriers. Features a top speed of 3,500 rpm, a built-in digital display tachometer, brake, speed, 30 minute timer, stainless steel guard bowl and latchable lid with safety interlock switch.

- 24 place
- Rotor (5-15 ml tubes)
- 30 minute timer
- Speed control (300 - 4,20000 rpm)

JOR502M 24-Place rotor \$1,150.00/ea

Jorvet Anti-Vibration Mat

A special 3M material that is designed to quiet noisy centrifuges or other vibrating instruments. The mat is chemical resistant, easy to clean, and will fit easily under most centrifuge models. The mat is blue.

JOR504X Blue, 14" x 14" \$40.00/ea

JOR504Y Blue, 15" x 18" \$53.00/ea

Jorvet

Jorvet Ultra Select Centrifuge

Jorvet

Are you spinning your samples at the correct RPM and G-force? Take the guesswork out of what speed your centrifuge should run on different fluids. This centrifuge uses the correct CLIA-recommended speeds for proper separation. Cell structures will not be damaged due to excessive G-forces and proper separation will always be achieved for urine, semen, fecals, blood, etc. The Ultra Select centrifuge features a 4-position speed dial to select the correct speed for each fluid.

- Specifications:
- Speeds: blood: 3,300 rpm, 1,314 Gs fecals: 1,500 rpm, 275 Gs urine/semen: 1,800 rpm, 400 Gs others: 800 rpm, 80 Gs
 - Same body and chassis as JOR501U
 - Auto-off 30-minute timer with bell
 - 110V AC (220V available)

JOR501W \$486.00/ea

Jorvet Ultra 8 Centrifuge

Jorvet

Ultra 8 Centrifuge is nearly indestructible. The one-piece aluminum alloy cast body is stable and strong, and the wide stance eliminates vibration and wobble. The new triangle design saves lab space, and can be easily tucked into a counter corner. The safety shut-off switch is integral in the locking latch, and the clear plastic view port allows for safe observation and speed calibrations. Available ready-to-use, and includes rubber tube cushions to accommodate tubes ranging from 3-15ml. Affordable. Features:

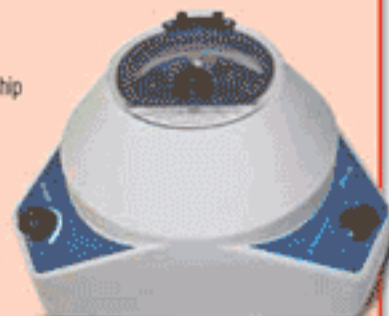

- Routine separation of fluids (i.e., blood and urine)
- 30-minute timer (on/off switch with indicator light)
- Spins up to eight 15ml tubes, 120ml maximum volume
- Impact resistant clear locking lid with safety shut-off switch
- One-piece body with suction cup feet for stability
- Metal rotor housing with smooth, quiet operating brushless motor
- Variable speed: 0-3,300 rpm
- 110V power
- 9" H X 13" W x 13" D. 151/2 lbs.
- One-year warranty on materials and workmanship

JOR501U Variable-Speed \$410.00/ea

Jorvet 4 Place Centrifuge Rotor

JOR501SD1 50mm \$510.00/ea Jorvet

Centrifuges & Tubes

Centrifuge w/ IRAP and Regular Rotor

Horizontal centrifuges will recover significantly higher numbers of parasite ova than fixed-angle centrifuges or standing fecal flotation procedures. The JOR501sq centrifuge tubes hang vertically while at rest, allowing for the test tubes to be filled completely with a coverslip placed on top of the tube. The tubes then accelerate slowly and swing to a horizontal position while spinning. After completion, simply remove the coverslip and place directly onto a microscope slide. The J-501sq also performs routine urine and semen separations, high-speed blood separations in minutes, and can run microhematocrit samples. New air-piston lid hinges allow the lid to be held at any angle, which means it will fit on nearly all counter tops with low cabinets above.

Features:

- Touch-pad time and speed controls.
- 4-character digital display screen.
- 60 minute programmable timer.
- 800-5,000 rpm programmable speed.
- Rubber feet to prevent slipping.
- Impact-resistant lid with view port.
- One-year warranty on materials and workmanship. Dimensions: 133/4" W (350mm) x 151/2" L (394mm) x 141/4" H (362mm). Weight: 38.2 lbs (17.3kg).
- Includes Crit carriers (J-501c) for microhematocrit tubes (see below).

JOR548A 1.5ml, 500/pk \$27.00

Swing Arm Centrifuge 8-3K

Horizontal separation offers many advantages over traditional fixed-angle separations, including tighter straight-line gel separations to reduce re-spins and re-mixes. Additionally, spun fecal floatations in the veterinary markets produce much higher ova recovery results when spun with coverslips on top of the test tube. The Swing-out Select spins 3ml-15ml test tubes, up to 17mm x 128mm, at speeds up to 3,000 rpm. Select either Blood, Urine, or Fecals on the speed control, set the 30-minute timer, and the Swing-out Select will spin at the correct speed. The all-metal rotor is built for strength and durability, and the wide mouth bowl allows for easy cleanup. The whisper-quiet, brushless, heavy-duty motor can handle high volume use and high-speed full loads for years to come. Specifications:

- Front-access calibration panel
- Brushless, maintenance-free 110V motor (220V brushed motor available)
- 8 test-tube (3ml-15ml) capacity
- 4-place 50ml rotor available
- Maximum tube size 17.5mm x 133mm
- Includes 3-prong power cord, 8 tube shields, 8 tube cushions (for shorter tubes).
- Dimensions: 12" H (305mm), 18" L (457mm), 14.5" W (368mm). Weight: 33 lbs (15kg)

Swing Arm Centrifuge Digital Control 50ml

4 place swing arm centrifuge with 50ml rotor, digital control.

JOR501ST \$2,199.00/ea

Tube Sleeves for Swing-Arm Centrifuge

JOR501SD2 \$23.00/pk

Swing Arm Centrifuge Digital Control

JOR501SQ 15ml \$1,800.00/ea

Jorvet Crit-Carrier

The Crit Carrier is specifically designed to run hematocrits on your Horizontal Centrifuge (minimum 5,000 rpm). Simply insert your hematocrit capillary tubes into the carrier, place the carriers in opposing tube sleeves for a balanced load, and spin at 5,000 rpm for 8 minutes for a true separation. The Crit Carrier converts the centrifuge into a Hematocrit Centrifuge. Save counter space and the need to purchase an additional hematocrit centrifuge. Spins up to 8 standard 75mm capillary tubes.

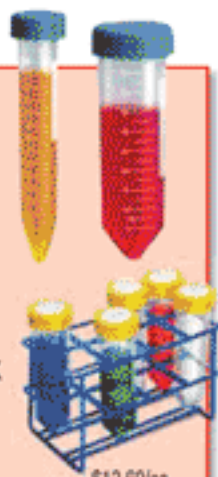

JOR501C \$215.00/pr

Jorvet Conical Centrifuge Tubes

Disposable polypropylene centrifuge tubes are sterilized for critical lab studies. Include polyethylene screw cap with flat top for easy writing or affixing labels. The tubes have bold, easy-to-read white graduations and a large writing area.

JOR546B w/Screw Cap 15ml, 100/bag \$22.50

JOR546D w/Screw Cap 50ml, 100/bag \$42.00

Jorvet Large 50ml Wire Tube Rack

Epoxy-coated wire rack that holds 50ml tubes. Tubes not included.

JOR879 Single 50ml Tube Rack, Interlocking. 3" x 2 3/4" high. \$12.60/ea

JOR879A 50ml Tube Rack. Holds eight 50ml Tubes. 5 3/4" x 3" x 3 3/4" high. \$33.00/ea

Laboratory Equipment & Supplies

Incubators & Spray Wash Bottles

Jorvet Incubator

A compact, inexpensive, and reliable incubator that is perfect for incubating cultures. Do a better job of diagnosis and treatment of bacteriological cases in your clinic with the use of this incubator.

- Clear plexiglass window
- 0.67 cubic foot, 12" x 8" x 12" chamber
- 15 lbs.
- UL listed
- 24-month limited warranty

Tieglund Modified Culture Swab

Jorvet

The original uterine culture swab. Swab is covered with outer flexible plastic tube. After the culture is taken, a scored ring 3 1/2" from the end allows the tube to snap off and is plugged with two included plastic caps. This allows for ease of transport and storage.

JOR274 33"L. 25/box. \$108.00/pk

Jorvet Safety Labeled Wash Bottles

Ensure leak proof dispensing of your common lab solutions. Polypropylene closure is 53mm W with a leak proof design. Easy-to-read and color-coded for content recognition and informative safety labeling:

- Printed bottle: Dept of Transportation (DOT)
- National fire protection (NFPA) codes and symbols
- Chemical abstract service number (CAS)
- Protective equipment symbols and target organ information All this information makes your workplace safer.

Swabs

Agar Gel Transport Swab

Veterinarians often encounter challenging infectious cases that require a bacterial culture and antibiotic sensitivity. A quality transport swab will preserve the specimen from the patient to the laboratory, whether the lab is in the next room or in the next state. Individually wrapped, 50/carton. Features:

- Extra-long 5 1/4" swab shafts enable easier access to difficult sites without contamination
- Soft rayon swab tips are inert and non-toxic to micro-organisms and patients
- Tamper evident tube seal
- Large pre-attached label
- Non-breakable polypropylene tube with hour glass design squeezes out undesirable air harmful to fastidious bacteria, and prevents disintegration of gel column during transportation
- 5ml deep agar gel column insures maximum protection, improves sample viability, and optimizes moisture control

Jorvet Culture Swabs

Jorvet

Getting a culture or cytology sample from the equine guttural pouch is a real challenge. The conventional swabs do not have the proper angulation for entry into the guttural pouch. This 22" culture swab is bent to about a 30° angle. After the sample is obtained, it can be removed with the outer sheath still in the guttural pouch. Then medication can be infused if found necessary. The swab is covered by a methylcellulose plug prior to entry and to avoid contamination. 5/pk. (not pictured)

Inoculating Loop with Handle

Jorvet

Inoculating loops are a necessary part of doing any sort of bacterial culturing. These Nichrome wire loops are attached to an anodized aluminum handle. The wire loops are durable plus rapidly cool following heat or flame sterilization. The loop is a 3mm diameter or 26g wire. Each.

JOR549C \$10.80/ea/ea

Laboratory Equipment & Supplies

Fecal Testing, Capillary Tubes & Insemination Kit

Fecatector Diagnostic Kit

A unique, sanitary leak-proof collection device, to be used by the client for obtaining fecal samples from pets. The same container then doubles as the laboratory flotation device. This eliminates the need for technicians to transfer or contact the stool sample. Comes complete with laboratory instructions card and easy-to-follow client instruction sheets. Comes in a compact display box for wall-mounted or counter use.

606-2799 50 kits per box \$17.99/bx

Hydrometer for Fecal Flotation Solutions Jorvet

This hydrometer is perfect for testing fecal flotation solutions in the narrow specific gravity range of 1.18 to 1.25. The best results for detection of parasitic ova are using solutions in the S.G. range. This hydrometer is the best and easiest way to confirm you are using the right solution. 6" long glass suggest clear round graduated cylinder (JOR281d2) for holding and floating hydrometer.

JOR501H Gravity Range of 1.18 to 1.25 \$37.30/ea

Sheather's Sugar Flotation Solution

Find more eggs! Recent studies have proven that centrifugation of fecal samples is for more effective than traditional standing passive flotation. Furthermore, a flotation media must have a higher specific gravity than 1.20 to float many of the common parasite ova. Sheather's sugar solution has a specific gravity of 1.27 which is high enough to float any ova. Basic Physics: If an ova has a higher specific gravity than the flotation solution, it will not float nor will it be detected. Jorvet

X-Ray Products

X-Ray Illuminators & Cassette Accessories

Jorvet Slimlite X-ray Illuminator

High quality radiographs should be matched with a high quality viewing box for the maximum diagnostic image. The Jorvet Slim Lite viewing box uses new "Edgelite" technology with proprietary light diffusion material giving an almost sunlight illumination with 5,000° Kelvin color temperature. In addition, this "Edgelite" format allows a much thinner or streamlined attractive profile than other viewing boxes.

X-Ray Products

Stands, Positioners, Laser Pointer & Cassette Accessories

Ultra Stand X-ray Machine Support

This stand holds a portable x-ray machine for steady, but adjustable x-rays. Portable x-ray units can become heavy and difficult to hold steady if a variety or wide range of x-rays need to be taken.

- Weighs just 16 lbs including 4 locking caster wheels
- Setup takes only minutes
- Trigger release allows movement up and down in 1" increments
- Folds up for ease of storage

JOR493M Stand Only \$760.00/ea

Jorvet Quick Shot X-ray Cassette

This handy device holds the cassette at arm's length directly attached to the portable x-ray unit. The "Quick Shot" allows a single person to take films and eliminates the need for assistance.

- Lightweight aluminum weighs only 2 1/2 lbs.
- Adjustable handle allows usage with all commercial portable x-ray units.
- Holds wide range of cassette and grid sizes
- No guess work in achieving proper focal lengths
- "Bubble" level mounted on top of the handle and side of the cassette holder
- Adjustment knobs allow positioning of cassettes at all angles
- Folds flat for easy storage
- Foam padded handle has holder for x-ray machine trigger
- Removes many positioning variables

JOR493X X-ray Machine not included \$420.00/ea

Tomahawk X-ray Cassette Holder

This hand held positioner safely holds 8x10", 10x12", and 14x17" cassettes for a wide range of views and maintains safety by avoiding exposure to the x-ray beam. Features:

- Lightweight aluminum weighs 2 1/2 lbs.
- Spring loaded clamp holds full range of cassettes sizes with easy changing
- Rotating grip handle telescopes in length
- 2 handles provided:
- Long handle 32" - 54"
- Short handle 0" - 20"
- Has non slip black plastic grip
- Center ground support leg also telescopes from 0-20" in height
- "Bubble" level on top helps give accurate position
- Folds up for easy storage in mobile vet units.

JOR492M \$355.00/ea

Jorvet Redden Navicular Stand

Getting consistent and repeatable navicular views is one of the toughest equine X-ray challenges. This design aligns all 3 factors—the machine, the hoof, and the cassette.

- Spacer bar holds X-ray machine at correct focal length
- Outstanding evaluation of navicular bone is possible through a 45° oblique view
- Stand is made of cast aluminium
- Stand will pay for itself the first two times you do not have to retake navicular views

JOR495RB Navicular Stand Only \$162.00/ea
 JOR495R With X-ray machine holder. Designed for the min-X-ray unit. \$260.00/ea

Jorvet Equiprax X-ray Positioner

Clinical field situations often result in varying angles, distance, and exposure. Lesions (particularly on the navicular bone and the 3rd phalanx) can be obscured or eliminated by variations in the radiographic position. The Equiprax Radiograph Positioner was designed by an equine practitioner to give consistent quality diagnostic radiographs. Allows for five different views.

JOR275 \$198.00/ea

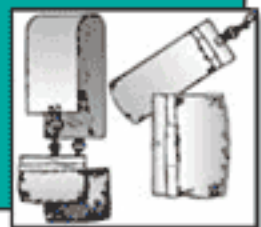

Jorvet X-ray Sandbags

New regulations regarding exposure to radiation make it difficult to hold animals in position while taking radiographs. These bags are made of heavy nylon navy blue canvas filled with sand (not included). Heavy-duty plastic liners provide leak proof use.

- One 23" x 7" pillow weight
- One 11" x 11" pillow weight
- Body sling with snap hooks use either two 8" x 8" hanging weights OR two 6" x 17" hanging weights
- One body sling

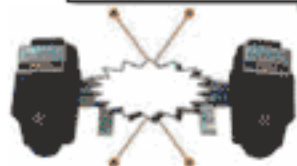

JOR685 7 pc Set Without Sand \$33.00/ea

Dual Laser Pointer for X-ray Units Holder

Standard collimator white light is difficult to see in outdoor sunlight or even indoor light. This makes achieving the proper focal distance difficult. This small dual pointer mounts on a portable x-ray unit. The twin beams cross at the preferred 26" film focal distance and can be seen in any lighting situation. Uses standard watch batteries.

JOR493W Uses standard watch batteries. \$280.00/ea

Jorvet Radiograph Cassette Tunnel

Navicular and skyline shots are easy with this cassette tunnel plus it protects your delicate cassettes.

- Lightweight shatter resistant polycarbonate top with solid oak frame
- Bottom is lined with lead to prevent back scatter
- Holds 8" x 10" standard cassettes
- Has a toe grab to hold hoof in place
- Tilting support base allow any angle change or upright shots
- Non-slip surface
- Carrying handle

JOR494MA Uses standard watch batteries. \$240.00/ea

JOR494M Uses standard watch batteries. \$232.00/ea

 JOR678B 14" X 17" \$27.00/ea

X-ray Measuring Caliper

Getting the correct thickness of your patient is critical to proper KVP setting and quality diagnostic radiographs. Measurements in centimeters only. Stainless steel.

JOR684 Stainless steel \$25.50/ea

Dental X-ray Film Mounts

Veterinarians are increasingly using specific dental x-ray machines. A dental x-ray unit uses very small dental film and requires multiple film pieces. This small film is difficult to store and catalog correctly. The dental film mounts help solve this problem.

JOR977 Handy dispenser box containing 1,000 mounts for 500 pairs in vertical side-by-side format. You tear off as many as needed. \$44.00/ea

Miscellaneous & Reference

Canine & Feline Models

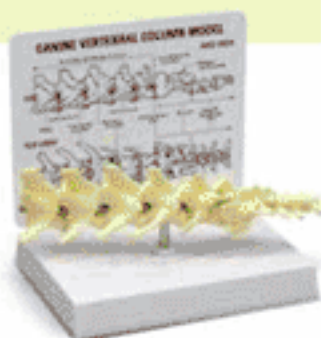

Canine Lumbar Model

Vertebral column of average size dog features 5 lumbar vertebrae and discs, caudal (tail) vertebrae and sacrum

- Model Size: 8" x 2" x 2"
- Card Size: 6-1/2" x 5-1/4"
- Base Size: 6-1/2" x 5" x 1"

G1080 8" x 2" x 2" \$84.20/ea

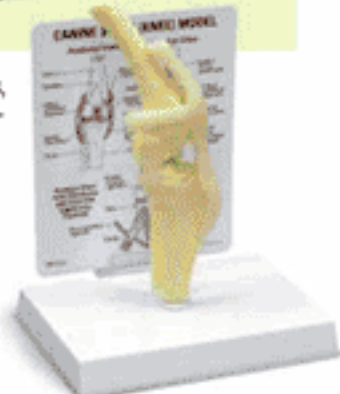

Canine Knee Model

Average size dog knee with femur, fibula, patella and tibia bones, lateral and medial meniscus, anterior and posterior cruciate ligaments, plus 6 more ligaments and tendons.

- Model Size: 2" x 3-1/2" x 7"
- Card Size: 5-1/4" x 6-1/2"
- Base Size: 6-1/2" x 5" x 1"

G1050 2" x 3-1/2" x 7" \$76.60/ea

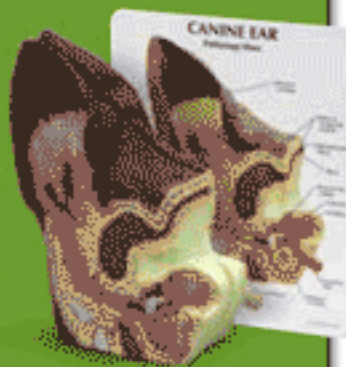

Canine Ear Model

This 2-sided, average size, canine ear depicts: a normal side with cochlea, auditory tube, tympanic bulla, middle ear cavity, tympanic membrane, horizontal canal, vertical canal, auricular cartilage, pinna and temporalis muscle. The diseased side illustrates: inflamed inner ear structures, inflammatory exudate in tympanic bulla, ear canal with partial occlusion from cellular hyperplasia, inflammatory exudate and an inflamed outer ear.

- Model Size: 4.75" x 2.75" x 2"
- Card Size: 5-1/4" x 6-1/2"

G1200 4.75" x 2.75" x 2" \$84.00/ea

Ear Model

Otic exams are a common daily practice for veterinarians. However, the client never sees what the veterinarian sees. This cut-away model outlines the normal anatomy of the ear plus associated nearby structures. It also illustrates common ear disease like otitis externa, polyps and even has a foxtail. The pinna shows a hematoma and a fly strike. Accompanied with a laminated color explanatory chart. Hand painted in beautiful colors.

JOR772 3 1/2"W x 6"H x 2"D. \$76.00/ea

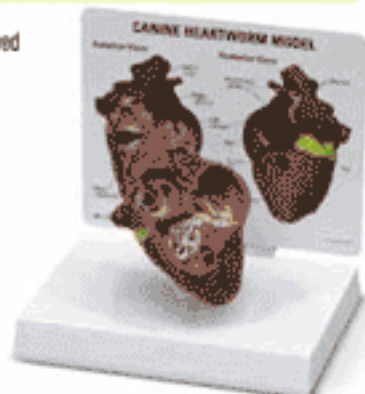

Heartworm Disease Model

Cut-away view of an average size dog heart with improved decoration of arteries, fat & 3 sections of heartworm parasites.

- Model Size: 3" x 3-1/2" x 4-1/4"
- Card Size: 6-1/2" x 5-1/4"
- Base Size: 6-1/2" x 5" x 1"

G1150 3" x 3-1/2" x 4-1/4" \$76.00/ea

Feline Skeletal Model

Model of the skeleton of a cat features a removable tail and skull with jaw on springs. Mounted on Base.

CHC1 16"L x 9" H \$89.95/ea

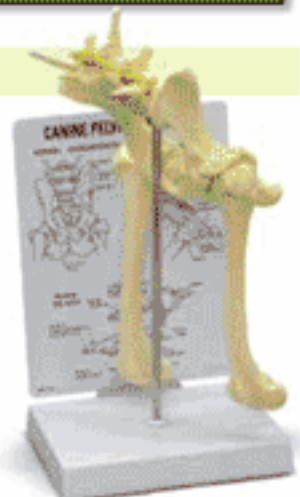

Canine Hip Model

Average size dog pelvis that features both normal and osteoarthritic bone, body of ilium, greater trochanter, head in acetabulum, herniated disk, neck of femur, nerve, sacrum, and third trochanter.

- Model Size: 7" x 5-1/2" x 11"
- Card Size: 8-1/4" x 6-1/4"
- Base Size: 6-1/2" x 5" x 1"

G1060 7" x 5-1/2" x 11" \$110.00/ea

Canine Skeleton Model

Skeleton of an average-sized dog with removable tail and skull with jaw on springs. Mounted on base.

CHD1 21" x 12" \$89.95/ea

Canine & Feline Models

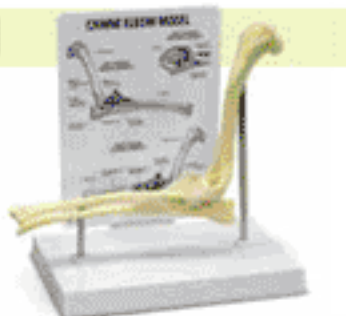

Canine Elbow Model

Healthy left elbow of average size dog includes: humerus, radius and ulna bones; plus 6 ligaments.

- Model Size: 9-1/2" x 1-3/4" x 7-1/2"
- Card Size: 6-1/4" x 8-1/4"
- Base Size: 6-1/2" x 5" x 1"

G1070 9-1/2" x 1-3/4" x 7-1/2" \$82.20/ea

Canine Shoulder Model

Average size dog shoulder with scapula, humerus, biceps brachii tendon, coracobrachialis tendon, lateral glenohumeral ligament, medial glenohumeral ligament and transverse humeral ligament.

- Model Size: 11-1/8" x 3" x 2"
- Card Size: 6-1/4" x 8-1/4"
- Base Size: 6-1/2" x 5" x 1"

G1075 11-1/8" x 3" x 2" \$90.20/ea

Canine Hip/Lower Back Model

- One hip joint features normal anatomy, the other shows pathology, (i.e., hip dysplasia)
- Normal and abnormal inter-vertebral discs
- Spinal cord and nerve roots are in yellow
- Lumbosacral joint

JOR775 Wood base 7" x 9" \$118.00/ea

Canine Skeleton Model

- Canine Skeleton, skeletons are a great client education tool plus the veterinarian can refer back to them.
- Made from urethane plastic.
- Less fragile or brittle than unprotected natural bone
- Mounted on a wood base

JOR774 6"W x 11"H x 31"L. \$110.00/ea

Heart Model

Heart Model with adult heartworms. This two-piece model offers a dramatic representation of what a heartworm infection can look like. Accompanied with a laminated color explanatory chart. Hand painted in beautiful colors.

JOR773 \$76.00/ea

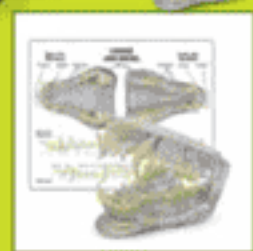

Canine Jaw Clear Model

Healthy canine hinged jaw showing the roots of all teeth (incisors, canine, premolars, molars). Can be separated for better observation.

Model Size: 4-3/4" x 2-3/4" x 2"
Card Size: 6-1/2" x 5-1/4"

G1196 4-3/4" x 2-3/4" x 2" \$100.00/ea

Canine Jaw Model

Average size canine jaw depicts healthy teeth on the right side and diseased/damaged teeth on the left. The nine pathologies featured are: fractured canine, periodontal disease, tartar accumulation, plaque, gingivitis, worn incisors, retained deciduous teeth, gingival recession and missing premolar. The jaw may be opened, closed and separated for closer study. **Jorvet**

Model Size: 4.75" x 2.75" x 2"
Card Size: 6-1/2" x 5-1/4"

ADM-1 Canine 4.75" x 2.75" x 2" \$128.00/ea
ADM-2 Feline 2.75" x 2" x 1.125" \$118.00/ea

Feline Jaw Clear Model

G9191 \$100.00/ea *Not Pictured*

Dental Model (Clear)

Beautiful clear acrylic models are great demonstration tools for clients. The entire dental arcade is shown in anatomically correct presentation. The shape of roots can be seen. Teeth are natural color.

JOR770D Canine \$310.00/ea
JOR770F Feline \$260.00/ea
JOR770DF Set of clear dental models \$486.00/ea

Canine and Feline

Pathology Dental Model **Jorvet**

These realistic models are all in natural colors of gum tissue and teeth. One side shows examples of over 20 common dental problems, the other side shows normal anatomy. Accompanied with a laminated color chart identifying all pathologies.

JOR771S Set of 2 Canine & Feline Models \$180.00/ea
JOR771 Canine Model \$101.00/ea
JOR771C Feline Model \$128.00/ea

Canine Stifle Model

Canine Stifle. Shows all ligaments and related structures like the meniscus. Only normal structures are shown.

JOR776 Wooden base 4 1/2" x 6" \$39.00/ea

Veterinary Anatomical Charts

Produced by Anatomical Chart Company, these scientific and medical illustrations are designed in consultation with veterinarians and zoologists to develop charts illustrating the anatomy, systems, structures, diseases and conditions of selected domestic animals. The first installment in this new line of veterinary charts are the Skeletal Anatomy of the Horse, the Cat and the Dog. A detailed illustration of the animal and its skeletal system is the focus of each chart. Details of the skeletal system and specific diseases are also illustrated. Each chart measures 26" by 20" and is printed on high quality heavy paper. All charts are available in paper, flexible lamination and rigid lamination.

Canine Muscular Anatomy Chart (A)

8704-PL1.5 26" x 20", Flexible \$19.95/ea
 8704-PL 26" x 20", Rigid \$33.95/ea

Pill Splitter, Bottle Closures & Culture Tubes

Pill Splitter

Many tablets or pills are too large for smaller veterinary patients. There is a need to precisely split pills for accurate dosing. This pill splitter has a thin razor-sharp blade that cuts the pill cleanly. The "V"-shaped trough holds a variety of pill sizes. Lightweight blue plastic can be easily cleaned.

JOR696 \$5.40/ea

DELUXE Pill Splitter

- An improved pill splitter for more precise and cleaner cuts. Additionally, larger nonstandardized pills fit.
- Flexible arms and cutting base with soft rubber material that holds pills more securely in place
- See through design assists user to visually align pill prior to splitting
- Molded polycarbonate with double-beveled German-made steel blade

JOR698 \$6.00/ea

Pill Splitter/Crusher

This handy device will either split or crush a tablet. Has a storage case on the bottom.

JOR696 Blue \$16.70/ea

StaySafe - Self-Sealing Bottle Closures

This patented product allows a luer slip syringe to repeatedly withdraw oral liquids from plastic amber pharmacy bottles. The Stay Safe is pressed into bottle opening. StaySafe Closures feature flexible sealing rings for compatibility with a range of bottle sizes. Size 24 fits snugly into most bottles with necks in its I.D. (inner diameter) range of 15.5mm - 18.25mm. Bottles should be selected for smooth inside necks sized with the stated inner diameter range. A smooth neck optimizes the ability of the closure to provide an effective seal.

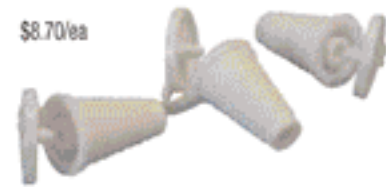

JOR1080 24mm/50 Pack \$41.00/ea

Universal Bottle Adapter **JorVet**

This adaptor features a graduated rubber plug that fits bottle openings 18-22mm. The lethered plug lets you reseal the bottle for later use. Attach oral dose syringe and withdraw desired dose.

JOR578 fits bottle openings 18-22mm, /5pk \$8.70/ea

Scalers

Delmarva 2000 Ultrasonic Scaler with Motor Pack

6 year warranty

Ultrasonic Tooth Scaler features:

- Automatic tuning: it recognizes and locks in on each insert.
- Powerful 25k magnetostrictive frequency.
- Programmed power control knob provides optimum energy for all inserts.
- Exclusive 25% power increase for extra boost.
- Accepts all Cavitron style 25k inserts.
- Specialty insert power setting for feline urethral catheters and other inserts.
- Unique low water pressure warning light.

Motor Pack features:

- Speeds of 3000 to 22000 RPMs-wide range for polishing or drilling.
- Foot switch allows hands free operation.
- Hand piece is a sealed unit which generates no heat and requires no lubrication.

DE-1N Includes: Detachable scaler hand piece, Plug-in Micro Motor Hand Piece, 1 TFI 3 insert, 12 prophy cups, 12 prophy paste, 1 prophy angle, In-line water filter, quick release valve, 6 year warranty \$2,077.00/ea

Delmarva 2000 Ultrasonic Scaler

Dental Handpiece Lubricant

JOR841LA 8oz spray \$62.00/ea

JorVet Ultrasonic Scaler

Our new magnetostrictive ultrasonic scaler has a sleek design with a small footprint size.

- Operates on 25KHZ
- Includes 2 inserts, one universal and one spatula tip.
- Unique LED display, same as JOR842x
- Foot pedal operation
- 6 year limited warranty
- Dimensions: 6 1/2"W x 9"L x 3 1/2"H
- Weight: 3 lbs 14 oz.

JOR842Q Accessories JOR452D2 & JOR452D1P \$755.00/ea

Piezoelectric Ultrasonic Scaler

Piezoelectric ultrasonic scalers differ from the conventional ultrasonic scalers. The piezo handpiece generates its ultrasonic waves via four ceramic plates subjected to high frequency alternation current. The electric mechanical efficiency of this system is much greater than that of traditional magnetostrictive systems.

There is very little heat released and it is possible to work with very little water spray. All available in a sleek, contemporary design with an operation frequency of 29KHZ. Foot pedal operation; unique LED display that indicates the power level that will best perform endo, periodontal work, or scaling. 6 year limited warranty (90 days on tips, 2 years on handpiece).

JOR842X 6.5" x 9" x 3.5", 4 tips included: 2 universal, 1 spatula and 1 periodontal. \$795.00/ea

Piezo Scaler Tip

These tips are for use with the piezo ultrasonic scaler.

Jorvet Rodent Molar Extractor

Used to deflect tongue and cheeks to enable best possible view of problems. **Jorvet**

JOR41ME \$48.00/ea

Rodent Tooth Rasp

Molar Rasp (rabbits). Unsuitable for debulking but good for removal of small spurs.

JORGENSEN JOR51RR \$60.00/ea

Dental Wedge

The use of a mouth gag or speculum is a common procedure in small animal medicine. Maintaining an open mouth is a requirement for many dental cases and for proper examination of the upper airways. The wedge is a clear plastic mouth prop that features:

- Anatomic design for proper, secure placement between premolars and molars
- Radiolucent for unobstructed radiographs
- Autoclavable
- A hole is provided to attach a suture for emergency removal
- Can be used if canine teeth are absent
- Soft and pliable for patient comfort.
- Suggested uses: intubation, oral surgery, dental procedure, oral exam, radiographic exam **Jorvet**

JOR51Q Small \$19.50/ea

JOR51R Large \$19.50/ea

Rodent Cheek Dilator

JOR51RDL Large \$21.00/ea

Root Tip Pick **Jorvet**

Heid Brink tooth ejector. Sometimes during extraction, tooth fragments can break off and remain in the socket. This instrument has a thin delicate tip that helps loosen and remove those remaining fragments.

JOR42X \$19.50/ea

Jorvet Lightweight Rodent Mouth Gag

Smaller with less bulk than standard rodent gag. Knurled knob adjusts opening.

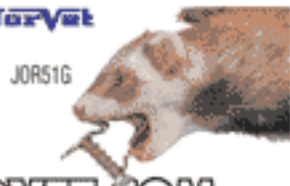

JOR51RGS \$60.00/ea

Nazzy Ferret Mouth Gag **Jorvet**

A smaller version of the feline gag. This works very well on ferrets, kittens, and small puppies.

JOR51G 1 1/8" \$35.00/ea

| JOR41K | 6 German Instruments | \$105.00/set |
|--------|----------------------|--------------|

Small Animal Rainbow Propy Kit

This kit contains all the instruments needed for doing the proper dental examination and cleaning.

The kits has the following features:

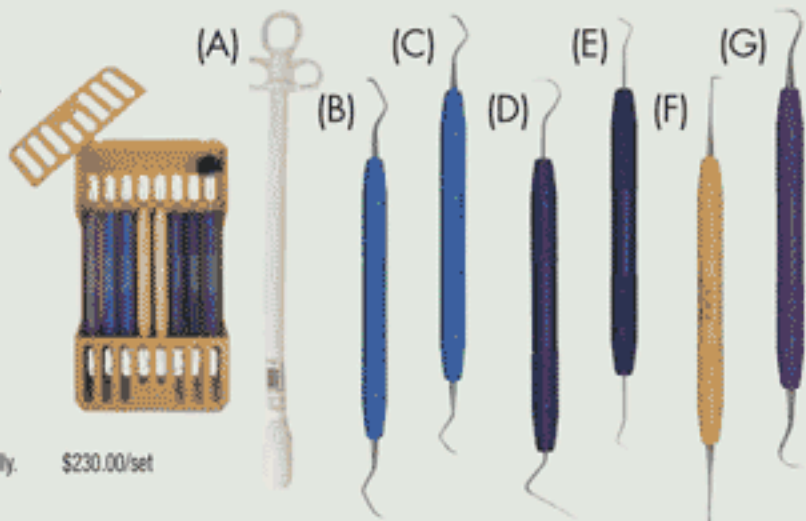

- Cryogenically-treated 440A-USA stainless steel is guaranteed harder, tougher and will hold it's edge 2-7 times longer than competitor's.
- Ultra-large handle for premium comfort combined with the light weight instrument reduces risk of Carpal Tunnel Syndrome
- Exclusive extended knurling pattern gives you maximum control for leverage as well as torque.
- Anatomically color-coded to speed up set-ups and pick-ups.
- Kit comes with a sterilization cassette tray useful for sterilization and storage.

Instruments included are:

- (1) Mirror #4, (1) Explorer #2, (1) Explorer/Probe 23/12, (1) Jacquette Scaler 2s-3s, (1) Jacquette Scaler 6s-7s, (1) Columbia Curette 4r-4l, and (1) Columbia Curette 13-14.

JOR973N 7 instruments, Tray and Dental Chart. Instruments available in Propy Kit or Individually.

Curettes, Files & Rasps

Jorvet Crossley Molar Luxator

Designed to facilitate extraction of molars with a minimum of damage to the alveolus and surrounding soft tissue. One cutting blade is for insertion down buccal or lingual surface. The other end of the instrument is set at right angles to penetrate between molars.

JOR41MR \$45.00/ea 

Jorvet Crossley Rabbit Incisor Luxator

Incisor malocclusion with resulting over growth is a common and serious problem in rabbits. Frequent clipping is required with the risk of splitting the incisors. Extraction is the only permanent solution but the roots of the incisors are large relative to the jaw. The Crossley incisor luxator was designed especially for this procedure. The instrument matches the shape of the rabbit incisor. It is double ended for various size incisors. Complete with instructions for use.

JOR41CR \$45.00/ea 

Columbia Curette

Designed to remove subgingival calculus. To root plane, use short quick overlapping strokes.

JOR41E Double Ended, C2L/C2R \$24.00/ea

This attractive professional looking kit has six different instruments to help elevate any size of wolf tooth.

Different elevators:

- 5mm sharp concave point with rounded backside, 6" length
- 5mm sharp concave point with a curved head, 6" length
- Large 9mm concave sharp head, 6" length
- Longer, heavier handle with a 5mm slightly curved deep concave head, 9" length
- Longer, heavier handle 5mm deep concave head, 9" length
- 9mm concave curved replaceable head on ergonomic curved heavy handle, 8" length
- All in handy, padded black zipper pouch with red velvet lining

JOR43Y \$99.00/ea

JorVet

Wolftooth Elevator Set

Two different head sizes allow this instrument to "cap" the wolf tooth. By rotating clockwise and counter clockwise, the tooth can be separated from the alveolus. Angulated head is useful on teeth that are set well back.

JOR43AB Stainless Steel. 1/4" and 3/8" Heads. \$110.00/ea

Wolftooth Elevator

The length of the blade can be shortened or lengthened as desired by loosening the set screw with the wrench.

JOR43W \$22.50/ea

Deluxe Wolf Tooth Elevator

JOR709 with Ergonomic Handle., 22cm L. \$94.00/ea

Double End Elevator 4mm **JorVet**

This double-ended elevator has a unique veterinary design. The fine tips are both curved with an elevator groove. One end of the groove is on the inside concave side and the other end of the groove is on the outside convex side. This allows the elevator to follow the large root curves which exist on many animal teeth (i.e., deciduous canine teeth).

JOR42Y Stainless Steel Knurled 7 1/4" L handle. \$33.00/ea

Dental Elevator with Notched "V" Tip.

Holds dental burrs into a convenient and easy to see block. The magnetic base holds up to 14 burrs securely. Drain holes prevent rusting. Non-slip feet add stability. Autoclavable. Cover sold separately.

Dental Supplies

Explorers, Mirrors, Scalers & Scrapers

Explorer/Measuring Probe

The delicate explorer tip is used for increased tactual sensitivity in the gingival sulcus. It locates subgingival calculus and can be used to check tooth mobility. The periodontal measuring probe is graduated in millimeters. It is held parallel to the long axis of the tooth and measures gingival sulcus depth.

Cochran Dental X-ray Positioner

Small animal dental radiography is vital to the successful diagnosis and treatment of dental disease. However, obtaining accurate intra-oral films can be challenging unless the proper techniques are used. Bisecting Angle Imaging is a well-established technique in both human and veterinary dentistry. With this approach, even the most difficult to reach teeth are properly radiographed. The patented COCHRAN BISECTING ANGLE DENTAL X-RAY POSITIONER will help veterinarians and technicians get excellent quality films each time. What is A Bisecting Angle? - In any 90-degree arc there is one angle at which an X-ray beam will accurately shadow the tooth on film. This is the bisecting angle: the bisection of the long axis of the tooth and the angle of the film. The X-ray beam is directed perpendicular to the bisecting angle for the perfect undistorted image.

FEATURES AND BENEFITS

- Perfect for any teeth, especially
 - Canine teeth
 - Maxillary Premolars and Molars
 - Incisors, especially maxillary
- No more film taped to tongue depressors or forceps that must be hand-held or "propped up" for filming
- Set the angle, lock in place, and step out safely for radiographing
- Virtually eliminates hand motion and blurring of the film
- Elongation, shortening, overlapping of teeth and surrounding structures eliminated or greatly minimized with the bisecting angle technique
- May be used with beam limiting devices (cones) and standard collimator heads
- Accommodates standard film, Computed (CR) film, and Digital (DDR) film
- Lightweight for easy handling, will not add pressure on patients' mouths

JOR1008 \$220.00/ea

Jorvet Equine Dental Fulcrum

Use as a fulcrum to gain leverage in conjunction with a molar extraction forceps when extracting large cheek teeth.

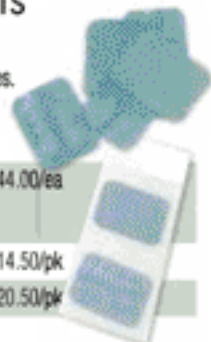

JOR705F Dual End, 22" (54cm) L. \$232.00/ea

Jorvet Dental X-ray Film Mounts

Veterinarians are increasingly using specific dental x-ray machines. A dental x-ray unit uses very small dental film and requires multiple film pieces. This small film is difficult to store and catalog correctly. The dental film mounts help solve this problem.

| | | |

| JOR496C | Premolar Float with short right angle shaft. Especially effective on premolar hooks and special "bit" requirement. | \$120.00/ea |

Specialty designed for dropping over and onto the last molar and removal of hooks that can develop on the caudal edge of that tooth.

JOR496D Rear Molar Float, 13 1/2"L shaft \$120.00/ea

Jorvet Carbide Float Blade

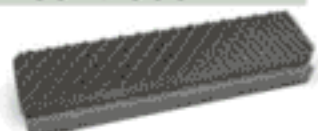

These blades take alot of the work out of floating a horse's teeth. The carbide metal is very hard and gives a razor sharp edge. This is the new standard in equine dentistry. Blade can be re sharpened 3 times. Available in 3 different grits: fine, medium, and coarse. Medium is the most common grit used. Fits any standard flat headed float. Short Flat Blade for specialized floats (i.e., bit seat float).

| | | |
|---------|---|-------------|
| JOR57 | Medium Grit, 3 1/4" x 1". | \$101.00/ea |

The Lone Star Veterinary Retractor System

The Lone Star Veterinary Retractor System consists of two components, the autoclavable plastic ring and the accessory elastic stays. Because of its unique design, the retractor ring easily can be adapted to the patient's anatomy. The elastic stays allow the surgeon flexibility over the amount of tension applied and precise retraction of the incision without obstruction. Prep and drape patient in usual manner, then apply the retractor.

JOR4407 Retractor Ring Only, Small \$119.00/ea

AccuJack Ejaculator **Jorvet**

The control box has the newest electronics and features both automatic and manual settings. The automatic cycle is adjustable over a range of time settings. The level of stimulus can also be set by the operator. The self-contained battery holds the longest charge of any ejaculator available. The probe is a segmented design. The concept is simple. Stimulus is applied to a smaller area inside the bull via a segmented length of the probe. The target ganglia can be more precisely stimulated versus the motor control nerves. This will help avoid the bull going down in the chute and severe muscular spasms. The stress on the animal is greatly reduced and knockdown is very unlikely. This saves time by not having to retest bulls. More segments of the probe can be activated by just flipping additional switches. The probe head is heavily weighted on the ventral side to keep it down. The cord plug-in is a bright orange and extends 6" beyond the end of the probe yoke.

Kit includes:

- Case constructed of heavy-duty virtually unbreakable material
- Collection handle
- JOR102d1 latex reusable cone
- JOR102d9 disposable cones. 100/pk.
- Instruction manual
- Segmented probe

Jorvet Bovi-Vet Calf Drencher

A safe and quick method for oral liquid therapy in calves.

JOR137M 2-liter container \$23.70/ea

Flux Rumen Infusion Pump

Flux Rumen Infusion Pump. Administering oral fluids in the very large volumes needed for a full sized bovine can be a challenge. Volumes of 40 liters (12 gallons) or more need to be delivered quickly. The Flux pump was developed to meet this need.

- The brass pump has a large stroke volume both during the up and down movements.
- Connects via a standard garden hose quick-release fitting
- Heavy-duty spring metal tubing can withstand chewing
- Length of 1.7 meters marked to show positive placement into the rumen. The combination of proper length plus heavy-duty chewing resistant tubes makes an attached nose long unnecessary. Some suggested uses:
- Propylene glycol with calcium given immediately postpartum in dairy cows
- Water: down cows get dehydrated quickly
- Various energy and electrolyte "cocktails"
- Inoculation of rumen contents from a healthy donor animal

JOR901 40 liters (12 gallons) \$410.00/ea

Pump (only for Flux Rumen Kit)

Selekt Cattle Pump is a newly developed and field tested stomach pump from Denmark. This new pump allows large volumes (1 1/2 gallon) of fluids to be administered safely by one person in just two minutes. The Selekt pump has a large oral tube (3.25m) that passes deep into the esophagus to avoid placement errors. A heavy-duty outer tube that the cow can chew on protects the wire-reinforced tube. An attached nasal tong helps hold the tube in position while pumping. The lightweight plastic pump is placed into a 5-gallon bucket (not included). A heavy-duty quick release system links the pump to the stomach tube. Instructional CD is available.

JOR901P \$140.00/ea

JOR1048 Series

Equivet Carbide Magnetic Float Blade

These blades are a very sharp solid carbide with rounded corners. Hollow shaft lightens weight. The shaft is flattened at its attachment to the handle. This gives the operator orientation on the blade location.

Carbide Float Blade

These blades take alot of the work out of floating a horse's teeth. The carbide metal is very hard and gives a razor sharp edge. This is the new standard in equine dentistry. Blade can be resharpened 3 times. Available in 3 different grits: fine, medium, and coarse. Medium is the most common grit used. Fits any standard flat headed float. Short Flat Blade for specialized floats (i.e., bit seat float).

| | | |
|--------|--------------------------|-------------|
| JOR57C | Coarse grit, 3 1/4" x 1" | \$101.00/ea |
| JOR57 | Medium Grit, 3 1/4" x 1" | \$101.00/ea |
| JOR57F | Fine Grit, 3 1/4" x 1" | \$101.00/ea |

Large Animal Dental

Jorvet Equine Speculum Dental Light

The Equivet dental light attaches to any brand of full mouth speculum using incisor plates (i.e., McPherson and Meister speculums). It floods the entire mouth with high intensity halogen light. This ensures seeing the entire dental arcade. Its small "AAA" battery pack attaches right to the speculum and avoids any long hanging wires.

JOR38X \$126.00/ea

Deluxe Wolf Tooth Elevator

JOR709 with Ergonomic Handle., 22cm L. \$94.00/ea

Double End Elevator 4mm

JOR42Y Stainless Steel Knurled 7 1/4" L handle. \$33.00/ea

EquiVet Dental Pick

JOR939 Stainless Steel, Sharp, 19", 48cm \$52.00/ea

EquiVet Parellel Gingival Elevator

Useful for exploring and elevating between teeth. "T" handle.

JOR939B Stainless Steel, 19", 48cm, Parallel \$54.00/ea

JOR939A Stainless Steel, 19", 48cm, Perpendicular \$55.50/ea

Fetal Extractor

This calf puller provides an entirely new approach to difficult calvings. With one of the handles you can move the two separate hooks alternately, pulling first one limb and then, with the next movement of the handle, the other limb. The most difficult presentation can be zig-zagged out in this manner. The extra-long 65" no-slip shaft disassembles in the middle. Breech is supplied with an adjustable, easy-to-clean chain.

JOR99 \$198.00/ea

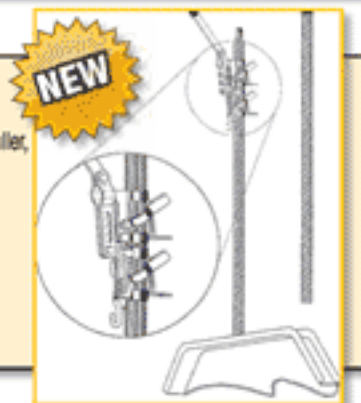

Economy Calf Puller

This unit has a design similar to the Hercules calf puller, but costs considerably less.

JOR99E \$120.00/ea

Calf puller carry case

JOR99C \$17.55/ea

Roaring Burr (French)

For use in equine laryngeal hemiplegia (roaring). French model with hooks.

JOR62S 8 1/2"L. \$18.00/ea

Soft Tissue Protector

Soft Tissue Protector. Fits polishing head of a dental unit.

JOR41ST \$105.00/ea

Diamond Disc Safety Shield

Diamond Disc Safety Shield.

JOR41SS Safety shield only \$105.00/ea

Equine Dental Instruments

A large dental patient like a horse needs oversized equipment. These dental probes, scalers, and explorers are giant sized to 19" with knurled handles. If you do a lot of equine dentistry, you are going to find them very useful.

- JOR440 Explorer or Shepherd's Hook \$36.00/ea
- JOR440A Sickle Shaped Scaler \$36.00/ea
- JOR440B Sickle Shaped Scaler-Heavy \$36.00/ea
- JOR441 Dental Probe Heavy Tip, Calibrated probe is used to measure depth of periodontal pockets \$39.00/ea
- JOR441A Dental Probe Fine Tip, Finer calibrated tip for pulp horns and tooth surface pockets on the occlusal surface of cheek teeth. \$42.00/ea

Dental Scraper

Dental Scaler. #6. Stainless steel.

JOR42J #6. Stainless steel. 6"L. \$4.50/ea

Tooth Cutter

Molar Cutter. The most effective design of a molar cutter has a parallel alignment of the jaws to the tooth surface. This allows the whole tooth to be trimmed, not just at the narrow point of attachment. The jaws of this instrument are a special hardened tempered steel. Knurled handles for a non-slip grip.

JOR708 Angled-56cm \$795.00/ea

JOR707 Straight-56cm \$675.00/ea

Jorvet Tooth Punches

The punch is used for removal of cheek teeth through a trephined hole into the sinus. A knurled handle gives a better grip. A round head with a slight recessed area fits better onto the tooth. Stainless steel.

Tooth Punch-Curved

JOR713 20cm L. \$42.00/ea

Tooth Punch-Straight

JOR712 20cm L. \$39.00/ea

Large Animal Supplies

Hooks, Colostrometers, Balling Guns & Leg Splints

Krey Hook

This double-action OB hook will bite into part of the fetus in the process of doing an embryotomy. Should the instrument slip, the hooks will close automatically and prevent injury.

JOR19 Stainless Steel, 8"L. \$24.00/ea

OB Double Eye Hook

JOR19R Very easy to use. 5 1/2" L. \$15.00/ea

Harms OB Hook

Stainless steel. Similar to JOR19c only longer. 4"L.

JOR19HB Blunt End \$12.00/ea
 JOR19HS Sharp \$12.00/ea

Jorvet Equine Colostrometer

The Jorvet Equine Colostrometer utilizes only a small 15ml sample of the mare's colostrum by comparing the specific gravity to distilled water in a plexiglass hydrometer. From the specific gravity obtained, a determination can be made whether or not the foal will be receiving colostrum with adequate IgG concentration. Another benefit is if the colostrum specific gravity is fairly high, up to 250cc can be frozen for a colostrum bank.

JOR281 \$91.00/ea

Hydrometer Cylinder

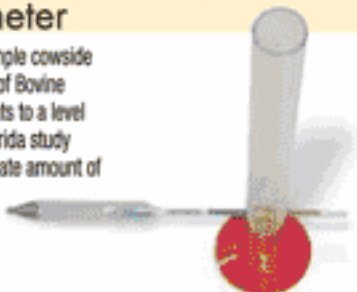

JOR281D2 \$27.90/ea

Jorvet Bovine Colostrometer

The Jorvet colostrometer measures IgG content in a simple cowside test. The graduated cylinder is filled with a few ounces of Bovine colostrum. The colostrometer is gently inserted and floats to a level indicating the colostrum IgG content. A University of Florida study found only 20 percent of colostrum contained an adequate amount of IgG for good calf health.

JOR349 Plastic \$57.00/ea

Colostrum-Plus

- Now USDA approved for protection against E-Coli, K-99 antigen
- USDA approved for failure of passive transfer
- Still real colostrum. Not a substitute like cheese whey or blood plasma
- Powder form in foil-lined pouch of 350 gm
- Now with 3-year dating
- Detailed literature upon request
- 12 pk/display box

JOR330EC Dozen \$129.00/dz

Balling Gun, Calf, with ribbed 5/8" dia. head. White.
 JOR793A 5/8" dia. head. White. \$1.35/ea

Jorvet LePill Balling Gun

Le Pills are a family of extra large boluses that were developed in cooperation with research conducted at a European veterinary school. Drench and paste use can be dangerous if not properly administered. These boluses are large, but easily dissolved. There is a series of three different formulated boluses for the variety of metabolic conditions encountered in today's high productivity dairy cow. Each tablet is packaged individually in a plastic tube. LePills Balling Gun is especially designed for the large oversize boluses listed above. It has a slightly angled shaft with a wide trigger, and is one of the safest and sturdiest balling guns made.

JOR901B \$68.00/ea

Jorvet Multi-dose Balling Gun

- Simplest design for ease of administration
- High impact PVC tube that resists biting
- Holds enough boluses of any size for any procedure
- Lightweight, only 1.5 lbs.
- Field-tested for over 5 years at some of the country's largest feed yards

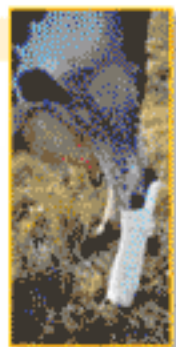

JOR185M Holds up to six full-size boluses. 7/8" dia. \$36.00/ea
 JOR185MS Holds up to five calf-size boluses. 5/8" dia. Blue handle. \$22.50/ea

"Bos" Lower Leg Splint

A heavy-duty reinforced rigid PVC splint with closed-cell foam lining. Especially designed for use in larger animals with flexor tendon or lower leg nerve injuries. Placed on the back of the leg and held in place with bandage material (not included).

JOR927 Calf, Green, hindleg, 40cm. \$34.00/ea
 JOR927A Cow, Small, Blue, 47cm. \$45.00/ea

Mastitis, Equine Recovery Hoods & CMT Tests

Jorvet Mastitis Test X-purt

CMT can now be done with a one-hand operation. The 300ml X-purt reagent reservoirs (10 oz) acts as a handle. Milk is put in each paddle chamber (about 3ml or 0.1 oz). A quick squirt of reservoirs inputs equal amounts of test solution into each chamber. Swirling for usual coagulation recognition. Color Chart included. Reservoir bottle capacity will test about 15 cows.

JOR370X Just refill from CMT liquid (JOR370L). \$22.50/ea

Mastitis Indicator **Jorvet**

Jorvet Mastitis Indicators. Color indicator test sheets for mastitis infections. Simple and safe to use. One colored square for each udder quarter.

JOR370M 25-pack \$5.10/pk

Chain Ecrasseur

This is the popular ratchet type ecrasseur by Chassignac. Stainless Steel.

JOR37E German-made. 19". \$410.00/ea

Equine Padded Recovery Hood **Jorvet**

This protective hood is a valuable tool in the prevention of head trauma such as facial nerve paralysis, to any horse undergoing anesthesia. The thick yellow closed-cell foam padding has openings for eyes, ears, and muzzles. The area around the eyes is double padded.

| | | |

Drenches

Henke Drench-Matic 23cc

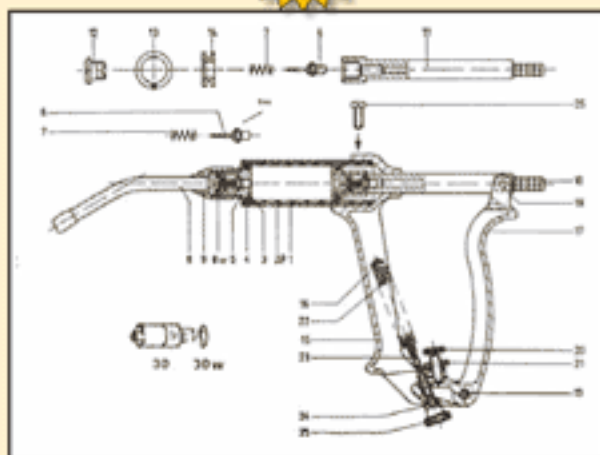

An automatic syringe for administration of solutions and suspensions. Its transparent plastic graduated barrel allows instant check of dosage setting. An "anti-block" valve system prevents blocking, so that smooth continuous operation is guaranteed. Easily adjusts from 0-23ml in 2.5ml increments. Special hardened enamel painting provides both aesthetics and durability.

JOR128M Drench-Matic Syringe complete with container. \$160.00

Small Emasculator. Stainless steel, 7 1/2". 

| | | |
|--------|--------|------------|
| JOR36S | 7 1/2" | \$81.00/ea |
|--------|--------|------------|

Serra Modified Emasculator

Hauptner's finest emasculator, excellent for equine work. For one-hand use. A concave cutting plate draws the cord concentrically into the jaws of the castrator, whereby slipping of the cord is avoided. The cord and surrounding strands are centrally gripped, pressed together and cut through. Reduces tissue slippage and post-op hemorrhage.

| | | |
|----------|-----------------------|-------------|
| JOR37SA | Hauptner, 14", Chrome | \$745.00/ea |
| JOR37SAS | Stainless Steel, 14" | \$540.00/ea |

Percussion Chisel

Dental Chisel with sliding bar or percussion handle. The working end has a notched "V". It works great for removing upper premolar hooks and lower rear molar hooks. Stainless steel.

| | | |
|--------|------------------|-------------|
| JOR701 | 23" L, collapsed | \$168.00/ea |
|--------|------------------|-------------|

Small Loop Abscess Knife

Designed to curette out the smallest of abscess with this very sharp, but small loop.

| | | |
|--------|---|------------|
| JOR34L | Left handed only, ergonomic shaped wood handle. | \$45.00/ea |
|--------|---|------------|

Short/Narrow Jaw Molar Extractor Forceps

Serrated short jaw creates good purchase on cheek and pre-molar retained deciduous teeth. These forceps have a shorter or smaller jaw surface than compared to the standard JOR43 Molar Forceps for wide jaw surface.

| | | |
|--------|------------|-------------|
| JOR43B | 21" length | \$180.00/ea |
|--------|------------|-------------|

Wolftooth Extractor Set

Includes four different sized interchangeable heads that fit completely around the tooth reducing chance of slipping and injuring the soft tissue or gingiva. Includes elevator blade for loosening tooth. Also can be used to remove tooth fragments.

| | | |
|--------|----------------------------------|-------------|
| JOR711 | Comes in convenient canvas case. | \$290.00/ea |
|--------|----------------------------------|-------------|

Wolftooth Extractor Forcep

Wolftooth Extractor Forceps. Stainless steel.

| | | |
|--------|-----------|------------|
| JOR43H | 11 1/2"L. | \$45.00/ea |
|--------|-----------|------------|

Wolftooth Elevator

The length of the blade can be shortened or lengthened as desired by loosening the set screw with the wrench.

| | |
|--------|------------|
| JOR43W | \$22.50/ea |
|--------|------------|

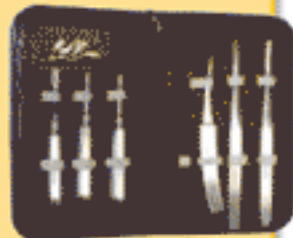

Wolftooth Elevator Set

This attractive professional looking kit has six different instruments to help elevate any size of wolf tooth.

- Different elevators:
- 5mm sharp concave point with rounded backside, 6" length
- 5mm sharp concave point with a curved head, 6" length
- Large 9mm concave sharp head, 6" length
- Longer, heavier handle with a 5mm slightly curved deep concave head, 9" length
- Longer, heavier handle 5mm deep concave head, 9" length
- 9mm concave curved replaceable head on ergonomic curved heavy handle, 8" length

All in handy, padded black zipper pouch with red velvet lining

| | |
|--------|------------|
| JOR43Y | \$99.00/ea |
|--------|------------|

Wolftooth Elevator Set

Two different head sizes allow this instrument to "cap" the wolf tooth. By rotating clockwise and counter clockwise, the tooth can be separated from the alveolus. Angulated head is useful on teeth that are set well back.

Drinkwater Mouth Gag

Drinkwater Mouth Gag for cattle. Holds onto inter-dental space. Self-retaining.

| | | |
|--------|-----------------|------------|
| JOR380 | (right or left) | \$21.00/ea |
|--------|-----------------|------------|

Equine Full Mouth Speculum **Jorvet**

Latest design of full-mouth Equine speculum. Made of lightweight aircraft high-grade aluminum, weighs only 31/2 lbs. Other improvements are larger knob for easily adjusting ratchet. A locking screw will hold ratchet position

JOR38ZX light weight \$1,550.00/ea

Equivet Dental Halter **Jorvet**

Especially useful for prolonged procedures. This special halter has a large, sturdy nose band made of a leather-covered round metal circle.

JOR914 A small ring is at each 90° for attachment of a support or restraint rope. \$236.00/ea

Weingart's Mouth Speculum

A full-mouth speculum for bovine use. The gag is easily inserted and has a self-locking mechanism to allow full visualization of the bovine oral cavity. **Jorvet**

JOR38W \$250.00/ea

Twitch **Jorvet**

Kendall model. Complete with tie rope.

JOR44 Stainless steel, 13". \$13.50/ea

Schoupe Wedge **Jorvet**

Reduces the danger of slipping with this instrument since it is held in place by the equine cheek area. Inserted without difficulty. It permits greater freedom in treating any part of the oral cavity.

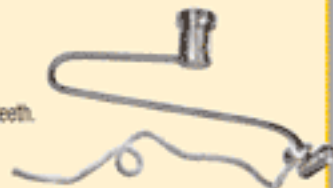

JOR38S Tie rope included. \$48.00/ea

Meier Dental Wedge

Helps facilitate examination of the mouth and floating of teeth.

JOR38M \$51.00/ea **Jorvet**

Bayer Mouth Wedge

This oral speculum is very handy when examining the oral cavity or doing dental work in equine. **Jorvet**

JOR38 Stainless Steel \$92.00/ea

Meister Equine Mouth Gag & Light

"The ultimate speculum for doing the right job." Originally developed, designed, and patented by Dr. Jack Meister. This speculum is the gold standard for doing proper and thorough equine dentistry. A full-mouth speculum. Stainless steel. Includes Biothane straps. Improvements include ridge along ratchet to help avoid side slippage. Recessed areas in upper dental plate for placement of light source (JOR38X) included. Caution should be used with all full-mouth equine speculums. Be sure set-screw is set properly to prevent slippage.

JOR38ZM Modified \$1,490.00/ea

McPherson Mouth Gag

Full-mouth gag for equine dental work. Comes complete with leather straps and tooth plates for upper and lower incisors.

JOR38MPS Stainless Steel \$356.00/ea

Pony Size Mouth Speculum

JOR38MPSP Pony Size, Stainless Steel \$350.00/ea

Equivet Mouth Wedge

JOR38X Stainless steel. \$88.00/ea

Replacement Rubber Block

This design employs molded rubber blocks. These give an atraumatic cushion plus more comfort for the horse. The rubber block is simply replaced when worn.

JOR38KB \$24.00/ea

Equivet Pony Size Mouth Wedge

This design employs molded rubber blocks. These give an atraumatic cushion plus more comfort for the horse. The rubber block is simply replaced when worn.

JOR38KP Stainless steel \$86.00/ea

Jorvet

Spare Rubber Block

This design employs molded rubber blocks. These give an atraumatic cushion plus more comfort for the horse. The rubber block is simply replaced when worn.

JOR38KPB for Pony mouth wedge \$21.00/ea

EquiVet Cheek Retractor

Pulls the cheek gently away from the cheek teeth so occlusion can be evaluated on a closed mouth. Also useful for providing more room when power float equipment is being used. By turning retractor around, you get two sizes.

JOR938 Stainless Steel \$52.00/ea

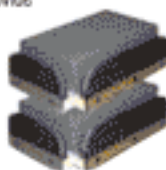

Jorvet Equine Hoof Positioning Blocks

These simple blocks elevate the hoof off the ground for better x-rays of the lower limb including evaluation of any P3 rotation.

- Lightweight, shatterproof, polycarbonate and wood construction
- Non-slip surface covered with special 3M material Radiopaque. Cross hairs provide geometric position indicator on the exposed film.
- Dual cassette holding slots for lateral and AP views
- Holds all sizes of x-ray cassettes
- Grid ready — has room in cassette slot to hold a grid if deemed necessary
- Attractive storage bag 12" L x 8" W x 10" H

JOR492X Block size is: 11" L x 7 1/4" W x 3 1/2" H \$180.00/pr

Eyesaver™ Eye Patch

Jorvet EyeSaver™, the ultimate in eye care, features the exclusive Equine Eye Patch. EyeSaver's Eye Patch effectively closes the horse's eye for maximum pain relief while allowing for constant monitoring of the injury or problem. EyeSaver affords the eye the most complete rest possible, eliminating the need for surgical closure. Don't let minor injuries become major problems—order your EyeSavers now. You'll be glad you did. EyeSaver Kit contains:

- EyeSaver hood
- 3 tear pads
- 3 snap-on rings
- 25 gauze pads

Equine "Army Surplus" Brown Leg Wrap.

This popular wrap was originally an army surplus product. The thick pad is brown on one side, white on the other. It is combined with two rolls of 6" brown cling gauze for a complete wrap. 18" x 22" brown gauze pad.

JOR3490 18x22 pad w/ 6" brown gauze (2) \$6.10/ea

Jorvet Equine Haler

A reusable inhalation "spacer." The one-way valve allows the medication to be passed only when the horse inhales. It can be easily cleaned for continued use. The inhalation device has been developed specifically for accurate administration of pharmaceuticals to horses with inflammatory respiratory diseases including chronic obstructive pulmonary disease (i.e., recurrent airway obstruction, or RAO). The Equine Haler provides a convenient method of administering all available types of metered dose inhalers (MDI) to horses. The MDI delivers the medicine at a suitable particle size, (<5 microns) for direct distribution to the small airways. Developed in Denmark and tested at the Centre for Equine Studies, Animal Health Trust, Newmarket, UK.

JOR344 One treatment takes 1-2 minutes. \$184.00/ea

Nequilizer Equine Nebulizer Kit

- Portable breath regulated nebulizer. Effective nebulization is all about:
- High lung deposition
- Ease of use
- Patient acceptance
- Minimizing wastage Based on the ultrasonic technique the Nequilizer is:
- Portable - handheld, rechargeable
- Intelligent - only operates when horse breathes
- Rapid - delivers 5 ml of medication in 15-20 breaths or 4- 5 minutes
- Direct - no tubing or large mask for aerosol to be deposited on
- Acceptable - low-resistance, quiet operation will not alarm horses
- Optimized - small median particle size (2.8um) with 90% of particles <5.5um
- Versatile - can be used with any water based solution
- User-friendly - light weight, ergonomic handle
- Visible - clear plastic chamber with indicator to confirm correct operation

JOR344NC 5cc, 50pk \$39.00/pk

Jorvet Equine Incisor Gag

There are situations where it is only necessary to examine the incisors. This simple gag is placed in the mouth the same way as a bit in the interdental space. It creates easy access to the incisors. Heavy-duty, but comfortable rubber held in place by adjustable nylon rope.

JOR386 Heavy-duty \$34.90/ea

Equine Leg Wrap & Technovit Treatment

Jorvet Equine Leg Wrap

Jorvet

Made of soft, quality bulk cotton which is covered on both sides with a permeable thin layer of nonwoven material. The wrap acts much like a diaper in that the wound exudate is lifted and absorbed into the thick middle cotton layer. A dark mark mid-line runs full length to give proper orientation during application. A wide variety of materials and sizes are now available:

Technovit Powder

Jorvet

This popular acrylic consists of a powder and liquid that, when mixed together, form a strong binding adhesive material. The liquid and powder are mixed together in a roughly 1:2 ratio. Until it hardens, it can be poured and shaped. After it hardens, it can be sawed, drilled, or filed. It has a number of suggested uses.

- Cattle: a block or boot is adhered to the bottom of the healthy or unaffected claw, for sole abscesses or foot rot.
- Horses: quarter cracks, any hoof defects.
- Small animals: replace the connecting rod and K-E clamps for external fixation devices.

| | | |

Dr. Irvin's Shurflow Teat Tube Zip Pack

JOR13Z 10 pack \$6.30/pk

NIT Teat Tools /Tentome & Lavage Admin Kits

Teat Injury Treatment. Covered or closed teat injury can be caused by being frozen, stepped upon or other trauma. A new system of conservative and natural treatment of closed teat injuries has been developed in cooperation with a European Veterinary School. The initial treatment consists of drainage of milk and antibiotic infusion with sterile flexible plastic udder infusion cannula.

NIT (Natural Insert for Teats) Teat Dilator. This short dilator consists of a natural waxy material similar to the teat's natural sebum. The teat is bandaged with teat bandage (JOR14b).

This NIT dissolves after several days. Later in the treatment regime a sterile soft flexible silicon implant is used to maintain teat canal patency.

NIT - Natural Teat Insert

JOR903 Foil packaged, 20pk \$24.60/pk

SIMPL - Silicone Teat Insert

Tatto Supplies & Suture Kits

Free Martin Probe

The JorVet Freemartin Probe is a newly developed vaginal probe to detect freemartin heifers and/or determine if heifers born co-twin to a bull have a normal reproductive tract. The crucial probe end length is 7cm. Research has shown that no freemartin calf has a vaginal length longer than 7cm. The distal end of the narrower center section is 14cm from the tip. Over 95 percent of heifers born co-twin to a bull and with a normal reproduction tract have a vaginal length of 14cm or more. Animals with a vaginal length of 7-14cm should have chromosome testing done to confirm if a freemartin. This probe is designed to be used on heifers 30 days of age or less.

JOR99FM \$27.00/ea **JorVet**

Parson's Walking Casts Products

Parson's Full Walking Cast

Spans from the upper cannon bone to the bottom edge of the hoof. It will immobilize both the fetlock and pastern joints. A rigid section of special unbreakable plastic is sewn and enclosed in a neoprene protective sheath. The brace is placed down the cranial part of the lower leg. It is attached by stretchable neoprene straps with velcro. The brace can be safely put on or taken off in seconds even by the horse owner. It can be washed and reused repeatedly. The price is half of the cumbersome ski boot style brace plus is lightweight and well-tolerated by the equine patient. 7" w x 13" h, secured by three attached 4" x 24" neoprene stretchable straps with double velcro closure. Washable neoprene construction. Padded for multiple day use.

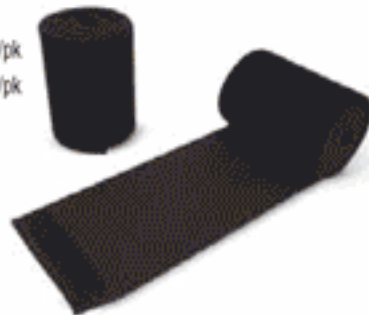

JOR637 \$199.00/ea

Parson's Equine Wrap

This special neoprene stretchy wrap with velcro straps can take the place of expensive bandage materials like Elastikon® or Vetrap™. Especially true when numerous bandage changes are needed over time. It can be washed and reused repeatedly.

JOR637B 4" Wide x 48" long, 2 pack \$33.00/pk
 JOR637C 2" Wide x 24" Long, 6 pack \$21.00/pk

Parsons 4- Strap Leg Stabilization

Designed to place over the carpus down to top of hoof wall for stabilizing and support.

- Reinforced rigid insert for stability
- Washable neoprene construction
- 4 to 5 attached plastic neoprene straps
- Self padded for short term, use cotton under lays as needed for long term
- Can be placed on front or either side of leg

JOR637CLS Colt Leg Stabilizer 4 strap 5 1/2" w X 18" h \$280.00/ea
 JOR637HLS Horse Leg Stabilizer 5 Straps, 6" x 23" \$350.00/ea

Parson's Lower Leg Brace

Also spans from the upper cannon bone to the bottom edge of the hoof. It will immobilize the fetlock and pastern joints. A rigid section of thick unbreakable plastic is sewn and enclosed in a neoprene protective sheath. Conventional bandages like Elastikon® or Vetrap™ are used to hold it in place. Parsons' wrap is even better to use. Again, this brace is simple to put on and take off and is fully washable. Padded for one day use. 5 1/2" w x 13" h. Washable neoprene.

JOR637A 5 1/2" w x 13" h. Washable neoprene. \$99.00/ea

Parson's Foal/Calf Flexor Tendon Brace

For contracted flexor tendons in young foals and calves. This concave brace is placed over the back of the front leg for reinforcement and stability.

- Washable neoprene construction
- Reinforced insert for stability
- 2 elastic straps attachment to brace
- Self-padded for short term use

JOR637TS 3.5" w X 9" h \$120.00/ea

Parsons Bowed Tendon Correction

This rigid concave brace is designed to fit over the flexor tendon for support in case of "Bowed tendon". It is self-padded with reinforced insert for stability. Made from washable neoprene. Can be used alone or in conjunction with Parsons walking cast.

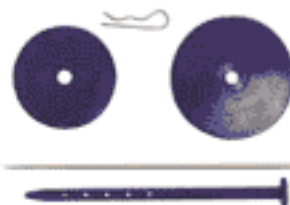

JOR637BT 2" w x 7" long. \$42.00/ea

JorVet Prolapse Kit

A kit for the correction of preparturient vaginal prolapse. This kit consists of 2 large buttons connected with a plastic rod that retains the vagina in place. Calving can take place with no interference. Detailed instructions included.

JOR359 \$4.80/ea **JorVet**

Catheters

Silicon Foley Catheter

Silicone is the preferred material for foley catheters. This catheter softens at body temperature. Equipped with a one-way valve for balloon inflation. Sterile.

| JOR693X | 8fr o.d. x 55cm L, 3cc balloon, White Opaque. | \$44.80/ea |

Extended Use Polyurethane Catheter

Most traditional jugular catheters are teflon. They can create a thrombosis and crack if left in place for over 48 hours. The development of new materials allows large-bore catheters that can safely be left in-dwelling for up to 10 days. The JorVet Extended Use Catheter softens at body temperature. Many of the common catheter-related problems, such as phlebitis, can be minimized with these catheters.

- 14g and 16g polyurethane catheter over needle
- Non-thrombogenic and non-cracking
- Can be safely left in the vein for up to 10 days
- This same catheter is used in 24 out of 27 U.S. veterinary teaching hospitals
- Suture wings with holes or suture groove attachment

| | | |

| JOR282D3 | 2pk 4mm to 6mm. Not tapered | \$6.00/pkg |
|----------|-----------------------------|------------|

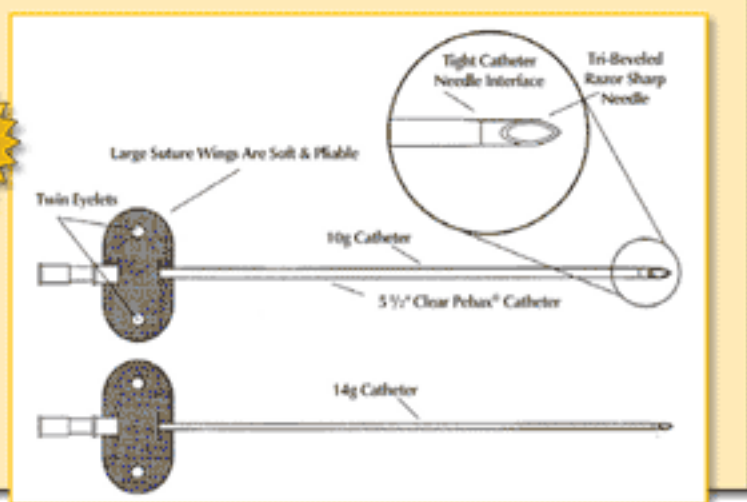

Jorvet Large Animal IV Catheter

Large animals need large volumes of IV fluids in a short period of time. Naturally, the IV catheter needs to be a large bore, and often is even put in bilaterally to maximize fluid administration speed.

Features:

- Large bore: 10g and 14g catheters. The 10g is the largest available.
- Longer lengths: 51/2" catheter lessens the risk of pulling out the catheter.
- Pebax® catheter implant grade material: much less bioactive to lessen thrombosis formation for long term >3 days placement.
- Kink resistant: other catheters like Teflon will kink upon bending, making them unusable.
- Clear catheter material versus opaque Teflon.
- Suture patch: a thin, flexible patch with twin eyelets. Allows suturing in place or hold with tissue adhesives. Reduces catheter pull-out.
- Competitive pricing and available through JorVet distributors.

| | | |
|---------|-----------|------------|
| JOR457A | 14g x 5.5 | \$10.20/ea |
| JOR457B | 10g x 5.5 | \$10.50/ea |

Large Animal Supplies

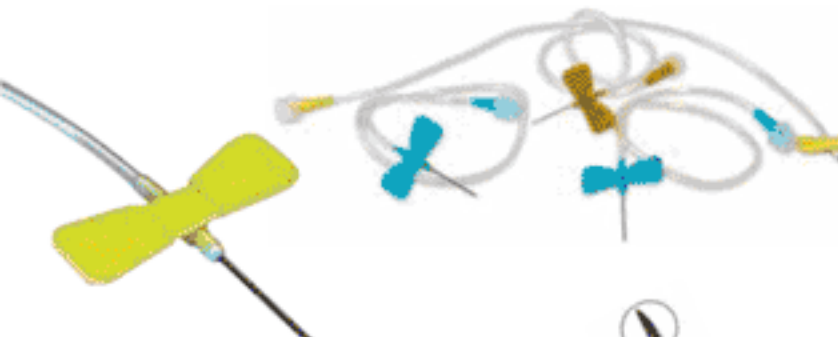

Needles & Fetotomy Supplies

Winged IV Infusion Set

These popular sets are commonly known as Butterfly® style IV sets. They are great for short term IV infusion or in difficult venipunctures. Tubing with female luer fitting is 12" long. A 3/4" razor-sharp needle is attached to flexible colored coded wings.

| | | |
|---------|--------------------------------|-------------|
| JOR454A | 19g. Yellow, Sterile. 100/box. | \$25.00/box |

| JOR18US | 38"L. | \$332.00/ea |
|---------|-------|-------------|

Jorvet Nano Paste Syringe

The use of bioscaffold materials is gaining widespread use in veterinary surgery especially for procedures like TTA. The challenge has been getting formulations that are easy or simple to use. Nano Paste is a white paste formulation that comes in a small sterile syringe. It is easily and precisely injected into the surgery site. There is no remixing freeze-dried granules or trying to pack in putty. Nano Paste has a proven ingredient of bioceramic hydroxyapatite. Hydroxyapatite has been used for over 20 years in human orthopedic medicine with numerous research articles pointing to its efficiency. It is not a bioglass dental putty that must undergo a reaction i.e. biomimetic. Nano Paste has ultrafine particles that allow a huge surface area for new bone cells to migrate into and readily start osteosynthesis. Use for: TTA procedures, Nonunions, Arthrodesis, or Augmenting an autograft.

 JOR278C 3", 1 dozen \$21.00/dz

JorVet

Ketogel **JorVet**

Ketogel™ is a concentrated energy gel packed with vitamins, amino acids, and trace minerals. It is designed to be used to help maintain normal blood glucose (sugar) during periods of stress (i.e., difficult calving and metritis). This stress period often leads to ketosis (acetonemia). The administration of an oral product often is a follow-up to an intravenous treatment of dextrose or glucocorticoids.

- Energy Source. Ketogel™ provides 290 grams of propylene glycol. This is rapidly absorbed directly from the rumen to the liver and converted to glucose.
- Vitamin A (40,000 Units), Vitamin D (10,000 Units), Vitamin E (100 Units). The ruminant is unable to synthesize these vitamins. There is an increased demand during periods of stress.
- Niacin (6 Grams) has a role in increasing glucose production and decreasing fat mobilization.
- Choline (6 Grams) and Methionine (6 Grams) are methyl group donors and have an important role in the regulation of fat deposition in the liver.
- Cobalt is a precursor of Vitamin B12. This is an important co-factor in glucose production.

JOR306 Dozen \$78.00/dz

Cartridge Dosing Gun

JOR294G \$39.00/ea

JorVet

Rubberized OB Suit **JorVet**

Rubberized OB Suit. With pants and jacket.

JOR30JR & JOR30PR

Rubberized OB Apron

Rubberized OB Apron. Suitable for wearing in conjunction with JOR29 or JOR29c.

JOR29A Rubberized, 120cm or 48" L \$37.50/ea

OB Shoulder Protector

This is the original Danish import, where the arm passes through an opening in the special easy-to-clean rubber shield. There's no bunching of the material in the arm area. If worn in conjunction with a rubber apron, it serves as an OB smock. Protector ties under opposite arm.

JOR29 Heat-sealed seams \$45.00/ea

OB Shoulder Cuff **JorVet**

Basically the same as JOR29 above, but less area is covered. Very handy in conjunction with disposable or rubber sleeves.

JOR29C Heat-sealed seams \$33.00/ea

Total OB Sleeve **JorVet**

The "Total" OB Sleeve. This new product gives additional coverage to the whole shoulder and under arm area. No need for clamps to hold in place or a separate shoulder protector. Helps reduce laundry expense and reduces accidental manure stains and smell. This glove is sensitive but strong, 1-mil thick with strong smooth seams. Package is 50 sleeves in a pull out dispensing box.

JOR300D Regular (Box of 50) \$21.00/bx
 JOR300DS Small (box of 50) \$18.00/bx

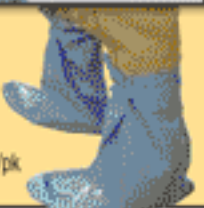

Disposable Plastic Boots

Fits over cowboy boots and large work shoes.

Handy tie feature keeps boots on tight. Blue.

JOR100BL Heavy 4 mil thickness. 21"H x 16"L. 50/bag. \$18.45/pk

Spare Rubber Rings

Spare rubber rings for OB cuffs

JOR29D \$7.50/ea
